1. Corporate Information

SBI Capital Markets Limited (hereinafter referred to as "the Company") is an Unlisted Public Limited Company domiciled in India and incorporated under the provisions of the Companies Act applicable in India. The registered office of the Company is located at 1501, 15th Floor, Parinee Crescenzo, G Block, Bandra Kurla Complex, Bandra East, Mumbai - 400 051, Maharashtra, India. The Company is engaged in business of Merchant Banking and Corporate Advisory services.

The Company is a wholly owned subsidiary and the Investment Banking arm of State Bank of India (SBI).

2. Material Accounting Policies

The Company has consistently applied the following accounting policies to all periods presented in these financial statements. In addition, the Company has adopted Disclosure of Accounting Policies (Amendment to Ind AS 1) from accounting period beginning from April 1, 2023 in pursuant to Companies (Indian Accounting Standards) Amendment Rules, 2023 from April 1, 2023. The amendment requires disclosure of 'material' (w.e.f. April 1, 2023) rather than 'significant' (up to March 31, 2023) accounting policies. Management reviewed the accounting policies and noted that amendment did not result in any changes to the accounting policies themselves, they impacted the way in which accounting policy information is disclosed.

Management considers following accounting policies as material:

- 1) Revenue from contracts with customer Refer Note 2(iii).
- 2) Financial Instruments-Refer Note 2(vii).

i. Basis of Preparation

The financial statements have been prepared in accordance with Indian Accounting Standards (hereinafter referred to as "Ind AS") notified under the Companies (Indian Accounting Standard) Rules, 2015 read with Section 133 of the Companies Act, 2013 (as amended from time to time).

Accounting policies have been consistently applied except where newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The financial statements are presented in Indian Rupees (INR) which is also its functional currency, and all values are rounded off to nearest lacs, except when otherwise indicated.

The company presents its balance sheet in order of liquidity in compliance with the Division III of the Schedule III to the Companies Act, 2013.

The financial statements for the year ended March 31, 2025 are being authorized for issue in accordance with a resolution of the directors on April 24, 2025.

ii. Use of Estimates

The preparation of financial statements in conformity with Ind AS requires that management make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities as of the date of financial statements and the income and expenses for the reporting period. The actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

The company makes certain judgements and estimates for valuation and impairment of financial instruments, useful life of property, plant and equipment, deferred tax assets/liabilities and retirement benefit obligations. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable.

iii. Revenue from contracts with customer

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. Ind AS 115, Revenue from contracts with customers, outlines a single comprehensive model of accounting for revenue arising from contracts with customers.

The group recognises revenue from contracts with customers based on a five-step model as set out in Ind AS 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation.

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of trade allowances, rebates, cash discount and amounts collected on behalf of third parties.

The group recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and specific criteria have been met for each of the Company's activities as described below.

a. Fee based Income.

- Issue Management and advisory fees are recognised as per the terms of the agreement with the
 customer/client i.e. fee income is recognised only when the specific act/milestone defined in the
 agreement is executed/completed.
- Fees for private placement are recognised on completion of the assignment.

b. Interest Income

Interest income from financial assets is recognized when it is probable that economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time proportionate basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial assets to that asset's net carrying amount on initial recognition.

c. Sale of Securities

Gains and losses on the sale of securities are recognised on trade date basis.

d. Dividend Income

Dividend income from investments is recognised when the right to receive dividends has been established.

Notes forming part of the Financial Statements as at and for the year ended March 31, 2025

iv. Property, Plant and Equipment

Measurement at Recognition:

Property plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the asset's carrying amount.

All items of property, plant and equipment are initially recorded at cost. Cost comprises acquisition cost and directly attributable cost of bringing the asset to its working condition for the intended use. The cost of an item of property, plant and equipment is capitalized only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

Depreciation:

Depreciation provided on Property, Plant and Equipment is calculated over the useful life by applying the written down value method as prescribed in Part C of Schedule II to the Companies Act, 2013, except in case of computers, servers, and hand-held devices wherein the management estimates the useful life to be lower i.e. 3 years. Computers, servers, and hand-held devices are depreciated over a period of three years on straight line basis.

Based on a technical evaluation, the management believes that the useful lives of the assets reflect the periods over which these assets are expected to be used, which are as follows:

| Description of Asset | Estimated useful lives (in years) | Depreciation Method |
|----------------------------------------------|-----------------------------------|---------------------|
| Buildings | 60 | WDV |
| Office Equipments (other than mobile phones) | 5 | WDV |
| Furniture & Fixtures | 10 | WDV |
| Vehicles | 8 | WDV |
| Computers | 3 | SLM |
| Mobiles phones | 3 | SLM |
| Leasehold improvements | Over the period lease | SLM |

Depreciation is provided from the date the asset is ready for its intended use. In respect of assets sale/disposal, depreciation is provided up to the date of sale/disposal.

The residual values, estimated useful lives and methods of depreciation of property, plant and equipment are reviewed at the end of each financial year and changes if any, are accounted for on a prospective basis.

Capital work-in-progress and capital advances:

Cost of the assets not ready for intended use, as on reporting date, is shown as capital work in progress. Advances given towards acquisition of fixed assets outstanding at each reporting date are shown as other non-financial assets.

Depreciation is not recorded on capital work-in-progress until construction and installation is completed and assets are ready for its intended use.

Derecognition:

The carrying amount of an item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is measured as the difference between net disposal proceeds and the carrying amount of the asset and is recognised in the statement of profit and loss when the item is derecognised.

v. Intangible Assets

Intangible assets are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization.

Amortisation:

Amortisation is calculated using the straight-line method to write down the cost of intangible assets to their residual values over their useful life of three years and is included in the depreciation and amortization expenses in the statement of profit and loss.

vi. Investment property

Investment properties are properties that is held for long-term rentals yields or for capital appreciation (including property under construction for such purposes) or both, and is not occupied by the Company.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Investment properties are depreciated using the written down value method over their estimated useful lives. The useful life has been determined based on technical evaluation performed by the management expert.

The carrying amount of an item of investment property is derecognised on disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is measured as the difference between net disposal proceeds and the carrying amount of the asset and is recognised in the statement of profit and loss when the item is derecognised.

vii. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

The Company recognizes all the financial assets and liabilities at its fair value on initial recognition; In the case of financial assets not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset are added to the fair value on initial recognition. The financial assets are accounted on a trade date basis.

For subsequent measurement, financial assets are categorized into:

a. Amortised cost:

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The gains and losses resulting from fluctuations in fair value are not recognized for financial assets classified in amortised cost measurement category. A gain or loss on a financial asset which is subsequently measured at amortised cost is recognized in profit or loss when the asset is derecognised or impaired.

b. Fair value through other comprehensive income (FVOCI):

The Company classifies the financial assets as FVOCI if the contractual cash flows represent solely payments of principal and interest on the principal amount outstanding and the Company's business model is achieved by both collecting contractual cash flow and selling financial assets. In case of debt instruments measured at FVOCI, changes in fair value are recognised in other comprehensive income. The impairment gains or losses.

S&

MUMA FRN 110100W

foreign exchange gains or losses and interest calculated using the effective interest method are recognised in the statement of profit or loss. On de-recognition, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.

In case of equity instruments irrevocably designated at FVOCI, gains / losses including relating to foreign exchange, are recognised through other comprehensive income. Further, cumulative gains or losses previously recognised in other comprehensive income remain permanently in equity and are not subsequently transferred to profit or loss on derecognition. The dividend income on equity instruments are recognised in the statement of profit or loss.

c. Fair value through Profit or Loss (FVTPL):

The financial assets are classified as FVTPL if these do not meet the criteria for classifying at amortised cost or FVOCI. Further, in certain cases to eliminate or significantly reduce a measurement or recognition inconsistency (accounting mismatch), the Company irrevocably designates certain financial instruments at FVTPL at initial recognition. In case of financial assets measured at FVTPL, changes in fair value are recognised in profit or loss.

Profit or loss on sale of investments is determined on the basis of weighted average price.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of principal market, in the most advantageous market for asset or liability.

The principal market or the most advantageous markets must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a nonfinancial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value
 measurement is directly or indirectly observable. In case of unquoted debt instruments, valuation would
 be done in accordance with the valuation guidelines issued by the Fixed Income Money Market and
 Derivatives Association of India (FIMMDA).
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Based on the company's business model for managing the investments, the company has classified its investments and securities for trade as under:

Notes forming part of the Financial Statements as at and for the year ended March 31, 2025

| Sr. No | Particulars | Cotomo |
|--------|--------------------------------------------------------------------|----------------|
| 1 | Investments-Debt Instruments | Category |
| 2 | | Amortised Cost |
| | Investments-Equity Instruments other than subsidiary and associate | FVOCI |
| 3 | Investment in Mutual Funds and AIF Funds | EVEDI |
| 4 | Securities for trade portfolio | FVTPL |
| · | 1 Securities for trade portiono | FVTPL |

Investment in subsidiaries and associates is carried at deemed cost less impairment loss if any (previous GAAP carrying amount) as per Ind AS 27.

Financial liabilities are carried at amortised cost using the effective interest rate method. For trade and other payables, the carrying amount approximates the fair value due to short maturity of these instruments.

Impairment of financial assets

In Accordance with Ind AS 109, the group recognise impairment loss applying the expected credit loss (ECL) model on the financial assets measured at amortised cost, debt instruments at FVOCI, lease receivables, trade receivables, other contractual right to receive cash or other financial asset and financial guarantee not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12 months expected credit losses. At each reporting date, the Company assesses whether the loans have been impaired.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company applies 'simplified approach' permitted by Ind AS 109 Financial Instruments. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

If the amount of an impairment loss decreases in a subsequent period, and the decrease can be related objectively to an event occurring after the impairment was recognised, the excess is written back in the statement of profit and loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the company balance sheet) when:

The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognises an associated liability. The transferred assets and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

MUMBA

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in profit or loss when the liabilities are derecognised through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. Such amortisation is included as finance costs in the statement of profit and loss.

Derecognition

Financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

viii. Taxation

Income tax expense comprises current and deferred tax incurred by the company.

Current Tax:

Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in other comprehensive income or equity respectively. Current income tax is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. The Company offsets, on a year-to-year basis, the current tax assets and liabilities, where it has legally enforceable right to do so and where it intends to settle such assets and liabilities on a net basis.

Deferred taxes:

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding amount as per tax laws is accounted for using the balance sheet method. Deferred tax liabilities are generally recognized for all taxable temporary differences, and deferred tax assets are generally recognized for all deductible temporary differences and unused tax losses to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax relating to items recognised outside the profit and loss is recognised outside profit and loss (either in other comprehensive income or in equity)

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

ix. Impairment of Non-Financial Assets

The Company assesses at the reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the assets recoverable amount. An asset's recoverable amount is the higher of cash generating unit's ("CGU") fair value less costs of disposal and its value in use. The carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. Impairment losses are recognised in statement of profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount. However, the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

x. Leases

Company as a Lessee:

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets are subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant, and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the company uses incremental borrowing rate. For leases with reasonably similar characteristics, the company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the

carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the company recognises any remaining amount of the re-measurement in statement of profit and loss.

In accordance with the standard, the Company has elected not to apply the requirements of Ind AS 116 to short-term leases and leases for which the underlying asset is of low value. Lease payments for short term leases and leases for which the underlying asset is of low value are recognized as an expense on a straight-line basis over the lease term in the statement of profit or loss.

Company as a Lessor:

At the inception of the lease the company classifies each of its leases as either an operating lease or a finance lease. The company recognises lease payments received under operating leases as income on a straight-line basis over the lease term.

If an arrangement contains lease and non-lease components, the company applies Ind AS 115 Revenue to allocate the consideration in the contract.

xi. Borrowing Costs

Borrowing cost includes interest expense as per the effective interest rate (EIR) and other costs incurred by the company in connection with the borrowing of funds. Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets that necessarily takes a substantial period of time to get ready for their intended use or sale are added to the cost of those assets, until such time as the assets is substantially ready for their intended use or sale. All other borrowing costs are recognised in statement of profit and loss in the year in which they are incurred.

The difference between the discounted amount mobilized and redemption value of commercial papers is recognized in the statement of profit and loss over the life of the instrument using the EIR.

xii. Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Dividend Provision

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the Company, on or before the end of the reporting period but not distributed at the end of the reporting period.

xiii. Provisions

Provisions are recognized when the Company has a present obligation, legal or constructive, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are determined based on management estimates required to settle the obligation at the balance sheet date, supplemented by experience of similar transactions. These are reviewed at the balance sheet date and adjusted to reflect the current management estimates.

Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability.

xiv. Contingent Liabilities and assets

A contingent liabilities are disclosed when there is a possible obligation that arises from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is termed as contingent liability. The existence of contingent liabilities is disclosed in the notes to financial statements. Payments in respect of such liabilities, if any, are shown as advances.

Contingent assets are neither recognized nor disclosed.

xv. Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), and highly liquid time deposits that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

xvi. Employee Benefits

Gratuity:

The Company pays gratuity, a defined benefit plan, to its employees who retire or resign after a minimum period of five years of continuous service and in the case of employees at overseas locations as per rules in force in the respective countries. The Company makes contributions to the SBICAP Employees Group Gratuity Scheme which is managed by Life Insurance Corporation of India for the settlement of gratuity liability.

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of the defined benefit plan is calculated by estimating the amount of future benefit that employee has earned in exchange of their service in the current and prior periods and discounted back to the current valuation date to arrive at the present value of the defined benefit obligation. The defined benefit obligation is deducted from the fair value of plan assets, to arrive at the net asset / (liability), which need to be provided for in the books of accounts of the Company.

As required by the Ind AS19, the discount rate used to arrive at the present value of the defined benefit obligations is based on the Indian Government security yields prevailing as at the balance sheet date that have maturity date equivalent to the tenure of the obligation.

The calculation is performed by a qualified actuary using the projected unit credit method. When the calculation results in a net asset position, the recognized asset is limited to the present value of economic benefits available in form of reductions in future contributions.

Remeasurements arising from defined benefit plans comprises of actuarial gains and losses on benefit obligations, the return on plan assets in excess of what has been estimated and the effect of asset ceiling, if any, in case of over funded plans. The Company recognizes these items of remeasurements in other comprehensive income and all the other expenses related to defined benefit plans as employee benefit expenses in their profit and loss account.

When the benefits of the plan are changed, or when a plan is curtailed or settlement occurs, the portion of the changed benefit related to past service by employees, or the gain or loss on curtailment or settlement, is recognized immediately in the profit or loss account when the plan amendment or when a curtailment or settlement occurs.

Notes forming part of the Financial Statements as at and for the year ended March 31, 2025

Provident Fund:

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company is statutorily required to contribute a specified portion of the basic salary of an employee to a provident fund as part of retirement benefits to its employees. The contributions during the year are charged to the statement of profit and loss.

Compensated absence:

The employees can carry forward a portion of the unutilized accrued compensated absences and utilize it in future service periods or receive cash compensation on termination of employment. The Company records an obligation for such compensated absences in the period in which the employee renders the services that increase the entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method. Actuarial losses/gains are recognized in the statement of profit and loss as and when they are incurred.

xvii. Segment Reporting

The company identifies operating segments based on the internal reporting provided to the chief operating decision-maker.

The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

xviii. Foreign Exchange Transactions

The functional currency and the presentation currency of the Company is Indian Rupees. Transactions in foreign currency are recorded on initial recognition using the exchange rate at the transaction date. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date. Exchange differences arising on the settlement or translation of monetary items are recognized in the statement of profit and loss in the period in which they arise.

Assets and liabilities of foreign operations are translated at the closing rate at each reporting period. Income and expenses of foreign operations are translated at monthly average rates. The resultant exchange differences are recognized in other comprehensive income in case of foreign operation whose functional currency is different from the presentation currency and in the statement of profit and loss for other foreign operations. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

xix. Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed using the weighted average number of equity shares and dilutive potential equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

xx. Critical Accounting Judgements and Estimates

The preparation of financial statements in conformity with Ind AS requires judgements, estimates and assumptions to be made that affect the reported amount of assets, liabilities, revenue, expenses, accompanying disclosures and the disclosures of contingent liabilities. The estimates and associates assumptions are based on historical experience and other factors that are considered to be relevant. Actual results could differ from those estimates. These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future period.

Application of accounting policies that require critical accounting estimates and the use of assumptions in the financial statements are as follows:

• Defined benefit plans

The cost of the defined benefit gratuity plan and other post-employment medical benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Further details about gratuity obligations are given in Note 34.

• Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

The Company obtains independent valuations for its investment property at least annually. The best evidence of fair value is current prices in an active market for similar properties.

The fair values of investment properties have been determined by a registered valuer as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017.

Notes forming part of the Financial Statements as at and for the year ended March 31, 2025

34 Employee Benefits

A. Gratuity

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service. The scheme is funded with an insurance company in the form of a qualifying insurance policy.

The following tables summarise the components of net benefit expense recognised in the profit and loss account and the funded status and amounts recognised in the balance sheet for the respective plans.

Reconcilation of Defined benefit obligation Changes in defined benefit obligation

(Rs in Lacs)

| Particulars | Year ended | |
|------------------------------------------------------------------------|-----------------------------------------|-----------------|
| | 31st March 2025 | 31st March 2024 |
| Opening of defined benefit obligation | 1,293 | 1,190 |
| Current service cost | 120 | 113 |
| Past service cost | 1 | - |
| Interest on defined benefit obligation | 93 | 87 |
| Remeasurements due to: | ,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,, | 0 / |
| - Actuarial loss/(gain) arising from change in financial assumptions | 32 | 7 |
| - Actuarial loss/(gain) arising from change in demographic assumptions | - 1 | (0) |
| - Actuarial loss/(gain) arising on account of experience changes | 50 | 20 |
| Benefits paid | (137) | (124) |
| Closing of defined benefit obligation | 1,450 | 1,293 |

Movement in plan Assets

(Rs in Lacs

| Particulars | Year | (Rs in Lacs) | |
|-------------------------------------------------------------|-----------------|-----------------|--|
| | 31st March 2025 | 31st March 2024 | |
| Opening fair value of plan assets | 962 | 872 | |
| Employer contributions | 102 | 150 | |
| Interest on plan assets | 69 | 64 | |
| Remeasurements due to: | | 01 | |
| - Actual return on plan assets less interest on plan assets | 25 | 1 | |
| Benefits paid | (137) | (124) | |
| Closing fair value of plan assets | 1,021 | 962 | |

Investment details of plan assets:

The categories of plan assets as a percentage of the fair value of total plan assets are as follows:

| Particulars | Year | Year ended | |
|--------------------------|-----------------|-----------------|--|
| | 31st March 2025 | 31st March 2024 | |
| Investments with insurer | 100% | 100% | |

Balance sheet

Net asset/(liability) recognised in the balance sheet:

(Rs in Lacs)

| Particulars | Year | Year ended | |
|---------------------------------------------------------------------------------------------------------|-----------------|-----------------|--|
| | 31st March 2025 | 31st March 2024 | |
| Present value of the funded defined benefit obligation Fair value of plan assets at the end of the year | 1,450 1,021 | 1,293 962 | |
| Liability recognized in the balance sheet (i-ii) | 429 | 330 | |

Statement of profit & loss

Expenses recognised in the Statement of profit and loss:

(Rs in Lacs)

| Particulars | Year | ended |
|--------------------------------------------------|-----------------|-----------------|
| Tal (Cular) | 31st March 2025 | 31st March 2024 |
| Current service cost | 120 | 113 |
| Past service cost | | _ |
| Net interest cost | 24 | 23 |
| Total expense charged to profit and loss account | 143 | 136 |

Statement of other Comprehensive Income (OCI)

(Rs in Lacs)

| Particulars | Year ended | | |
|------------------------------------------------------------------|-----------------|-----------------|--|
| | 31st March 2025 | 31st March 2024 | |
| Opening amount recognized in OCI outside profit and loss account | 417 | 391 | |
| Remeasurements during the year due to: | | | |
| Changes in financial assumptions | 32 | 7 | |
| Changes in demographic assumptions | - | | |
| Experience adjustment | 50 | 20 | |
| Actual return on plan assets less interest on plan assets | (25) | (1) | |
| Adjustment to recognized the effect of asset ceiling | | - | |
| Closing amount recognized in OCI outside profit and loss account | 474 | 417 | |

The principal assumptions used in determining gratuity for the Company's plans are shown below:

| 5.7.1 | Year | ended |
|------------------------|-----------------|-----------------|
| Particulars | 31st March 2025 | 31st March 2024 |
| | % | % |
| Discount rate | 7.17 | 7.17 |
| Salary Escalation rate | 9.00 | 9.00 |

Sensitivity Analysis

The key actuarial assumptions to which the benefit obligation results are particularly sensitive to are discount rate and future salary escalation rate. The following table summarizes the change in defined benefit obligation and impact in percentage terms compared with the reported defined benefit obligation at the end of the reporting period arising on account of an increase or decrease in the reported assumption by 50 basis points

(Rs in Lacs)

| Particulars | Discount Rate | Salary Escalation Rate |
|------------------------------------------------------------|---------------|------------------------|
| Defined Benefit obligation on increase in 50 bps | 1,430 | 1,462 |
| Impact of increase in 50 bps on Defined benefit obligation | -1.38% | 0.79% |
| Defined Benefit obligation on decrease in 50 bps | 1,471 | 1,439 |
| Impact of decrease in 50 bps on Defined benefit obligation | 1.43% | -0.80% |

These sensitivities have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the accounting date. There have been no changes from the previous periods in the methods and assumptions used in preparing the sensitivity analyses.

Projected plan cash flow:

The table below shows the expected cash flow profile of the benefits to be paid to the current membership of the plan based on past service of the employees as at the valuation date:

(Rs in Lacs)

| M | Year ended | |
|-----------------------------------------|-----------------|-----------------|
| Maturity Profile | 31st March 2025 | 31st March 2024 |
| Expected benefits for year 1 | 332 | 215 |
| Expected benefits for year 2 | 294 | |
| Expected benefits for year 3 | 77.1 | 191 |
| Expected benefits for year 4 | 230 | 211 |
| Expected benefits for year 5 | 204 | 166 |
| Expected benefits for year 6-10 | 167 | 161 |
| | 401 | 498 |
| Expected benefits for year 11 and above | 170 | 377 |

The weighted average duration to the payment of these cash flows is 4 years.

B. Compensated Absence

The liability towards compensated absences for the year ended March 31, 2025 is based on actuarial valuation carried out by using the projected unit credit method.

The principal assumptions used in determining compensated absences are shown below:

| D | Year | ended |
|------------------------|-----------------|-----------------|
| Particulars | 31st March 2025 | 31st March 2024 |
| | % | % |
| Interest rate | 6.54 | 7.17 |
| Salary Escalation rate | 9.00 | 9.00 |

35 SEGMENTAL REPORTING

- Primary Segment

The Company's operations falls under a single business segment of Financial services. The Company is engaged in providing investment banking. Merchant banking and corporate advisory services. As per the views of the Company's chief operating decision maker, business activities primarily falls within a single operating segment, no additional disclosure is to be provided under IND AS 108 - Operating Segments, other than those already provided in the financial statements.

- Geographical Segment

The Company operates in one geographic segment namely "within India" and hence to separate information for geographic segment wise disclosure is required

36 RELATED PARTY DISCLOSURES

As per Indian Accounting Standard on related party disclosures (Ind AS 24), the names of the related parties of the Company are as follows

A. Related party where control exists irrespective whether transactions have occurred or not

Financial Instruments

Refer to financial instruments by category table below for the disclosure on carrying value and fair value of financial assets and liabilities. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

The carrying value of financial instruments by categories as of March 31, 2025 is as follows:

| (Rs in Lacs | | | | | |
|------------------------------------------------|-------------------|---------------------------|---------------------------|-------------------------|------------------|
| Particulars | Amortised Cost | Fair Value through P&L | Fair Value through OCI | Total Carrying Value | Total Fair Value |
| ASSETS: | | | | | |
| Cash and cash equivalents | 350 | | | 350 | 350 |
| Other balances with banks | 1,96,573 | | | 1,96,573 | 1,96,573 |
| Securities for trade | | 1,28,181 | | 1,28,181 | 1,28,181 |

| Total | 1,06,545 | | | 1,06,545 | 1,06,545 |

Fair Value Hierarchy:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique.

The investments included in level 1 of fair value hierarchy have been valued using quoted prices for instruments in an active market. The investments included in level 2 of fair value hierarchy have been valued using valuation techniques based on observable market data. The investments included in Level 3 of fair value hierarchy have been valued using the income approach and break-up value to arrive at their fair value. There is no movement between Level 1, Level 2 and Level 3. There is no change in inputs used for measuring Level 3 fair value.

The following table summarises financial instruments measured at fair value on recurring basis:

| As at March 31, 2025 | Level 1 | | | (Rs in Lac |
|-----------------------|----------|---------|-----------|------------|
| | Level 1 | Level 2 | Level 3 | Total |

Movements in Level 3 Financial instruments measured at fair value

The Following table shows a reconciliation of the opening and closing amounts of Level 3 financial assets and liabilities which are recorded at fair value.

| Particulars Opening Polymerica | As at March-25 | (Rs in Lacs |
|--------------------------------|-------------------|-------------|
| Opening Balance | | March-24 |
| Add: Purchase | 7,09,079 | 6,90,150 |
| Less: Sales | 631 | 368 |
| Add: Fair Value Gain/(Loss) | (1,192) | (953) |
| Closing Balance | 9,65,042 | 19,514 |
| | 16 73 560 | 7.00.070 |

Financial assets subject to offsetting, netting arrangements

There are no instruments which are eligible for netting and not netted off.

Financial Risk Management Risk Management Framework

The Company has established a comprehensive system for risk management and internal controls for all its businesses to manage the risks that it is exposed to. The objective of its risk management framework is to ensure that various risks are identified, measured and mitigated and also that policies, procedures and standards are established to address these risks and ensure a systematic response in the case of crystallisation of such risks.

The Company has exposure to the following risk arising from financial instruments:

- a) Credit Risk
- b) Liquidity Risk
- c) Market Risk

The Company has formulated various policies with respect to such risks, mitigation strategies and internal controls to be implemented. The Board oversees the Company's risk management and has constituted a Risk Management Committee ("RMC"), which frames and reviews risk management processes and controls.

a) Credit Risk

It is risk of financial loss that the Company will incur a loss because its customer or counterparty to the financial instruments fails to meet its contractual obligation

The Company's financial assets comprise of Cash and bank balance, Securities for trade, Trade receivables, Loans, Investments and Other financial assets which comprise mainly of deposits.

The maximum exposure to credit risk at the reporting date is primarily from Company's Trade receivable, Debt instruments in Securites for trade and investment portfolio.

The following table provides exposures to credit risk for trade receivables, securities for trade and investments:

/n · ·

| Particulars | As at March-25 | As at March-24 |
|------------------------------------------------------------------|-------------------|-------------------|
| Trade receivables Other receivables | 11,600 | 15,830 |
| Debt Instruments in securites for trade and investment portfolio | 1.58.925 | 70 1,16,723 |
| Total | 1,70,548 | 1,16,723 |

Trade Receivables

The Company has followed simplified method of ECL in case of Trade receivables and the Company recognises lifetime expected losses for all trade receivables that do not constitute a financing transaction. At each reporting date, the Company assesses the impairment requirements.

The expected credit loss rates are based on the payment profiles over a period of 24 months before the reporting year and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward looking information on macro economic factors affecting the ability of the customers to settle the receivables.

The following table provides information about the rate expected credit loss for trade receivables under simplified approach:

| As at March 31, 2025: (Rs in Lacs | | | | |
|-----------------------------------|------------------------------|--------------------------|-------------------------|------------------------|
| Age of Trade receivables | Expected Credit Loss Rate | Gross Carrying Amount | Expected Credit Loss | Net Carrying Amount |
| 0-3 Months | 5% | 10,170 | 509 | 9,662 |
| 3-6 Months | 15% | | | |
| 6-9 Months | 25% | | 83 | 472 |
| 9-12 Months | 35% | | | 205 |
| 12-15 Months | 45% | | 44 | 82 |
| 15-18 Months | | -, | 922 | 1,151 |
| | 55% | | 35 | 29 |
| 18-21 Months | 70% | - | - | |
| 21-24 Months | 90% | 0 | 0 | 0 |
| 24 Months and above | 100% | 2,253 | 2,253 | 0.0 |
| Total | | 15,515 | 3,915 | 11,600 |

As at March 31, 2024:

| Age of Trade receivables | Expected Credit Loss Rate | Gross Carrying Amount | Expected Credit Loss | Net Carrying Amount |
|--------------------------|------------------------------|--------------------------|-------------------------|------------------------|
| 0-3 Months | 5% | 14,153 | 708 | 13,445 |
| 3-6 Months | 15% | 1,717 | 258 | |
| 6-9 Months | 25% | 333 | 83 | 1,459 250 |
| 9-12 Months | 35% | | 1 | 230 |
| 12-15 Months | 45% | | 328 | 401 |
| 15-18 Months | 55% | , | 97 | 79 |
| 18-21 Months | 70% | | 434 | 186 |
| 21-24 Months | 90% | - | | 100 |
| 24 Months and above | 100% | 1,751 | 1.749 | 2.3 |
| Total | | 19,491 | 3,660 | 15.830 |

The gross carrying amount of trade receivables is Rs. 15,515 lacs (2024: Rs. 19,491 lacs)

During the year company made write off of Rs. 81 lacs (2024: Rs. 105 lacs) it does not expect to receive future eash flows or recoveries from collection of cash flows previously written off

Debt Instruments in Securites for trade and Investment Portfolio:

All of the entity's debt investments are considered to have low credit risk. Management considers instruments to be low credit risk when they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term.

Other Financial Assets considered to have low risk:

Credit risk on cash and cash equivalents is limited to the current account and deposit account balance with banks with high credit ratings assigned by International and domestic credit rating agencies. Investments comprised of Equity Instruments, Mutual Funds and commercial papers which are market tradeable. Other financial assets include deposits for assets acquired on lease, deposit with electricity department and interest accrued on securities but not due.

b) Liquidity Risk

Liquidity represents the ability of the Company to generate sufficient cash flow to meet its financial obligations on time, both in normal and in stressed conditions, without having to liquidate assets or raise funds at unfavourable terms thus compromising its earnings and capital

Liquidity risk is the risk that the Company may not be able to generate sufficient cash flow at reasonable cost to meet expected and / or unexpected claims. It arises in the funding of lending, trading and investment activities and in the management of trading positions.

The Company aims to maintain the level of its cash and cash equivalents and other highly marketable investments at an amount in excess of expected cash outflow on financial liabilities.

The table below summarises the maturity profile of the undiscounted cash flows of the Company's financial assets and liabilities as at March 31, 2025:

(Rs in Lacs)

| Particulars | Less than 1 year | 1-5 years | Greater than 5 years | Total |
|-----------------------------|---------------------|-----------|-------------------------|-----------|
| Assets | | | | |
| Cash and bank balance | 1,86,401 | 10,522 | - | 1,96,923 |

| Total | 94,827 | 9,736 | 1,983 | 1,06,546 |
| Net Excess/(shortfall) | 51,525 | 1,83,256 | 7,38,852 | 9,73,632 |

C. Market Risk

Market risk arises when movements in market factors (foreign exchange rates, interest rates, credit spreads and equity prices) impact the Company's income or the market value of its portfolios. The Company, in its course of business, is exposed to market risk due to change in equity prices and interest rates. The objective of market risk management is to maintain an acceptable level of market risk exposure while aiming to maximize returns. The Company classifies exposures to market risk into either trading or non-trading portfolios. Both the portfolios are managed using the following sensitivity analyses:

i) Interest rate risk

The company's investments are primarily in fixed rate interest/ dividend bearing instruments. Accordingly there is no significant risk exposure to interest rate risk.

ii) Price Risk

Price risk is the risk that value of the financial instrument will fluctuate as a result of change in market prices and related market variables including interest rate for investment in mutual funds and debt securities, whether caused by factors specific to an individual investment, its issuer and markets. The company's exposure to price risk arises from investments in unquoted equity securities, debt securities units of mutual funds and alternative investment funds which are classified as financial assets either at fair value through other comprehensive income or at fair values through profit and loss.

| | | (Rs in Lacs) |
|----------------------|-------------------|-------------------|
| Particulars | As at March-25 | As at March-24 |
| Securities for trade | 1,28,181 | 1,02,015 |
| Investments | 17,03,803 | 7,36,149 |
| Total | 18,31,983 | 8,38,164 |

Sensitivity Analysis

The table below set out the effect on profit or loss and equity due to reasonable possible weakening/strengthening in prices of 10%

| | | (Rs in Lacs | | | |
|---------------------------|------------------------|------------------------|--|--|--|
| Particulars | Year ended March-25 | Year ended March-24 | | | |
| Effect on Profit and loss | | | | | |
| 10% increase in prices | 12.308 | 10,284 | | | |
| 10% decrease in prices | (12,308) | (10,284) | | | |
| Effect on Equity | | | | | |
| 10% increase in prices | 1,42,876 | 54,121 | | | |
| 10% decrease in prices | (1.42.876) | (54.121) | | | |

Leases

41.1 As a Lessee

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The following is the movement in lease liability:

10,941

| Particulars Opening Balance | As at March-25 | As at March-24 |
|----------------------------------------------------|-------------------|----------------|
| Add: Lease liability created during the year | 13,980 | 14,014 |
| Add: Interest on lease liability for the year | 156 | 970 |
| Less: Repayment of lease liability during the year | 993 | 1,050 |
| Total | (2,269) | (2,054 |
| | 12,861 | 13,980 |

The details of right to use assets held by the company are as under:

As at March 31, 2025

Particulars

Buildings Furniture & Fixtures

Total

(Rs in Lacs) Additions for the year Carrying Amount 162 10,925 16 162

As at March 31, 2024

| Particulars | | (Rs in Lacs |
|----------------------|------------------------|-----------------|
| | Additions for the year | Carrying Amount |
| Buildings | | |
| Furniture & Fixtures | 989 | 12,530 |
| Total | - | 64 |
| | 989 | 12 504 |

41.4 Depreciation on Right of use assets is as follows:

| Particulars | Year ended March-25 | Year ended March-24 |
|----------------------|------------------------|------------------------|
| Buildings | | |
| Furniture & Fixtures | 1,767 | 1,700 |
| Total | 48 | 48 |
| | 1,815 | 1,754 |

The company has taken certain premises on short term leases which are of low value. Lease rent charged in respect of same have been charged under Rent expenses in Note 31 to the statement of Profit and Loss. Lease rent amounting to Rs. 97 lacs (March 31, 2024-84 lacs) has been debited to statement of profit and loss during 41.5

41.6

The company is not required to make any adjustments on transition to Ind AS 116 for leases in which it acts as a lessor.

Revenue from contracts with customers 42

The Company is engaged in the business of investment banking and corporate advisory services in accordance with Ind AS 115, Revenue from Contracts with Customers, the revenue is accounted in the following manner

The Company provides investment banking services to its customers and earns revenue in the form of advisory fees on issue management services, mergers and acquisitions, debt syndication, corporate advisory services etc.

In case of these advisory transactions, the performance obligation and its transaction price is enumerated in contract with the customer. For arrangements with a fixed term, the Company may commit to deliver services in the future. Revenue associated with these remaining performance obligations typically depends on the occurrence of future events and is not recognized until the outcome of those events or values are known. In case of contracts, which have a component of success or variable fee, the same is considered in the transaction price when the uncertainty regarding the consideration is resolved.

Remaining performance obligation disclosure:

The entity recognises revenue from a customer in an amount that corresponds directly with the value to the customer provided on the basis of performance completed to date. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation-related disclosures

SBI Capital Markets Limited Notes forming part of the Financial Statements as at and for the year ended March 31, 2025

43 Maturity Analysis

The table below shows an analysis of assets and liabilities analysed according to when they are expected to be recovered or settled.

| ASSETS | As at March-25 | Within 12 months | After 12 months | As at March-24 | Within 12 months | After 12 months |
