

$\textbf{ESTIMATE FOR INTERIOR WORK FOR STATE BANK OF INDIA \ AT \ BADAGADA BRIT COLONY BRANCH, BHUBANESWAR \ . \\$

Busing Still	TENDER ID: BHU202001005	Date: 03.01.2020				
SL.No.	DESCRIPTION OF ITEMS	UNIT	QTY	RATE	AMOUNT	
1	PARTITION WORK.					
i	FULL HEIGHT Partition (Solid/Semi Glazed)					
	Providing and fixing in position partly glazed full Partition work as per drawing, in frame work at 2'x2' grid (horizontally and vertically) comprising of 2"x1 ½"x1.30mm almunium section and/or as per frame work shown in the drawings with 9 mm BWR plywood on both sides finished with 1 mm thick laminates of approved shade and colour as shown in drawings. Item to include 8 mm thick glass as per design and fitted with 3-1/4" thick beach wood beading and 2"x2" T.W. member for door sides. All exposed T.W / beading surfaces to be finished in melamine polish as directed including all necessary Stainless Steel finish fittings/hardware and wood preservative paint etc. as per list of approved material and as approved by the Project Consultant/Bank complete in all respects. (Note: In case of false ceiling, the vertical members to be fixed with pucca ceiling but the area of partition payable will be below the false ceiling only)	Sqm.	10.00			
ii	LOW HT. HEIGHT Partition (Solid/Semi Glazed)					
	Providing and fixing in position partly glazed 4'-0" HT. Partition work as per drawing, in frame work at 2'x2' grind (horizontally and vertically) comprising of 2"x1 ½" hevy gazed almunium section and/or as per frame work shown in the drawings with 6 mm BWR plywood on both sides finished with 1 mm thick laminates of approved shade and colour as shown in drawings. Item to include 12 mm thick glass as per design and fitted with 3-1/4" thick beach wood beading at glass sides All exposed wood. surfaces to be finished in melamine polish of as directed including all necessary Stainless Steel finish fittings/hardware and wood preservative paint etc. as per list of approved material and as approved by the Project Consultant/Bank complete in all respects. It also include Providing, fitting & fixing Pine wood beading (75mmx18 mm or as per design) in low height partition,cash counter front & low height cash counter front fasia with All pine wood beading surfaces to be finished in PU clear polish as directed. The work should be completed as per direction of architect including cost of all labour & material.	Sqm.	10.00			
iii	Providing, making and fixing in position 12mm thick toughened clear float glass in the front side/transcation side of half height partitions of Single Window Counters of appropriate size. All the edges of the glass to be polished for a smooth finish and the glass is to be fixed with "D" brackets. The cost to include all materials, labour, fixing etching film and cut outs etc., for a neat finished job as per drawings and diretions etc., complete	Sqm.	6.00			
iv	Scrapping or making the existing surfce rough. Providing and fixing 4mm thick MDF board on the existing partition/door/table top or side etc., with necessary adhesive and nails/screws, hardwares etc. Thereafter, providing and fixing 1mm thick laminate of approved shade & colour, complete in all respect as per the direction of EIC. Polishing the beading etc, as per the site condition to match with the new ambience policy of the Bank.	Sqm.	40.00			
2	DOOR WORK.					
i	Doors – semi glazed standard size 3' x 7 '					
	Providing and fixing partly glazed flush doors of sizes 7'x3' and 32 mm thk finished with 1mm laminate of approved brand and shade on both side. The edges finished with teak wood lipping. The shutter will have partly glazed 8mm thk float glass incl. etching film of approved pattern and necessary TW wood beading etc mat polished with melamine polish of asian / berger or eqv , complete to match the aligned partition elevations designs, the rates are inclusive of cost of including all hardware fittings of S.S. finish, door stopper, door buffer, auto locking SS Knob , 2 Nos. SS 2 ball-bearing hinges, slide bolt, motise lock (7-lever- 8" lock of Godrej / Doorset make), aldrops etc., all labour, materials, taxes, leads & lift to the place of work executed to the satisfaction of the Architect/EIC	Sqm.	6.00			
ii	Doors - glazed					
	Providing, fixing in position glazed entrance Double door OR Single door with patch fitting of approved make using 12mm thk toughened glass edge polished. The Door to consist of Heavy Duty Floor spring (paid extra), Upper Patch, Bottom Patch, Lock Keeper Plate, Euro Profile Cylinder (EPC), "H" Type Handle 32 x 600mm, Corner Lock and the side fixed glass to have 2 Nos. Bottom Patch and 2 Nos. Upper Patch for each door to a neat finish etc., complete as per drawing a) Open able portion (it include 4 nos SS finished H type 1'-6'' long door handle)	Sqm.	2.00			

iii	Wicket gate (up to 1.5M. ht)			
m	Flap doors: Proving and fixing flap door shutter made out of 50mm x 75mm wood sections for frame work 6mm ply fixed on both sides with 1mm laminate including all hardware fittings of S.S. finish, door stopper, door buffer, auto locking SS Knob, 2 Nos. SS 2 ball-bearing hinges, slide bolt all complete as per drawing, design, specification & direction of Engineer-in-charge. The rate shall include cost of all materials, labour, taxes, T&P, transportation, royalties etc.	Sqm.	1,00	
iv	Door closer			
v	Providing and fixing Dorma/ equivalent approved make over head door closers in door with necessary fixtures and fittings etc. Floor spring	Nos	4.00	
	Providing and fixing Dorma / equivalent approved make heavy duty floor spring (120 kg capacity) in entrance door with necessary fixtures and fittings etc.	Nos	1.00	
vi	Night latch lock Providing and fixing nightlatch lock of Godrej / equivalent approvedmake to cash counter door with necessary fixture and fittings etc as per direction of architect.	Nos	4.00	
3	FURNITURE WORK.			
i	SWO/Cash Counter		_	
	Providing and fixing in position 750 mm high single widnow counter with side credenza. The rate quoted for SWC shall consist of:a) Basic Structure: 19mm thick BWR ply for Top (1500 x 900 mm), Front (1500x750 mm), Two sides and one middle member (each 900 x750 mm). Design and detail of the counters shall be as per Bank's new uniform colour, layout & elevation policy, with curvature on front made of flexi ply. b) One drawer unit (at every 1500-1800 mm length of counter) of 400mm wide (clear internal size). The chest of Drawer units shall have two smaller draw of equal size on top and one bigger vertical filling drawer at bottom with autolocking push type locks (Godrej/Link) and "C" type SS finish handles. The drawers to be made out of 12mm thick BWR ply at sides, bottom and rear, 19mm thick BWR plywood at front side. d) The table and credenza top- exposed surfaces shall be cladded with 1 mm thick laminate or equivalent make and shade as approved by EIC in the pattern as directed by the Engineer-in-charge with 6mm Flexi Plywood in curvature (which should be achieved with a frame work of 50mm x 50mm sal wood frame to be fixed from the front modesty panel / apron and the bottom of this niche to have provision of cove lighting with LED strips) and other exposed surface to be finished with 1 mm thk laminate of approved make and shade as directed by EIC. e) All un-exposed surfaces shall be cladded with 0.8 mm thick laminate of approved make and shade. f) Rates are inclusive of: Ebco/Godrej make telescopic sliding key board tray and a mobile CPU stand	Rmt.	6.25	
	and one godrej make night latch per counter.			
ii	Branch Manager table with side credenza			
	Providing executive type manager table of 2100x900x750 mm and side credenza 1050x700x400 mm with table top of 25mm th. ply and a front drawer unit consisting 3 Nos of drawer units slides on telescopic slider made up of 19mm thk ply with locking arrangement. The exposed edge surfaces are to be finished with 1.0mm thk laminates as per design of approved shade and the inner surface is finished with 0.8 mm thk laminate. The side credenza will have two drawer unit slides on telescopic slider and two cupboard unit. Quoted rates shall also include cost of polished teak wood moulding (finished 40x20 mm section) to edges of table. top: polished teak wood- lipping (6mm thick) to free edges of block board /plywood surfaces; approved drawer-slides, hinges and locks with keys in duplicate: other necessary hardware and accessories including satin finish S.S handles. knobs and wire - managers, foot rest etc. of approved quality. It also include readymade keyboard of engineering plastic. The keyboard is a pullout type, fixed to channels and screwed to below table top. The CPU stand is made up with 19 mm ply with laminate finish as per design. The work should be mpleted including all labour and exertaged.	Nos	1.00	
iii	Officer table with side credenza			
	Providing executive type manager table of 1500x750x750 mm and side credenza 975x700x450 mm with table top of 19mm th. ply and a front drawer unit consisting 3 Nos of drawer units slides on telescopic slider made up of 19mm thk ply with locking arrangement. The exposed edge surfaces are to be finished with 1.0mm thk laminates as per design of approved shade and the inner surface is finished with 0.8 mm thk laminate. The side credenza will have two drawer unit slides on telescopic slider and two cupboard unit. Quoted rates shall also include cost of polished teak wood moulding (finished 40x20 mm section) to edges of table. top: polished teak wood- lipping (6mm thick) to free edges of block board /plywood surfaces; approved drawer-slides, hinges and locks with keys in duplicate: other necessary hardware and accessories including satin finish S.S handles. knobs and wire - managers, foot rest etc. of approved quality. It also include readymade keyboard of engineering plastic. The keyboard is a pullout type, fixed to channels and screwed to below table top. The CPU stand is made up with 19 mm ply with laminate finish as per design. The work should be mpleted including all labour and material	Nos	1.00	

Providing and fixing necessary hardwares social as channels, looks, handles, hinges, keyboard trops, history, and fixing channels etc. as per the site condition. Remodeling the table as per Bank's new uniform colour, byour & Cevition policy. Scripping or making the extings surface copile Providing and fixing demands and the colours of the central perturbation of the central surface of the colours of the colours of the colours of the central perturbation of the central surface of the colours of th					
Providing and fixing measury hardwares such as channels, locks, handles, hinges, keybeard trop, sliding channels etc. as per the sic condition. Remodeling the other pasts's new mifror codoru, layout & clevation policy. Scrapping or making the existing surfer rough. Providing and fixing 4mm thick MDI board on the existing partition-flowarithe top or side etc., with measury advantes was maliciserers, Indoheses etc. Theretarker, providing and fixing into the human of approved shade & condition to make with the new mitheners policy of the lank. All memponed surfaces of the table counters' shelves to be painted with synthetic examel paint fixing 0.8 mm thick luminute, as per the site counters' shelves to be painted with synthetic examel paint fixing 0.8 mm thick luminute, as per the site counters' shelves to be painted with synthetic examel paint fixing 0.8 mm thick luminute, as per the site counters' shelves to be painted with synthetic examel paint fixing 0.8 mm thick luminute, as per the site to the surface of 10 mm th. Be WD block bound. All spoeds surfaces shall be cludded with 0.8 mm thick luminute of approved make and shade storage calarist should be complete in all respects a per the drawing and direction of Engineerin-shapes and chales storage calarist should be complete in all respects as per the drawing and direction of Engineerin-shapes and human storage calarist should be complete in all respects as per the drawing and direction of Engineerin-shapes and human storage calarist should be complete in all respects as per the storage calarist should be complete in all respects as per the storage calarist should be complete in all respects as per the storage calarist should be complete in all respects as per the storage calarist should be complete in all respects as per the storage calarists. All the storage calarists are the should remark the storage of the storage calarists and the complete in all respects and the storage of the storage calarists. The storage calarists are the storage calarists and the comp	iv	Repair of BM/Officer table including side credenza irespective of dimension			
hisyouf & elevation policy, Scrapping or making the existing surfer rough, Providing and fixing dum thick MDF board on the existing partition/doctorable up or side ex-, with measures a passive and malis/screess, hardwares etc. Thereafter, providing and fixing I min thick luminate of approved shade. & coolar, complete in all respects as per the direction of ELC. Polishing the boaling etc. as per the site control of the providing and fixing I min thick luminate, as per the site control of the providing and fixing plant depth of £59 strape; cabinet having minimum. 2 filing exhibate, hamistates of approved make and shade storage based some hale is challed with 1 min thick. Intrinsic, as per direction of the challed with 1 min thick. Intrinsic, and active the provided surfaces shall be claded with 0.8 mm thick huminate of approved make and shade storage cabinet should be complete in all respects a per the drawing and direction of Engineerin-charge including all hardware and locking arrangements. The rate shall include cost of all materials, labour, taxes. Ext. Prinsportation, royallise set. vi Grahak Miter Table Providing curred table of 1200x1200x750 mm in curved pattern with table top made of 159 mm th, by and in forching arrangements. The exposed edge surfaces are to be finished with 10 mm thic huminates as per design of agreement shall also metals evoid modelling to the providing and the strangement of the simulation of the providing and the strangement of the interest was the strangement of the control of the strangement of the interest was the strangement of the control of the strangement of the strangement of the interest was to finishe would not have a finished with 10m thick huminates as per design of agreement dates and the strangement of the interest was to finished with 10m thick huminates as per design and approved table and the interest and the providing and t			Nos	1.00	
thick MDF board on the existing partition/doornable top or side etc., with necessary adhesive and antisks/cross, harborese etc. Thereafter, providing and fiving Irom thick laminate of approved shade & colour, complete in all respect as per the direction of EIC. Polishing the heading etc., as per the sist condition to match with the new ambetience polisy of the Bank. All unexposed surfaces of the table counters' delives to be painted with synthetic enamed paint fixing 0.8 mm thick hammat, as per the sist condition to match with the new ambetience polisy of this go. 3 mm thick hammat, as per the sist of the table counters' delives to be painted with synthetic enamed paint fixing 0.8 mm thick hammat, as per the sist of the providing and fixing 750mm high and depth of 450 storage cabinet having minimum 2. Biting cushrent branch or of 19 mm the RWD block board. All exposed surfaces shall be cluded with 1 mm thick YC demands of approved make and shade scorage cabinet should be competed with 0.8 mm thick laminate of approved make and shade storage cabinet should be competed in all respect as per the drawing and direction of fragmen in charge including all hardware and locking arrangements. The rest shall be cluded with all materials, labour, tases, T&P, transportation, rogalities etc. 14 Grabak Witer Tables Providing curved table of 1209x1200x750 mm in curved pattern with table top made of 19mm th ply and a front drawer unit consisting 3 Nos of drawer units slides on telecopic solder made up of 19mm the ply with locking arrangement. The exposed edges surfaces are to be finished with 1.0 mm tisk luminates as per design of approved shade and the inner surface is finished with 0.8 mm tisk luminates and providing and fixing the post of table, top: polished teak woord inpring (firm thick) to free edges of block board my beyond carries with 30 mm to 10 mm to 10 mm the 10 mm to 10 mm to 10 mm the 10 mm to 10		sliding channels etc, as per the site condition. Remodeling the table as per Bank's new uniform colour,			
analysteress, hardwares etc. Thereafter, providing and fixing Irrm thick harminate of approved shade & colour, complete in all respect as per the direction of IEC. Polishing the bending etc., as per the site condition to match with the new ambience policy of the Bank. All unexposed surfaces of the table comments obselves to be paratised whis synthetic enump plantif living (ib. mm thick laminates, as per the site condition to match with the new ambience policy of the Bank. All unexposed surfaces of the table contents of approved rate and table except edges. Properties of a provided with 1 mm thick laminates of approved rate and table except edges in high the covered with mm thick laminates of approved rate and table except edges with 6.8 mm the time that the table to the provided with 1 mm thick laminates. All unexposed surfaces shall be claded with 6.8 mm the time that the table to the state of the provided with 1 mm thick laminates. All unexposed surfaces shall be claded with 6.8 mm the time that the table to the state of the st		layout & elevation policy. Scrapping or making the existing surfce rough. Providing and fixing 4mm			
conduction to match with the new ambience policy of the Bank. All messponed surfaces of the table counters' shelves to be painted with synthetic cannel paint fixing 0.8 mm thick laminate, as per the site conductor with shelves to be painted with synthetic cannel paint fixing 0.8 mm thick laminate. Sum the content of 19 mm the EWP block board. All coporage eathers having minimum 2 filing cabinets made out of 19 mm the EWP block board. All coporage eathers that ble calcular with 1 mm thick laminates of approved make and shade except edges. Fidges which shall be convert with 1 mm thick laminates of approved make and shade except edges. Fidges which shall be converted with 1 mm thick laminates of approved make and shade except edges. Fidges which shall be converted with 1 mm thick laminates of approved make and shade except edges. Fidges which shall be converted with 2 mm thick laminates of approved make and shade except edges. Fidges which shall be converted make and shade storage cabinet should be complete in all repeted as per the driving and direction of Engineer-in-charge including all hardware and locking arrangements. The rare shall include cost of all materials, bloors, taxose, TaP, transportation, repulses exc. vi Grahak Mitter Table: Providing curved table of 1200x1200x780 mm in curved pattern with table to telescopic slider made up of 19mm this ply with locking arrangement. The exposed edge surfaces are to be finished with 1.0 mm this laminates as per design of approved states and the nance startice is finished with 0.8 mm this luminates as per design of approved thate and the nance startice is finished with 0.8 mm this luminate and acceptance is included and the nance startice is finished with 0.8 mm this luminate with 1 mm this luminate finish as per design. The work obsolid beging term thick) to free starting of the providence of the provide		thick MDF board on the existing partition/door/table top or side etc., with necessary adhesive and			
condition to match with the new ambience policy of the Bank. All unexposed surfaces of the table contents deliver to be painted with synthetic cannel paint fixing © am mick laminate, as per the site. V Surrage Cabinate. Providing and fixing 250mm high and depth of 450 storage valuer having minimum 2 filing cabinets made out of 19 mm the BWR block broat. All exposed surfaces shall be claded with 1 mm the FWC lipping as directed by the Engineer-in-charge and Cabinet Top is to be provided with 1 mm thick laminates of approved make and shade except edges. Edges which shall be covered with 1 mm thick laminates all heads with 6 mm thick with 6 mm thick laminates of approved make and shade storage cabinet should be complete in all respect as per the drawing and direction of Engineer-in-charge including all hardware and locking arrangements. The cabinal linchloc cost of all materials, labour, tuxes, T&P, transportation, royulities etc. Vi Grahak Witter Tablet: Providing curved table of 1200x1200x750 mm in curved pattern with table top made of 19mm th, ply and a front drawer unit consisting 3 Nos of drawer units slides on telescopic slider made up of 19mm the ply with locking arrangement. The exposed edge surfaces are to be finished with 1.0mm this luminates as per design of approved shade and the inner surface is finished with 0.8 mm this laminate. Quoted rates shall also include cost of polished tech wood mouding (finished 40x20 mm section) to edges of table, top; polished teak wood-lipping (form thick) to free edges of block board phytomed agricus; partoyed darwide, ladds inspired and the proposed agricus; approved quality, it also include early made leptoral or engineering plastic The keyboard is a pullout type. Encel to channels and secreted to below table top. The CTU stand is nation with 1 mm the Witter than the providence of the pro		nails/screws, hardwares etc. Thereafter, providing and fixing 1mm thick laminate of approved shade &			
sounters' seleves to be painted with synthetic transmel paint (Fixing O.8 mm thick laminate, as per the site V Sorrage Calhaniae. V Sorrage Calhaniae. V Shorrage Calhaniae. V Shorrage Calhaniae. V Shorrage Calhaniae. Providing and fixing 276mm high and depth of 450 storage valued having minimum 2 filing calhuers made on of 19 mm the RWP bock board. All poposed surfaces shall be coded with 1 mm thick taminates of approved make and shade except edges. Edges which shall be context with 1 mm thick taminates of approved make and shade except edges. Edges which shall be context of approved make and shade storage calhinet should be complete in all reports a per the driving and direction of hagineer-in-charge including all hardware and locking arrangements. The rate shall include cost of all materials, labour, taxes, T&P, transportation, repolities set: vi Grahak Miter Tablet Providing curved table of 1200x1200x750 mm in curved pattern with tube to prome and of 10 mm th ply with locking arrangement. The exposed edge surfaces are to be finished with 1.0mm thic laminates as per design of approved shade and the inner surface is finished with 0.3 mm thick laminates as per design of approved shade and the inner surface is finished with 0.3 mm thick laminates as per design or pointhed teak wood-laping (mm thick) to free edges of block board phywood surfaces, approved drawer-alides, linges and locks with keys in applicant; or to edge of table, to pointhed teak wood-laping (mm thick) to free edges of block board phywood surfaces, approved drawer-alides, linges and locks with keys in application; to the received provides and design of the wood laping (mm thick) to free edges of block board phywood surfaces, approved drawer-alides, linges and locks with keys in application of the provides of the provides and the laminate and surface and the laminate and laminate. vii SWO-Cash Counter- Side Table (Credataz		colour, complete in all respect as per the direction of EIC. Polishing the beading etc, as per the site			
Sorrage Cabinotts: Positing and fixing 750mm high and depth of 450 storage cabinet having minimum 2. filing calinates to the control of 19 mm this. BWR block bound. All exposed surfaces shall be caladed with 1 mm thick I laminates of approved make and shade except edges. Edges which cabin ble covered with 1 mm thick I laminates. All time-sposed surfaces shall be caladed with 8 mm thick I laminates. All time-sposed surfaces shall be caladed with 80 mm thick laminates of all materials, labour, traves, T&P, transportation, royalties etc. 14 Grahak Mitter Table: Power and locking arrangements. The rate shall include cost of all materials, labour, traves, T&P, transportation, royalties etc. 15 Grahak Mitter Table: Power and locking arrangements as a stabil include cost of all materials, labour, traves, T&P, transportation, royalties etc. 16 Grahak Mitter Table: Power Quoted rates shall garangements. The rate stabil include cost of all materials, labour, traves, T&P, transportation, royalties etc. 16 Grahak Mitter Table: Power Quoted rates shall garangements. The rate exposed edge stratices are to be finished with 1.0mm this laminates as per design of approved shade and the inner surface is finished with 0.0mm this laminates as per design of approved shade and the inner surface is finished with 0.0mm this laminates as per design. The work of polished teak wood implicit (finished 40x20 mm section) to edges of table. top; polished teak wood-lipping (firm thick) to free edges of black board physocod surfaces; approved drawer-stides, langes and labour traves and the proposed drawer stides, langes and labour traves and traves an		condition to match with the new ambience policy of the Bank. All unexposed surfaces of the table/			
Providing and fixing 250mm high and depth of 450 storage cabinen having minimum 2 filing cabinets made out of 19 mm the. Why block board, all exposed surfaces shall be claded with 1 mm thick la luminates of approved make and shade except edges. Edges which shall be covered with 1 mm thick laminates of approved make and shade storage cabinet should be complete in all respect as per the driving and direction of Engineer—in-charge including all bardware and locking arrangements. The rate shall include cost of all materials, labout, tuxers, T8P, transportation, royaticises can be considered to the control of 150 mm thick laminates of approved make and shade storage cabinet should be complete in all respect as per the driving and direction of Engineer—in-charge including all bardware and locking arrangements. The rate shall include cost of all materials, labout, tuxers, T8P, transportation, royaticises can be finished with 10m thick laminates as per design of approved data and the inner article is finished with 0.3 mm thic laminates as per design of approved ands and the inner article is finished with 0.3 mm thick laminates as per design of approved ands and be inner article in finished with 1.0 mm thick laminates as per design of approved data and the inner article is finished with 0.3 mm thick laminates as per design of approved data wood inspired in thick to free edges of block board /plywood surfaces: approved drawer-slides, hinges and locks with keys in duplicate: other necessary hardware and accessories including saint links 185 handles knobs and wire managers, foot reat etc. of approved quality, it also include readymade keyboard of engineering plastic The keyboard is a pullout type, fixed to channels and serveed to below table top. The CPU stant is made up with 19 mm pty with laminate finish as per design. The work should be mpleted including all laborar and marrials. **WO Cash Counter Side Table (Credenza) of size 1000c150x750/mm with shatuer unit of 600mm, with drawar in the particle of the country of the		counters/ shelves to be painted with synthetic enamel paint/ fixing 0.8 mm thick laminate, as per the site			
made out of 19 mm tht. BWR block board. All exposed surfaces shall be claded with 1 mm the PVC lipping as directed by the Engineeri-ne-harge and Cabinet Top is to be provided with 1 mm the VC lipping as directed by the Engineeri-ne-harge and Cabinet Top is to be provided with 1 mm the kel laminates. All un-exposed surfaces shall be claded with 0.8 mm thick laminated of approved make and shade storage cabinet should be complete in all taspect as per the drawing and direction of Engineeri-ne-charge including all hardware and locking arrangements. The rate shall include cost of all materials, labour, taxes, T&P, transportation, royalties etc. 11 Gerlank Mitter Table: Providing curved table of 1200x1200x390 mm in curved pattern with table top made of 19mm th, ply and a front drawer unit consisting 3 Nos of drawer unit sides on telescopic slader made up of 19mm the kpy with locking arrangement. The exposed edge arrangences are to provided with 0.8 mm th. laminate of United Tables with 0.8 mm th. laminate with 0.8 mm th. laminate consisting a transported shade and the inner surface is finished with 0.8 mm th. laminate and secresories including (finished 40x20 mm section) to edges of table, top-polished teak wood-lipping (firms thick) to free edges of block board phytood surfaces; approved direaver-tables, linges and locks with keys in duplicate: other necessary hardware and accessories including satin finish S.5 handles. knobs and wire managers, for creat ce, of approved quality, 14 too include readymbe keyboard of angineering plastic. The keyboard is a pullout type, fixed to channels and screwed to below table top. The CPU stand is made up with 19 mm ply with liminate finish as per design. The work should be mplecied including all labour and material. 12 SWOCASh Counter-Side Table (Credenza) of size 1000x450x750)mm with shutter unit of 600mm, with 1 drawer unit of 1 sliding draw and one openable shutter made with 19mm plw ward with places and management surface with 0.8 mm laminate. 12 Providing and fixing wall /	v	Storage Cabinate.			
made out of 19 mm tht. BWR block board. All exposed surfaces shall be claded with 1 mm the PVC lipping as directed by the Engineeri-ne-harge and Cabinet Top is to be provided with 1 mm the VC lipping as directed by the Engineeri-ne-harge and Cabinet Top is to be provided with 1 mm the kel laminates. All un-exposed surfaces shall be claded with 0.8 mm thick laminated of approved make and shade storage cabinet should be complete in all taspect as per the drawing and direction of Engineeri-ne-charge including all hardware and locking arrangements. The rate shall include cost of all materials, labour, taxes, T&P, transportation, royalties etc. 11 Gerlank Mitter Table: Providing curved table of 1200x1200x390 mm in curved pattern with table top made of 19mm th, ply and a front drawer unit consisting 3 Nos of drawer unit sides on telescopic slader made up of 19mm the kpy with locking arrangement. The exposed edge arrangences are to provided with 0.8 mm th. laminate of United Tables with 0.8 mm th. laminate with 0.8 mm th. laminate consisting a transported shade and the inner surface is finished with 0.8 mm th. laminate and secresories including (finished 40x20 mm section) to edges of table, top-polished teak wood-lipping (firms thick) to free edges of block board phytood surfaces; approved direaver-tables, linges and locks with keys in duplicate: other necessary hardware and accessories including satin finish S.5 handles. knobs and wire managers, for creat ce, of approved quality, 14 too include readymbe keyboard of angineering plastic. The keyboard is a pullout type, fixed to channels and screwed to below table top. The CPU stand is made up with 19 mm ply with liminate finish as per design. Imminates of approved make and shade except edges. Edges which shall be covered with 1mm this VC lipping as directed by the Engineer in-charge and Cabinet Top is to be provided usith 1mm thick Imminate. All un-exposed surfaces shall be claded with 1k mm thick Imminate of approved make and shade storage cabinet should be complete in all respect as per the drawing and direction of Engineer-in-charge including all hurdware and locking arrangements. The rate shall include cost of all materials, labour, taxes, T&P, transportation, ropalities etc. 1st Grahak Mitera Table: Providing curved table of 120x100x130 mm in curved pattern with table top make of 19mm th ply and a front drawer unit consisting. 3 Nos of drawer units slides on telescopie slider made up of 19mm th ply with locking arrangement. The exposed edge surfaces are to be finished with 1.0mm this laminates as per design of approved drawer date and the inner surface is finished with 0.8 mm this laminate. Quoted rates shall also include cost of polished teak wood moudding (finished 40x20 mm section) to edges of table, top: polished teak wood lipping (fime mitch 10x20 tree edges of block board physocol surfaces: approved drawer-slides, hinges and locks with keys in duplicate: other necessary hurdware and accessive including saint linish S.S handles knobs and wire managers, foot rest etc. of approved quality. It also include readymade keyboard of engineering plastic The keyboard is a pullout repet. fined to changes and accessed to below table top. The CPU stant is made up with 19 mm ply with laminate finish as per design. The work should be mpleted including all lobars are duranterial. 1st SWOCash Counter-Side Table (Credenza) of size 1000x150x750)mm with shatter unit of 600mm, with drawer mit of 15 slding draw and one operable shatter made with 19mm 19WR ply Board with shallow and unexposed interest and the polish finished including provisions for providing early and the finished shall man take laminated approved when the shall be approved to the providing a			-		
laminate. All un-exposed surfaces shall be cladded with 0.8 mm thick laminate of approved make and shade storage exhiner should be complete in all respect as per the drawing and direction of Engineer-in-charge including all hardware and locking arrangements. The rate shall include cost of all materials, labour, tases, T&P, transportation, possibles experience of the providing curved table of 1200x1200x750 mm in curved pattern with table top made of 19mm th, ply and a front drawer unit consisting 3 Nos of drawer units silicas on telescopic slider made up of 19mm this ply with locking arrangement. The exposed edge surfaces are to be finished with 1.0 mm this laminates as per design of approved shade and the inner surface is finished with 0.0 mm this laminates as per design of approved shade and the inner surface is finished with 0.0 mm to laminate (200ted rates shall also include exost of polished teak wood moulding (finished 40x50, mm section) to edges of table, top: polished teak wood inping (6mm thick) to free edges of block, board plywood surfaces; approved drawer slieds, hinges and lock with keys in duplicate: other necessary hardware and accessories including satin finish 5.5 handles, knobs and wire managers. Foot rest ext. of approved quality, it also include reducibles, hinges and lock with keys in duplicate: other necessary hardware viz. W 1 hinges, handles, locks, tower bolts, etc. EhronCodeji make telescopic sliding key board tray and a mobile CPU stand. All exposed surface to be finished with 1 mm this laminate and unexposed/mere surface with 0.8 mm laminate. PANELLING WORK PROVIDING and fixing real and column paneling as described below Providing and fixing valid and column paneling as described below Providing and fixing valid and column paneling as described below Providing and fixing valid and column paneling as described below Providing and fixing valid and column paneling as described below Providing and trainsp valid (column paneling with 55mm as 75mm to 5mm thick taninator approved shad					
shade storage calibrate and locking arrangements. The rate shall include cost of all materials, labour, taxes, T&P, transportation, royalties etc. vi Grahak Mitra Table: Providing cured table of 1200x1200x750 mm in curved pattern with table top made of 19mm th, ply and a front drawer unit consisting 3 Nos of drawer units slides on telescopic slider made up of 19mm th, ply with locking arrangement. The exposed edge surfaces are to be finished with 1.0mm thk laminates as per design of approved shade and the inner surface is finished with 0.3 mm the laminate Quoted rates shall also include cost of polished teak wood imping (finished b402.0 mm secion) to edges of table. tope polished teak wood imping (finished lox) may be represented to the provided the composition of the provided that the providing electrical switch hose tec complete as per the teacher specification. The work should executed as per as per design and 100x12 mm teach wood skirting polish finished including provisions for providing electrical switch hose tec complete as per the teacher specification. The work should executed as per as per design and 100x12 mm teach wood skirting polish finished including provisions for providing electrical switch hose tec complete as per the teacher specification. The work should executed as per as per design and 100x12 mm teach wood skirting polish finished including provisions for providing electrical with howe the complete as per		lipping as directed by the Engineer-in-charge and Cabinet Top is to be provided with 1mm thick			
charge including all hardware and locking arrangements. The rate shall include cost of all materials, labour, taxes, T&P, transportation, royalties etc. vi Grahak Mitra Table: Providing curved table of 1200x1200x750 mm in curved pattern with table top made of 19mm th. ply and a front drawer unit consisting 3 Nos of drawer units slides on telescopic slider made up of 19mm th ply with locking arrangement. The exposed edge surfaces are to be finished with 10mm thk luminates as per design of approved shade and the inner surface is finished with 0.0mm thk luminate goust parts shall also include costs of polished teak wood moidting (finished 40x2) nm section) to edges of table, top polished teak wood-inpiping (form thick) to free edges of block board plywood surfaces, approved drawer-sliebs, hinges and locks with keys in duplicate: other necessary hardware and accessories including sain finish 3.5 handies, knobs and wire managers. For rest etc. of approved quality, I also include erables, hinges and locks with keys in duplicate: other necessary hardware vita and accessories including sain finish 3.5 handies, knobs and wire managers, for rest etc. of approved quality, I also include erables, hinges and locks with keys in duplicate in the provision of provision for providing electrical switch how tecomolecus as per as per Adshired 8 nonand sair discrete by EUC. Out includes all type of material, labour, necessary, staging, tools tackles, etc complete ii ACP Panelling: Providing and fixing in place aluminate Composite panel cladding of approved upility, shade, colour, make (Europaul Altonod). Aluchooda etc. per design, in flat or rounded shapes, perfectly in level / slope, line, and plumb, at all heights, over Aluminum frame and as directed by EUC. Out includes all ty		laminate. All un-exposed surfaces shall be cladded with 0.8 mm thick laminate of approved make and			
vi Grahak Mitra Table: Providing curved table of 1200x1200x750 mm in curved pattern with table top made of 10mm th, ply and a front drawer unit consisting 3 Nos of drawer units slides on telescopic slider made up of 19mm thk ply with locking arrangement. The exposed edge surfaces are to be finished with 1.0mm thk laminates aper design of approved shade and the inner surface is finished with 0.8 mm thk laminate. Quoted rates shall also include cost of polished teak wood moulding (finished 40:20 mm section) to edges of table, top: polished teak wood inping (fomm thick) to free edges of block board /plywood surfaces; approved drawer-slides, hinges and locks with keys in duplicate: other necessary hardware and accessories including satin finish S.5 handles knobs and wire-managers, foot rest etc. of approved quality, it also include readymade keyboard of engineering plastic. The keyboard is a pullout type, fixed to channels and screwed to below table top. The CPU stand is made up with 19 mm ply with laminate finish as per design. The work should be mpleted including all labour and material. vii SWO.Cash Counter- Sde Table (Credenza) of size 1000x450x750)mm with shutter unit of 600mm, Nos with 1 drawer unit of 1 sliding draw and one openable shutter made with 19mm BWR ply Board with necessary hardware viz., W hinges, handles, locks, nower bolts, etc. Ebco.Godiej make telescopic sliding key board tray and a mobile CPU stand. All exposed surface to be finished with 1mm thk laminate and unexposed/inner surface with 0.8 mm laminate. 4 PANELLING WORK i Providing and fixing vall and column paneling as described below Providing and fixing wall and column paneling as described below Providing and fixing to place a prediction of the provided and trand pasted as pre design and 100x12mm teah wood skriting polish finished including provisions for providing electrical switch box etc complete as per the tender specification. The work should executed as per as per Architecis's recommendation & as directed by Eric.Cost includes		shade storage cabinet should be complete in all respect as per the drawing and direction of Engineer-in-			
vi Grahak Mitra Table: Providing curved table of 1200x1200x750 mm in curved pattern with table top made of 19mm th. ply and a front drawer unit consisting 3 Nos of drawer units sides on telescopic slider made up of 19mm th ply with locking arrangement. The exposed edge surfaces are to be finished with 1.0mm thk laminates as per design of approved shade and the inner surface is finished with 0.0mm thk laminates as per design of approved shade and the inner surface is finished with 0.0mm thk laminates as per design of approved shade and the inner surface is finished with 0.0mm section) to edges of table, top; polished teak wood. lipping (form thick) to free edges of block board /phywood surfaces; approved drawer-lides, hinges and locks with keys in duplicate: other necessary hardware and accessories including satin finish 8.5 handles, knobs and wire-managers, foot rest etc. of approved quality. It also include readymade keyboard of engineering plastic. The keyboard is a pullout type, fixed to channels and screwed to below table top. The CPU stand is made up with 19 mm ply with Jaminate finish as per design. The work should be mpleted including all labour and material. vii SWOCAsh Counters. Side Table (Credenza) of size 1000x450x750/mm with shutter unit of 600mm, with 1 drawer unit of 1 sliding draw and one openable shutter made with 19mm BWR ply Board with necessary bardware viz., "W 'hinges, handles, locks, tower boths, etc. Ebocchodiej make telescopic sliding key board tray and a mobile CPU stand. All exposed surface to be finished with 1mm this laminate and unexposedimen surface with 0.8 mm laminate. 4 PANELLING WORK Providing and fixing wall and column paneling as described below Providing and fixing wall and column paneling as described below Providing and fixing wall and column paneling as described below Providing and fixing wall and column paneling as described below Providing and fixing wall and column paneling as described below Providing and fixing wall and column paneling as described below P		-			
made of 19mm th, ply and a front drawer unit consisting 3 Nos of drawer units slides on telescopic slider made up of 19mm thk ply with locking arrangement. The exposed edge surfaces are to be finished with 10mm thk laminates as per design of approved shade and the inner surface is finished with 0.0mm thk laminates as per design of approved shade and the inner surface is finished with 0.0mm thk laminates as per design of approved shade and the inner surface is finished with 0.0mm thk laminates approved from the cost of polished teak wood hipping (finished dox.2mm thk psy in duplicate : other necessary hardware and accessories including satin finish S.S handles. knobs and wire managers, foot rest etc. of approved quality. It also include readymade keyboard of engineering plastic. The keyboard is a pullout type, fixed to channels and screwed to below table top. The CPU stand is made up with 19 mm ply with harminate finish as per design. The work should be mpleted including all labour and material. **Vii SSWOCASA Counters Side Table (Credenza) of size 1000A450x750mm with shutter unit of 600mm, with 1 drawer unit of 1 sliding draw and one openable shutter made with 19mm BWR ply Board with necessary hardware viz., "W hinges, handles, locks, tower bolts, etc. Eboc Godierj make telescopic sliding key board tray and a mobile CPU stand. All exposed surface to be finished with 1mm thk laminate and unexposed/inner surface with 0.8 mm laminate. 4 PANELLING WORK 1 Providing and Bising wall account paneling as described below Providing and fixing wall with 25mm x 25mm x 15 mm hollow aluminum square tube frame work covered by 9 mm thick DWR pland finished with 1mm thick buninates and unexposed/inner surface with 0.0 mm laminate. 4 PANELLING WORK 1 Providing and fixing wall may all plands, to see divide the pland of t		labour, taxes, T&P, transportation, royalties etc.			
made of 19mm th, ply and a front drawer unit consisting 3 Nos of drawer units slides on telescopic slider made up of 19mm thk ply with locking arrangement. The exposed edge surfaces are to be finished with 10mm thk laminates as per design of approved shade and the inner surface is finished with 0.8 mm thk laminates as per design of approved shade and the inner surface is finished (finished 40:20 mm section) to edges of table: top; polished teak wood-lipping (form thick) to free edges of block board (plywood surfaces, approved drawer-slides, hinges and locks with keys in duplicate; other necessary hardware and accessories including satin finish S.S handles, knobs and wire-managers, foot rest etc. of approved quality, it also include readymade keyboard of engineering plastic. with 1 drawer unit of 1 sliding draw and one openable shutter made with 19mm BWR ply Board with necessary hardware viz., 'W' hinges, handles, locks, tower bolts, etc. Ebco/Godrej make telescopic sliding key board tray and a mobile CPU stand. All exposed surface to be finished with 1mm this laminate and unexposed/inner surface with 0.8 mm laminate. 4 PANELLING WORK i Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling as described below provisions for providing and fixing with the wall of the paneling provisions for providing and fixing in place aluminum frame and as directed by architects. Panels shall be installed with accessories recommended by the Manufacturer, required hardware, silicon sealent (Dow Corning 789) masking tape, necessary scaffolding etc. complete in all respects. The support structure and aluminum frame shop drawings shall be submitted to the architects for approval before start of work. Aluminum Composite Panels shall meet the fo	<u> </u>			4.00	
necessary hardware viz., 'W 'hinges, handles, locks, tower bolts, etc. Ebeo/Godrej make telescopic sliding key board tray and a mobile CPU stand. All exposed surface to be finished with 1mm thk laminate and unexposed/inner surface with 0.8 mm laminate. 4 PANELLING WORK i Providing and fixing wall and column paneling as described below Providing and fixing wall / column paneling with 25mm x 25mmx1.5 mm hollow aluminum square tube frame work covered by 9 mm thick BWR ply and finished with 1mm thick laminateof approved shade and brand pasted as per design and 100x12mm teak wood skirting polish finished including provisions for providing electrical switch box etc complete as per the tender specification. The work should executed as per as per Architect's recommendation & as directed by EIC. Cost includes all type of material, labour, necessary, staging, tools tackles, etc complete ii ACP Panelling: Providing and fixing in place aluminum Composite panel cladding of approved quality, shade, colour, make (Euroband / Altobond / Alucobond etc.)per design, in flat or rounded shapes, perfectly in level / slope, line, and plumb, at all heights, over Aluminum frame and as directed by architects. Panels shall be entabled with accessories recommended by the Manufacturer, required hardware, silicon sealent (Dow Cormig 789) masking tape, necessary scaffolding etc. complete in all respects. The support structure and aluminum frame shop drawings shall be submitted to the architects for approval before start of work. Aluminum Composite Panels shall be extreme to the architects for approval before start of work. Aluminum Composite Panels shall be aubmitted to the architects for approval before start of work. Aluminum of minimum 0.5mm thickness. The outer top skin shall be coated with KYNAR 500 PVdF or similar coating. The panel product shall carry a 10 years Warranty on weather durability, UV color fading, corrosion, chalking, fading, weather damage and manufacturing defects and confirm to ASTM standards. 5 OTHER FURNISHING WO	vii		Nos	4.00	
sliding key board tray and a mobile CPU stand. All exposed surface to be finished with 1mm thk laminate and unexposed/inner surface with 0.8 mm laminate. 4 PANELLING WORK i Providing and fixing wall / Column paneling sa described below Providing and fixing wall / Column paneling with 25mm x 25mmx1.5 mm hollow aluminum square tube frame work covered by 9 mm thick BWR ply and finished with 1mm thick laminated approved shade and brand pasted as per design and 100x12mm teak wood skirting polish finished including provisions for providing electrical switch box etc complete as per the tender specification. The work should executed as per as per Architect's recommendation & as directed by EIC. Cost includes all type of material, labour, necessary, staging, tools tackles, etc complete ii ACP Panelling: Providing and fixing in place aluminum Composite panel cladding of approved quality, shade, colour, make (Euroband / Altobond / Altocobond etc.)per design, in flat or rounded shapes, perfectly in level / slope, line, and plumb, at all heights, over Aluminum frame and as directed by architects. Panels shall be installed with accessories recommended by the Manufacturer, required hardware, silicon sealent (Dow Corning 789) masking tape, necessary scaffolding etc. complete in all respects. The support structure and aluminum frame shop drawings shall be submitted to the architects for approval before start of work. Aluminum Composite Panels shall meet the following minimum specifications: Panels shall be exterior grade, 4mm thick (0.5mm – 3mm – 0.5mm) composed of Polyethylene Core sandwiched between two sheets of Aluminum of minimum 0.5mm thickness. The outer top skin shall be coated with KYNAR SOD PVId or similar coating. The panel product shall carry a 10 years Warranty on weather durability, UV color fading, corrosion, chalking, fading, weather damage and manufacturing defects and confirm to ASTM standards. 5 OTHER FURNISHING WORK i Cheque dron box / Sugession box Supplying and erecting cheque drop box (overall size					
laminate and unexposed/inner surface with 0.8 mm laminate. 4 PANELLING WORK i Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling with 25mm x 25mmx1.5 mm hollow aluminum square tube frame work covered by 9 mm thick BWR ply and finished with 1mm thick laminateof approved shade and brand pasted as per design and 100x12mm teak wood skirting polish finished including provisions for providing electrical switch box etc complete as per the tender specification. The work should executed as per as per Architect's recommendation & as directed by EIC. Cost includes all type of material, labour , necessary , staging , tools tackles, etc complete ii ACP Panelling : Providing and fixing in place aluminum Composite panel cladding of approved quality, shade, colour, make (Euroband / Altobond / Alucobond etc.)per design, in flat or rounded shapes, perfectly in level / slope, line, and plumb, at all heights, over Aluminum frame and as directed by architects. Panels shall be installed with accessories recommended by the Manufacturer, required hardware, silicon sealent (Dow Coming 789) masking tape, necessary scaffolding etc. complete in all respects. The support structure and aluminum frame shop drawings shall be submitted to the architects for approval before start of work. Aluminum frames shop drawings shall meet the following minimum specifications: Panels shall be exterior grade, 4mm thick (0.5mm – 3mm – 0.5mm) composed of Polyethylene Core sandwiched between two sheets of Aluminum of minimum 0.5mm thickness. The outer top skin shall be coated with KYNAR 500 PVIQ or similar coating. The panel product shall carry a 10 years Warranty on weather durability, UV color fading, corrosion, chalking, fading, weather damage and manufacturing defects and confirm to ASTM standards. 5 OTHER FURNISHING WORK i Cheque dron box / Sugression box Supplying and erecting cheque drop box (overall size 450 mm x 300 mm x 750 mm) made. of 19mm hick phenol formaldehyde bonded plyboard and t		· · · · · · · · · · · · · · · · · · ·			
4 PANELLING WORK i Providing and fixing wall column paneling as described below Providing and fixing wall / column paneling with 25mm x 25mmx1.5 mm hollow aluminum square tube frame work covered by 9 mm thick BWR ply and finished with 1mm thick laminate of approved shade and brand pasted as per design and 100x12mm teak wood skirting polish finished including provisions for providing electrical switch box etc complete as per the tender specification. The work should executed as per as per Architect's recommendation & as directed by EIC. Cost includes all type of material, labour, necessary, staging, tools tackles, etc complete of material, labour, necessary, staging in place aluminum Composite panel cladding of approved quality, shade, colour, make (Euroband / Alucbond / Alucobond etc.)per design, in flat or rounded shapes, perfectly in level / slope, line, and plumb, at all heights, over Aluminum frame and as directed by architects. Panels shall be installed with accessories recommended by the Manufacturer, required hardware, silicon sealent (Dow Corning 789) masking tape, necessary scaffolding etc. complete in all respects. The support structure and aluminum frame shop drawings shall be submitted to the architects for approval before start of work. Aluminum Composite Panels shall meet the following minimum specifications: Panels shall be exterior grade, 4mm thick (0.5mm – 3mm – 0.5mm) composed of Polyethylene Core sandwiched between two sheets of Aluminum of minimum 0.5mm thickness. The outer top skin shall be coated with KYNAR 500 PVdF or similar coating. The panel product shall carry a 10 years Warranty on weather durability, UV color fading, corrosion, chalking, fading, weather damage and manufacturing defects and confirm to ASTM standards. 5 OTHER FURNISHING WORK Cheau drop box / Sugression box Supplying and erecting cheque drop box (overall size 450 mm x 300 mm x 750 mm) made. of 19mm thick phenol formaldehyde bonded plyboard and the curved portion at top made out of 90 mm x 90 mm C.Petak wood sectio					
Providing and fixing wall / column paneling as described below Providing and fixing wall / column paneling with 25mm x 25mmx1.5 mm hollow aluminum square tube frame work covered by 9 mm thick BWR ply and finished with 1mm thick laminate of approved shade and brand pasted as per design and 100x12mm teak wood skirting polish finished including provisions for providing electrical switch box etc complete as per the tender specification. The work should executed as per as per Architect's recommendation & as directed by EIC. Cost includes all type of material, labour , necessary , staging , tools tackles, etc complete ACP Panelling : Providing and fixing in place aluminum Composite panel cladding of approved quality, shade, colour, make (Euroband / Altobond / Altobond etc.)per design, in flat or rounded shapes, perfectly in level / slope, line, and plumb, at all heights, over Aluminum frame and as directed by architects. Panels shall be installed with accessories recommended by the Manufacturer, required hardware, silicon sealent (Dow Corning 789) masking tape, necessary scaffolding etc. complete in all respects. The support structure and aluminum frame shop drawings shall be submitted to the architects for approval before start of work. Aluminum Composite Panels shall meet the following minimum specifications: Panels shall be exterior grade, 4mm thick (0.5mm – 3mm – 0.5mm) composed of Polyethylene Core sandwiched between two sheets of Aluminum of minimum 0.5mm thickness. 				į	
	Providing, fitting, fixing writing plat form at a height of 4' above floor level fixed to the wall made out				
	of 19 mm BWR block board with lamination 1 mm tk on top & hard wood beading ducco painted . At				
	least 10 nos vertical slip in chalan shelfs attached to wall over writing platform made out of min 4 mm				
	tk acrylic sheets with 6 mm tk ply back up. Each chalan shelf will be of size 6" height, 6" wide .The				
	entire unit will be complete in all respect including materials ,labor etc to the satisfaction of consultant .				
iii	Notice Board				
	Providing soft board covered with approved fabric with wooden frame work and decorative beading for	Sqm.	2.00		
	display drawings and documents, with locking arrangement of the sliding shutter made up of 8mm th.	~ 1			
	flot glass. The work should be done including all labour and material.				
6.0	WINDOW BLINDS: Providing and fixing vertical blinds of Vista/ Marble/ equiv as approved by	Sqm.	5.00		
	engineer-in-chrage with colour and shade as approved along with all accessories				
7.0	False Ceiling				
i	Providing & fixing at site plain gypsum board stepped/ flush false ceiling as per pattern &design made	Sqm.	60.00		
	from 12.5mm thk paper reinforced gypboard sheets fixed with mainframe channels 80mm x 26mm				
	x0.5mm, every 450mm c/c or as mentioned in drawing intermediate channels 15mm x 45mm x 0.9mm				
	at every 1220mm c/c with perimeter channel 20mm x 26mm x 0.5mm all along the wall shall be provided. The whole system to be suspended with strap bolts as recommended using rawl plugs 12.5mm				
	dia. x 35mm long, with 6mm dia bolt & soffit cleat 27mm x37mm x 25mm x1.6mm thk. Gypboards to				
	be screw fixed to the above framework using 25 mm dry wall screws. Provisions of melamine polished				
	white beach wood moulding at wall / partition joints. Arrangements are to be made to accommodate				
	light fixtures by forming recessed channels etc., wherever directed. Depressions, nails & screws,				
	jointing & finishing etc., shall be done with jointing compound & paper tape. Ceiling to be leveled &				
	free from cracks including fixing GI perimeter to hold light fittings. Item to be completed in all respect		[
	to the Architect's approval. Provision of Opening (openable) min 4 nos(for maintenance purpose) in		[
	ceiling as per site conditions are to be done with necessary timber frame work tied with perimeter		[
	channel properly such as to match the remaining area of ceiling by leveling perfectly complete in all				
	respect. This rate includes cost of all materials, labours, royalty,taxes, lead & lift to the place of work&				
8.0	also the cost of all fittings, (Measurements shall be taken for flat surface) Brick Masonry Work				
i	Dismantling of existing brick work at site as advised by EIC and removal of debris from working site	Sqm.	6.00		
	including cost of labour, staging and making good to damaged wall frame.	oqui.	0.00		
ii	Providing and Erecting in full brick wall in fly ash brick of good quality in C:M 1:6 mix in smooth	Cum	5.00		
	level and curing, labour material transportation etc. The rate shall include a lintel course at 7 ft height				
	of 6 inch deep 4 nos 6mm dia reinforcement steel with 6mm dia stirrups @ c/c 150 mm spacing				
iii	Providing & applying cement sand plaster of 1:4 proportion to existing brick / RCC walls & ceilings in	Sqm.	35.00		
	single coat of avg.12 mm thk. Finished rough to receive plaster of paris levelling coat. The rate shall	. 1			
	include necessary scaffolding, curing etc. Complete.				
iv	Removing and refixing existing MS door, Collapsible grill and flush doors in position at site (Strong	LS	1.00		
	room and Locker)				
9.0	Emulsion Paint : Applying Roller Finishing the wall surafce with one or more coat of wall primer	Sqm.	300.00		
	followed by two or more coats of plastic emulsion paints of asian or equiv of berger/ ICI/ with	. 1			
	approved shade and colour after scrapping the existing paint using sandpaper. Cost also include touch				
	up finishing to the wall surface with putty of Birla/ Asian/Berger to make the surface in line and level.				
10.0	Fixing of solid acrylic surface				
	Supplying, Fabrication and Installation of Dupont-Corian/Merino solid surface of 6 mm thk of approved	Sqm.	13.00		
	shade. Applied on table Top, Sides and any where wall, Logo etc in place of 1mm thick laminate. The		[
	edges to be joined should be straight, smooth and clean. Joints should only be made with joint Adhesive				
	for Dupont Corian. All corners of a cutout must be rounded to 5mm radius and the edges smoothed, both on top & bottom, all around a cutout. "L" & "U" shaped corners need smooth 5mm radius inside				
	corner. All works done to the satisfaction of the Architect/Engineer. Note:- Work done including labour,		[
	material wastage, time limits, required hardware etc.				
11.0	Misclaneous Work				
i	The contractor to quote for repair work as required to the cabinets/storage units as per site condition	LS	1.00	İ	
	scope of work includes: replacement/ refixing of channels, locks handles and shifting of		[
	Counters/Tables/Work Stations/and Other movale furniture items as directed by EIC within branch		[
	premises labour charges.		100		
ii	Contractor to quote rate for dismantling, removing and catering away debris or any unsed/unnecessary	LS	1.00		
	furniture items from Bank's premises to outside muncipal dumping yard, including cost for the buy back items.		[
-	DACK HEMS. TOTAL AMOUNT				
Note	1.GST shall be paid extra as per Govt. of India guidelines			I	
	2. The quantities put to tender are tentative only. Payment shall be made on the basis of the actual work executed				
ļ	3. The colour scheme, materials and specification has been finalized and the contractor to discuss with Engineer -			ecification as per t	ender T&C.
-	4. the contractor shall keep the site clean from debris and ensure removal of debris at regular intervals to avoid inc 5. Recommended Materials:	convenienc	e to the dank.		
	1. Ply / Block board: Century/ Green / Sylvam BWR grade, 2. Laminate: Century/ Marino/ Green lam 3. MDF Boa		/ Green/ Action to	esa/ Kit ply
