Note: This agreement will require stamp duty as applicable in the State where it is executed or stamp duty payable as per Maharashtra Stamp Act, whichever is higher.
The evaluation of bidders will be based on a three step process:

a) Bidder qualifying will be invited for a presentation. Technical scores will be given based on the bid submission and presentation.

b) Post the presentation, bidders scoring a minimum of 70% marks in the technical bid will qualify for commercial evaluation and their indicative Commercial Bids will be opened and will be called for participating in the reverse auction for arriving at the Commercials.

c) For final award of the assignment, a combined evaluation shall be done by applying a weight age of 70% and 30% for the technical and commercial scores.

The Technical Score will be calculated based on the Technical Evaluation Metric mentioned in **PARAMETERS FOR TECHNICAL EVALUATION MATRIX**.

The Highest Technical Bid (TB) will be given a Technical score (ST) of 100 points. The technical scores of the other Bids will be computed as follows:

\[
ST = 100 \times \frac{F}{TB}
\]

\(F = \text{Technical Score of the bidder}\)

The bank will calculate the technical scores up to two decimal points only. If the third decimal point is greater than .005 the same shall be scaled up else it shall be scaled down to arrive at two decimal points.

**Commercial Bid Evaluation:**

The Indicative commercial bid of only those bidders, who have been technically qualified on the basis of the technical proposal, shall be opened. These bidders will be informed about the date and time of the reverse auction. The lowest bidder in the reverse auction should provide item wise break up. The indicative commercial offer should consist of comprehensive cost for required solution. Bidder must provide detailed cost breakdown, for each and every categories mentioned in the indicative Commercial Bid. The Bank will determine whether the indicative Commercial Bids are complete, unqualified and unconditional.

The lowest Commercial Bid (CB) will be given a financial score (SF) of 100 points. The financial scores of other Bids will be computed as follows:

\[
SF = 100 \times \frac{CB}{F}
\]

\(F= \text{amount of Commercial Bid}\)

(e) **Final Evaluation-Techno-Commercial Evaluation**

The Proposals will be finally ranked according to their combined Technical Scores and Financial Score as follows:

\[
S = ST \times Tw + SF \times Fw
\]

Where \(S\) is the combined score, and \(Tw\) and \(Fw\) are weights assigned to Technical Proposal and Commercial Proposal that shall be 0.70 and
0.30 respectively. ST and SF will be calculated for individual bidders, as per description mentioned above.

Bidder with the highest Final score shall be considered for award of the Contract.

**For Example:**

Three vendors namely A, B and C participated in the bid process and qualified in the Technical bid and their technical score are as under:

A = 80, B = 85, C = 90

Then the bank will open the INDICATIVE COMMERCIAL BIDS, basing on the bids range, the bank will fix the reserve price.

For example: the Indicative commercial bids are as follows: A: 900000 B: 950000 C: 1000000

Basing on the above indicative quotes bank will fix the RESERVE PRICE as: Rs.900000 (Being least amount in the indicative bids)

In the reverse auction all the technically qualified bidders will participate. Only those technically qualified bidders who participate in the Reverse Auction will be reckoned for Techo Commercial (TC) evaluation. IF ONLY ONE BIDDER PARTICIPATES IN THE REVERSE AUCTION, THEN THE RFP WILL BE CANCELLED DUE TO SINGLE BIDDER.

In the Reverse the final commercial bids of the vendors are as under:

A = Rs.800000, B = Rs.850000, C = Rs.900000

In the technical score the highest technical score is 90 and will be convert in to percentile.

After converting the technical scores into percentile, we get

ST for A = \((80/90)\times100 = 88.89\) 
ST for B = \((85/90)\times100 = 94.44\) 
ST for C = \((90/90)\times100 = 100\)

The final cost (lower cost quoted in indicative price bid, in this case if it is Rs.800000) quoted by the bidders converted into percentile score shall be as under:

SF for A = \((800000/800000)\times100 = 100\) 
SF for B = \((800000/850000)\times100 = 94.12\) 
SF for C = \((800000/900000)\times100 = 88.89\)

As the weight-age for technical parameter and cost are Tw = 70% and Fw = 30% respectively, the final scores shall be calculated as under:
S for A = (88.89*0.70) + (100*0.30) = 92.22
S for B = (94.44*0.70) + (94.12*0.30) = 94.34
S for C = (100*0.70) + (88.89*0.30) = 96.67

Hence, the offer of ‘C’ (being highest score) would be considered as TC1 and the tender will be awarded to ‘C’.
