Tender ID: AHM202001001

Signature & Seal of Tenderer
21. Water & electricity

Water & Electricity shall be provided by the Bank at one point. However further distribution & extension & light fixture etc. with required MCB switches, switch boards, lamps, tube, etc. shall be arranged by the contractor at their own cost within the accepted tender cost. Bank will recover 0.5% of final bill amount consumption of water & electricity.

22. Agency for arranging online bidding (Technical bid indicative price bid and e re- verse auction).

23. Contract no of Bank”s Engineer for any technical clarification.

0278 / 2519533 / 7600040003

22. Tenders can be downloaded from the bank’s website LINK: https://sbi.co.in/web/sbi-in-the-news/procurement-news. It shall be responsibility of the contractor to arrange and ensure that all pages of technical and financial bid are properly bound separately. Tenders in loose pages may be disqualified.

23. The contractor shall sign and stamp each page of the tender document thereby ensuring the number and sequence of all pages.

24. No conditions other than mentioned in the tender will be considered, and if given they will have to be withdrawn before opening of the price-bid.

25. The SBIIMS reserve their rights to accept or reject any or all the tenders, either in whole or in part without assigning any reason for doing so and any claim / correspondence shall be entertained in this regard.

26. Tenders received without EMD and Application Fees shall be summarily rejected and such tenders shall not be allowed to participate in the online price bidding process.

27. In case the date of opening of tenders is declared as a holiday, the tenders will be opened on the next working day at the same time.

28. SBIIMS has the right to accept / reject any / all tenders without assigning any reasons and no correspondence shall be entertained in this regard.

Yours Faithfully,

SAMPLE BUSINESSES RULE DOCUMENT

ONLINE E-TENDERING FOR PROPOSED ELECTRICALS WORKS OF
NAVABUNDAR BRANCH, DIST. GIR SOMNATH

(A) Business rules for E-tendering:

1. Only empanelled Electrical contractors with SBI under appropriate category who are
   invited by the project Architect/SBIIMS shall only be eligible to participate.
2. SBIIMS will engage the services of an E-tendering service provider who will provide
   necessary training and assistance before commencement of online bidding on Internet.
3. In case of e-tendering, SBIIMS will inform the vendor in writing, the details of service
   provider to enable them to contact and get trained.
4. Business rules like event date, closing and opening time etc. also will be communicated
   through service provider for compliance.
5. Contractors have to send by email, the compliance form in the prescribed format
   (provided by service provider), before start of E-tendering. Without this the vendor will
   not be eligible to participate in the event.
6. The Contractors will be required to submit the various documents in sealed Envelope to
   the office of SBI Infra Solutions Pvt Ltd. at the address mentioned hereinbefore by the
   stipulated date i.e. (1) Hard Copy of Technical Bid duly signed and stamped on each
   page (2) Demand Draft of specified amount of EMD (3) Online Tender Fees receipt.
   Contractors not submitting any one or more documents shall not be eligible to
   participate in the on-line price bidding.
7. E-tendering will be conducted on schedule date & time.

8. The e-tendering will be treated as closed only when the bidding process gets
   closed in all respects for the item listed in the tender.

(B) Terms & conditions of E-tendering:

SBIIMS shall finalize the Tender through e-tendering mode for which M/s. e-
Procurement Technology, Ahmedabad has been engaged by SBIIMS an authorized
service provider. Please go through the guidelines given below and submit your
acceptance to the same along with your Commercial Bid.

1. E-tendering shall be conducted by SBIIMS through M/s. e-Procurement Technology,
   Ahmedabad, on pre-specified date. While the Contractors shall be quoting from their
   own offices/ place of their choice, Internet connectivity and other paraphernalia
   requirements shall have to be ensured by Contractors themselves. In the event of
   failure of their Internet connectivity,(due to any reason whatsoever it may be) it is the
   bidders’ responsibility.

Tender ID: AHM202001001

Signature & Seal of Tenderer
In order to ward-off such contingent situation bidders are requested to make all the necessary arrangements/alternatives such as back-up powersupplywhatever required so that they are able to circumvent such situation and still be able to participate in the E-tendering successfully. Failure of power at the premises of Contractors during the E-tendering can not be the cause for not participating in the E-tendering. On account of this the time for the E-tendering can not be extended and SBIIMS is not responsible for such eventualities.

2. M/s. e-Procurement Technology, Ahmedabad, shall arrange to train your nominated person(s), without any cost to you. They shall also explain you all the Rules related to the E-tendering. You are required to give your compliance on it before start of bid process.

3. BIDDING CURRENCY AND UNIT OF MEASUREMENT: Bidding will be conducted in Indian currency & Unit of Measurement will be displayed in Online E-tendering.

4. BID PRICE: The Bidder has to quote the rate as per the Tender Document provided by SBIIMS their appointed Architects.

5. VALIDITY OF BIDS: The Bid price shall be firm for a period specified in the tender document and shall not be subjected to any change whatsoever.

6. Procedure of E-tendering:

   i. Online E-tendering:

   (a) The hard copy of the Technical as well as Price Bid is available on the Bank’s website during the period specified in the NIT.

   (b) Online e-tendering is open to the empanelled bidders who receive NIT from the Architect and qualified for participating in the price bidding as provisions mentioned hereinabove through SBIIMS approved Service Provider.

   (c) The Price-Bid shall be made available online by the Service Provider wherein the contractors will be required to fill-in their Item-wise rates for each item.

   (d) The Contractors are advised not to wait till the last minute to submit their online item-wise quote in the price bid to avoid complications related with internet connectivity, network problems, system crash down, power failure, etc.

   (e) It is mandatory to all the bidders participating in the price bid to quote their rates for each and every item.

   (f) In case, contractor fails to quote their rates for any one or more tender items, their tender shall be treated as “Incomplete Tender” and shall be liable for rejection.

7. LOG IN NAME & PASSWORD: Each Bidder is assigned a Unique User Name &
Password by M/s. **e-Procurement Technology, Ahmedabad.** The Bidders are requested to change the Password after the receipt of initial Password from M/s. **e-Procurement Technology, Ahmedabad.** All bids made from the Login ID given to the bidder will be deemed to have been made by the bidder.

8. **BIDS PLACED BY BIDDER:** Bids will be taken as an offer to execute the work as specified. Bids once made, cannot be cancelled / withdrawn and the Bidder shall be bound to execute the work at the quoted bid price. In case the L-1 Bidder backs out or fail to complete the work as per the rates quoted, SBIIMS shall at liberty to take action as deemed necessary including de-paneling such contractors and forfeiting their EMD.

9. At the end of the E-tendering, SBIIMS will decide upon the winner. SBIIMS decision on award of Contract shall be final and binding on all the Bidders.

10. SBIIMS shall be at liberty to cancel the E-tendering process/tender at any time, before ordering, without assigning any reason.

11. SBIIMS shall not have any liability to bidders for any interruption or delay in access to the site irrespective of the cause.

12. Other terms and conditions shall be as per your techno-commercial offers and other correspondences till date.

13. **OTHER TERMS & CONDITIONS:**

   - The Bidder shall not involve himself or any of his representatives in Price manipulation of any kind directly or indirectly by communicating with other suppliers / bidders.

   - The Bidder shall not divulge either his Bids or any other exclusive details of SBIIMS to any other party.

   - SBIIMS decision on award of Contract shall be final and binding on all the Bidders.

   - SBIIMS reserve their rights to extend, reschedule or cancel any E-tendering within its sole discretion.

   - SBIIMS or its authorized service provider M/s. **e-Procurement Technology, Ahmedabad** shall not have any liability to Bidders for any interruption or delay in access to the site irrespective of the cause.

   - SBIIMS or its authorized service provider M/s. **e-Procurement Technology, Ahmedabad** is not responsible for any damages, including damages that result from, but are not limited to negligence.

   c) Technical specifications
   d) Drawings
   e) Special conditions of contract
   f) General conditions of contract
   g) Instructions to Tenderers

2.3 Complete set of tender documents including relative drawings can be downloaded from the website www.sbi.co.in

2.4 The tender documents are not transferable.

3.0 Site Visit:

3.1 The tenderer must obtain himself on his own responsibility and his own expenses all information and data that may be required for the purpose of filling this tender document

Tender ID: AHM202001001

Signature & Seal of Tenderer
and enter into a contract for the satisfactory performance of the work. The tenderer is requested satisfy himself regarding the availability of water, power, transport and communication facilities, the character quality and quantity of the materials, labour, the law and order situation, climatic conditions local authorities requirement, traffic regulations etc; The tenderer will be fully responsible for considering the financial effect of any or all the factors while submitting his tender.

4.0 Earnest Money:

4.1 The tenderers are requested to submit the Earnest Money **Rs3700.00/- (Three Thousand Seven Hundred only)** by means of Demand Draft / Pay Order (Valid for a period of 90 Days from the last date of submission of the tender) from any scheduled Nationalized Bank drawn in favour of SBI Infra Management Solutions Pvt. Ltd. at Bhavnagar.

4.2 EMD in any other form other than as specified above will not be accepted. Tender not accompanied by the EMD in accordance with clause 4.1 above shall be rejected.

4.3 No interest will be paid on the EMD.

4.4 EMD of unsuccessful tenderer will be refunded within 30 days of award of Contract.

4.5 EMD of successful tenderer will be retained as a part of security deposit.

5.0 Initial Security Deposit:

The successful tenderer will have to submit a sum equivalent to 2% of accepted tender value less EMD by means of DD drawn in favour of SBI Payable at Junagadh within a period of 7 days of acceptance of tender.

5.1 Security Deposit:
Total security deposit shall be 5% of contract value. Out of this 2% of contract value is in the form of Initial Security Deposit (ISD). Balance 3% shall be deducted from the running account bill of the work at the rate of 10% of the respective running account bill i.e., deduction from each running bill account will be @ 10% till Total Security Deposit (TSD) including ISD reaches to 5% of contract value. The 50% of the Total Security Deposit shall be paid to the contract on the basis of architect’s certifying the virtual completion. The balance 50% would be paid to the contractors after the defects liability period as specified in the contract.

5.2 Additional Security Deposit:
In case L-1 bidder quotes abnormally low rates (i.e. 10% or more, below estimated project cost), the bank may ask such bidder to deposit additional security deposit (ASD) equivalent to difference of estimated cost vis-à-vis L-1 quoted amount for due fulfillment

Tender ID: AHM202001001

Signature & Seal of Tenderer
of contract. Such ASD could be in the joint name of the Bank and bidder in the form of FDR / Bank’s guarantee as per format approved by the Bank. On successful completion of work ASD will be returned to the contractor. In case contractor fails to complete the work in time or as per tender specification or leave the job incomplete, the bank will be at liberty to recover the dues from ASD or to forfeit such ASD as the case may be within its sole discretion.

No interest shall be paid to the amount retained by the Bank as Security Deposit for the defect liability period of one year from the date virtual completion certificate (VCC). However, interest on FDR for additional security deposit will be received by the bidder.

5.3 Signing of contract Documents:
The successful tenderer shall be bound to implement the contract by signing an agreement and conditions of contract attached herewith within 15 days from the receipt of intimation of acceptance of the tender by the Bank. However, the written acceptance of the tenders by the Bank will constitute a binding agreement between the Bank and successful tenderer whether such formal agreement is subsequently entered in to or not.

6.0 Completion Period:
Time is essence of the contract. The work should be completed in all respect accordance with the terms of contract within a period of 45 days from the date of award of work.

7.0 Validity of tender:
Tenders shall remain valid and open for acceptance for a period of 90 days from the date of e-reverse auction. If the tenderer withdraws his/her offer during the value period or makes modifications in his/her original offer which are not acceptable to Bank without prejudice to any other right or remedy the Bank shall be at liberty forfeit the EMD.

8.0 Liquidated Damages:
The liquidated damages shall be 0.50% per week subject to a maximum of 5% of contract value.

9.0 Rate and prices:

9.0.1 In case of item rate tender:
The tenderers shall quote their rates for individual items both in words and figure. In case of discrepancy between the rate quoted in words and figures, the unit rate quantity in words will prevail. If no rate is quoted for a particular item the contractor shall not be paid for that item when it is executed. The amount of each item shall be calculated and the requisite total is given. In case of discrepancy between the unit rate and the total amount calculated from multiplication of unit rate and the quantity the unit rate quoted will govern and the amount will be corrected.

The tenderers need not quote their rates for which no quantities have been given. In

Tender ID: AHM202001001

Signature & Seal of Tenderer
case the tenderers quote their rates for such items those rates will be ignored and will not be considered during execution.
The tenderers should not change the units as specified in the tender. If any unit is changed the tenders would be evaluated as per the original unit and the contractor would be paid accordingly.
The tenderer should not change or modify or delete the description of the item. If any discrepancy is observed he should immediately bring to the knowledge of the Architect/ SBIIMS
Each page of the BOQ shall be signed by the authorized person and cutting or over writing shall be duly attested by him.
Each page shall be totaled and the grand total shall be given.

The rate quoted shall be firm and shall include all costs, allowances, materials, labours, taxes etc. except G.S.T, which shall be payable / reimbursed at actual

The SBIIMS reserve their rights to accept any tenders, either in whole or in part or may entrust the work in phases or may drop the part scope of work at any stage of the project within its sole discretion without assigning any reason(s) for doing so and no claim / correspondence shall be entertained in this regard.

No person unless authorized by the SBIIMS/ Architect /Consultant except the representative of Public authorities shall be allowed on the work at any time. The proposed work either during its construction stage or its completion can also be inspected by the Chief Technical Examiner's Organization a wing of Central Vigilance commission.

14.0 Assignment and subletting:
The whole of work included in the contract shall be executed the contractor and he shall not directly entrust and engage or indirectly transfer, assign or underlet the contract or any part or share thereof of or interest therein without the written consent of the SBIIMS through the Architect and no undertaking shall relieve the contractor from the responsibility of the contractor from active & superintendence of the work during its progress.

15.0 Quality of materials, workmanship &Test:
All materials and workmanship shall be best of the respective kinds described in the contract and in accordance with Architect/consultant instructions and shall be subject from time to time to such tests as the architect/consultant may direct at the place of manufacture or fabrication or on the site or an approved testing laboratory. The contractor shall provide such assistance, instruments, machinery, labor, and materials as are normally required for examining measuring sampling and testing any material or part of work before in corparation in the work for testing as may be selected and required by the architect/consultant.
ii) **Samples:**
All samples of adequate numbers, size, shades & pattern as per specifications shall be supplied by the contractor without any extra charges. If certain items proposed to be used are of such nature that samples cannot be presented or prepared at the site detailed literature / test certificate of the same shall be provided to the satisfaction of the Architect/consultant before submitting the sample/literature the contractor shall satisfy himself that the material / equipment for which he is submitting the sample / literature meet with the requirement of tender specification. Only when the samples are approved in writing by the architect/consultant the contractor shall proceed with the procurement and installation of the particular material / equipment. The approved samples shall by the signed by the Architect / Consultant for identification and shall be kept on record at site office until the completion of the work for inspection / comparison at any time. The Architect/Consultant shall take reasonable time to approve the sample. Any delay that might occur in approving the samples for reasons of its not meeting the specifications or other discrepancies inadequacy in furnishing samples of best qualities from various manufacturers and such other aspects causing delay on the approval of the materials / equipment etc. shall be to the account of the contractor.

iii) **Cost of tests:**
The cost of making any test shall be borne by the contractor if such test is intended by or provided for in the specification or BOQ.

iv) **Costs of tests not provided for:**
If any test is ordered by the Architect/ Consultant which is either
a) If so intended by or provided for or (in the cases above mentioned) is not so particularized, or though so intended or provided for but ordered by the Architect / Consultant to be carried out by an independent person at any place other than the site or the place of manufacture or fabrication of the materials tested or any Government / approved laboratory, then the cost of such test shall be borne by the contractor.

16.0 **Obtaining information related to execution of work:**
No claim by the contractor for additional payment shall be entertained which is consequent upon failure on his part to obtain correct information as to any matter affecting the execution of the work nor any misunderstanding or the obtaining incorrect information or the failure to obtain correct information relieve him from any risks or from the entire responsibility for the fulfillment of contract.

17.0 **Contractor’s superintendence:**
The contractor shall give necessary personal superintendence during the execution the works and as long, thereafter, as the Architect/Consultant may consider necessary until the expiry of the defects liability period, stated hereto.

18.0 **Quantities:**
The bill of quantities (BOQ) unless or otherwise stated shall be deemed to have been
prepared in accordance with the Indian Standard Method of Measurements and quantities. The rate quoted shall remain valid for variation of quantity against individual item to any extent. The entire amount paid under Clause 19, 20 hereof as well as amounts of prime cost and provision sums, if any, shall be excluded.

19.0 Works to be measured:
The Architect/Consultant may from time to time intimate to the contractor that he requires the work to be measured and the contractor shall forthwith attend or send a quantity representative to assist the Architect in taking such measurements and calculation and to furnish all particulars or to give all assistance required by any of them. Such measurements shall be taken in accordance with the Mode of measurements detail in the specifications. The representative of the Architect / Consultant shall take measurements with the contractor’s representative and the measurements shall be entered in the measurement book. The contractor or his authorized representative shall sign all the pages of the measurement book in which the measurements have been recorded in token of his acceptance. All the corrections shall be duly attested by both representatives. No over writings shall be made in the M book should the contractor not attend or neglect or omit to depute his representative to take measurements the measurements recorded by the representative of the Architect/consultant shall be final. All authorized extra work, omissions and all variations made shall be included such measurement.

20.0 Variations:
No alteration, omission or variation ordered in writing by the Architect/consultant vitiates the contract. In case the SBIIMS/ Architect / Consultant thinks proper at any during the progress of works to make any alteration in, or additions to or omission from the works or any. Alteration in the kind or quality of the materials to be used therein, the Architect / Consultant shall give notice thereof in writing to the contractor shall confirm in writing within seven days of giving such oral instructions the contract shall alter to, add to, or omit from as the case may be in accordance with such but the contractor shall not do any work extra to or make any alterations or additions to or omissions from the works or any deviation from any of the provisions of the contract, stipulations, specifications or contract drawings without previous consent in writing of the Architect/ Consultant and the value of such extras, alterations, additions or omissions shall in all cases be determined by the Architect / Consultant and the same shall be added to or deducted from the contract value, as the case maybe.

21.0 Valuation of Variations:
No claim for an extra shall be allowed unless it shall have been executed under the authority of the Architect / Consultant with the concurrence of the SBIIMS as herein mentioned. Any such extra is herein referred to as authorized extra and shall be made in accordance with the following provisions.

(i) The net rates or prices in the contract shall determine the valuation of the extra work
where such extra work is of similar character and executed under similar conditions as the work price herein.

(ii) Rates for all items, wherever possible should be derived out of the rates given in the priced BOQ.

The net prices of the original tender shall determine the value of the items omitted, provided if omissions do not vary the conditions under which any remaining items of Works are carried out, otherwise the prices for the same shall be valued under sub-Clause 'c' hereunder.

Where the extra works are not of similar character and/or executed under similar conditions as aforesaid or where the omissions vary the conditions under which any remaining items or works are carried out, then the contractor shall within 7 days of the receipt of the letter of acceptance inform the Architect/consultant of the rate which he intends to charge for such items of work, duly supported by analysis of the rate or rates claimed and the Architect/consultant shall fix such rate or prices as in the circumstances in his opinion are reasonable and proper, based on the market rate.

Where extra work cannot be properly measured or valued the contractor shall be allowed day work prices at the net rates stated in the tender, of the BOQ or, if not, so stated then in accordance with the local day work rates and wages for the district; provided that in either case, vouchers specifying the daily time (and if required by the Architect/Consultant) the workman's name and materials employed be delivered for verifications to the Architect/consultant at or before the end of the week following that in which the work has been executed.

It is further clarified that for all such authorized extra items where rates cannot be derived from the tender, the Contractor shall submit rates duly supported by rate analysis worked on the ‘market rate basis for material, labour hire / running charges of equipment and wastages etc. plus 15% towards establishment charges, contractor’s overheads and profit. Such items shall, not be eligible for escalation.

22.0 Final measurement:
The measurement and valuation in respect of the contract shall be completed within two months of the virtual completion of the work.

23.0 Virtual Completion Certificate (VCC):
On successful completion of entire works covered by the contract to the full satisfaction of the SBIIMS, the contractor shall ensure that the following works have been completed the satisfaction of the SBIIMS:

Clear the site of all scaffolding, wiring, pipes, surplus materials, contractor’s labour equipment and machinery.

Demolish, dismantle and remove the contractor’s site office, temporary works, structure...
including labour sheds/camps and constructions and other items and things whatsoever brought upon or erected at the site or any land allotted to the contractor by the SBIIMS not incorporated in the permanent works.

Remove all rubbish, debris etc. from the site and the land allotted to the contractor by the SBIIMS and shall clear, level and dress, compact the site as required by the SBIIMS.

Shall put the SBIIMS in undisputed custody and possession of the site and all land allot by the SBIIMS.

Shall hand over the work in a peaceful manner to the SBIIMS.

All defects / imperfections have been attended and rectified as pointed out by the Architects to the full satisfaction of SBIIMS.

Upon the satisfactory fulfillment by the contractor as stated above, the contractor is entitled to apply to the Architect / consultant is satisfied of the completion of work. Relative to which the completion certificate has been sought, the Architect/ consultant shall within fourteen (14) days of the receipt of the application for completion certificate, issue a VCC in respect of the work for which the VCC has applied. This issuance of a VCC shall not be without prejudice to the SBIIMS’s rights and contractor liabilities under the contract including the contractor’s liability for defects liability nor shall the issuance of VCC in respect of the works or work at any site be construction as a waiver of any right or claim of the SBIIMS against the contractor in respect of or work at the site and in respect of which the VCC has been issued.

24.0 Work by other agencies:
The SBIIMS / Architect / consultant reserves the rights to use premises and any portion the site for execution of any work not included in the scope of this contract which it may desire to have carried out by other persons simultaneously and the contractor shall not only allow but also extend reasonable facilities for the execution of such work. The contractor however shall not be required to provide any plant or material for the execution of such work except by special arrangement with the SBI. Such work shall be carried out in such manner as not to impede the progress of the works included in the contract.

25.0 Insurance of works:
Without limiting his obligations and responsibilities under the contract the contractor shall insure in the joint names of the SBIIMS And the contractor against all loss of damages from whatever cause arising other than the excepted risks, for which he is responsible under the terms of contract and in such a manner that the SBIIMS and contractor are covered for the period stipulated I clause of GCC and are also covered during the period of maintenance for loss or damage arising from a cause, occurring prior to the commencement of the period of maintenance and for any loss or damage.

Tender ID: AHM202001001
Signature & Seal of Tenderer
occasioned by the contractor in the course of any operations carried out by him for the purpose of complying with his obligations under clause.

The Works for the time being executed to the estimated current Contract value thereof, or such additional sum as may be specified together with the materials for incorporation in the works at their replacement value.

The constructional plant and other things brought on to the site by the contractor to the replacement value of such constructional plant and other things.

Such insurance shall be effected with an insurer and in terms approved by the SBIIMS which approval shall not be unreasonably withheld and the contractor shall whenever required produce to the Architect / consultant the policy if insurance and the receipts for payment of the current premiums.

26.0 Damage to persons and property:
The contractor shall, except if and so far as the contract provides otherwise indemnify the SBI against all losses and claims in respect of injuries or damages to any person or material or physical damage to any property whatsoever which may arise out of or in consequence of the execution and maintenance of the works and against all claims proceedings, damages, costs, charges and expenses whatsoever in respect of or in relation thereto except any compensation of damages for or with respect to:

a) The permanent use or occupation of land by or any part thereof.
b) The right of SBIIMS to execute the works or any part thereof on, over, under, in or through any lands.
c) Injuries or damages to persons or properties which are unavoidable result of the execution or maintenance of the works in accordance with the contract.
d) Injuries or damage to persons or property resulting from any act or neglect of the SBIIMS their agents, employees or other contractors not being employed by the contractor or for or in respect of any claims, proceedings, damages, costs, charges and expenses in respect thereof or in relation thereto or where the injury or damage was contributed to by the contractor, his servants or agents such part of the compensation as may be just and equitable having regard to the extent of the responsibility of the SBIIMS, their employees, or agents or other employees, or agents or other contractors for the damage or injury.

27.0 Contractor to indemnify SBIIMS:
The contractor shall indemnify the SBIIMS against all claims, proceedings, damages, costs, charges and expenses in respect of the matters referred to in the provision sub-clause 26.0 of this clause.

28.0 Contractor's superintendence:
The contractor shall fully indemnify and keep indemnified the SBIIMS against any
action, claim, or proceeding relating to infringement or use of any patent or design or
any alleged patent or design rights and shall pay any royalties which may be payable in
respect to any article or part thereof included in the contract. In the event of any claim
made under or action brought against SBIIMS in respect of such matters as aforesaid
the contractor shall be immediately notified thereof and the contractor shall be at liberty,
at his own expenses to settle any dispute or to conduct any litigation that may arise
therefrom, provided that the contractor shall not be liable to indemnify the SBIIMS if the
infringement of the patent or design or any alleged patent or design right is the direct
result of an order passed by the Architect / consultant in this behalf.

**29.0 Third Party Insurance:**
Before commencing the execution of the work the contractor but without limiting his
obligations and responsibilities under clause 25.0 of GCC shall insure against his
liability for any material or physical damage, loss, or injury which may occur to any
property including that of SBIIMS, or to any person, including any employee of the
SBIIMS, by or arising out of the execution of the works or in the carrying out of the
contract, otherwise than due to the matters referred to in the provision to clause 25.0
thereof.

**30.0 Minimum amount of Third Party Insurance:**
Such insurance shall be affected with an insurer and in terms approved by the SBIIMS
which approval shall not be reasonably withheld and for at least the amount stated
below. The contractor shall, whenever required, produce to the. Architect / consultant
the policy or policies of insurance cover and receipts for payment of the current
premiums.

The minimum insurance cover for physical property, injury, and death is Rs.5 Lakh per
occurrence with the number of occurrences limited to four. After each occurrence
contractor will pay additional premium necessary to make insurance valid for four
occurrences always.

**31.0 Accident or Injury to workman:**
The SBIIMS Shall not be liable for or in respect to any damages or compensation
payable at law in respect or consequence of any accident or injury to any workmen or
other person in the employment of the contractor or any sub-contractor, save and
except an accident or injury resulting from any act or default of the SBIIMS or their
agents, or employees. The contractor shall indemnify and keep indemnified SBIIMS
against all such damages and compensation, save and except as aforesaid, and
against all claims, proceedings, costs, charges and expenses whatsoever in respect
thereof or in relation thereto.

**32.0 Insurance against accidents etc. to workmen:**
The contractor shall insure against such liability with an insurer approved by the SBIIMS
During the whole of the time that any persons are employed by him on the works and
shall, when required, produce to the architect / consultant such policy of insurance and
receipt for payment of the current premium. Provided always that, in respect of any

34
persons employed by any sub-contractor the contractor’s obligation to insured as aforesaid under this sub-clause shall be satisfied if the sub-contractor shall have insured against the liability in respect of such persons in such manner that SBIIMS is indemnified under the policy but the contractor shall require such sub-contractor to produce to the Architect /consultant when such policy of insurance and the receipt for the payment of the current premium.

33.0 Remedy on contractor’s failure to insure:
If the contractor fails to effect and keep in force the insurance referred to above or any other insurance which he may be required to effect under the terms of contract, then and in any such case the SBIIMS may effect and keep in force any such insurance and pay such premium or premiums as may be necessary for that purpose and from time to time deduct the amount so paid by the SBIIMS as aforesaid from any amount due or which may become due to the contractor, or recover the same as debt from the contractor.

Without prejudice to the others rights of the SBIIMS against contractors. In respect of such default, the employer shall be entitled to deduct from any sums payable to the contractor the amount of any damages costs, charges, and other expenses paid by the SBIIMS And which are payable by the contractors under this clause. The contractor shall upon settlement by the Insurer of any claim made against the insurer pursuant to a policy taken under this clause, proceed with due diligence to rebuild or repair the works destroyed or damaged. In this event all the monies received from the Insurer in respect of such damage shall be paid to the contractor and the Contractor shall not be entitled to any further payment in respect of the expenditure incurred for rebuilding or repairing of the materials or goods destroyed or damaged.

34.0 Commencement of Works:
The date of commencement of the work will be reckoned from the date of award of letter by the SBIIMS

35.0 Time for completion:
Time is essence of the contract and shall be strictly observed by the contractor. The entire work shall be completed within a period of 45 days from the date of commencement. If required in the contract or as directed by the Architect / consultant. The contractor shall complete certain portions of work before completion of the entire work. However, the completion date shall be reckoned as the date by which the whole work is completed as per the terms of the contract.

36.0 Extension of time:
If, in the opinion of the Architect/consultant, the work be delayed for reasons beyond the control of the contractor, the Architect/consultant may submit a recommendation to the SBIIMS to grant a fair and reasonable extension of time for completion of work as per the terms of contract. If the contractor needs an extension of time for the completion of work or if the completion of work is likely to be delayed for any reasons beyond the due
date of completion as stipulated in the contract, the contractor shall apply to the SBIIMS Through the Architect' Consultant in writing at least 30 Days before the expiry of the scheduled time and while applying for extension of time he shall furnish the reason in detail and his justification if an’, for the delays. The architect/consultant shall submit their recommendations to the SBIIMS in the prescribed format for granting extension of time. While granting extension of time the contractor shall be informed the period extended time which will qualify for levy of liquidated damages. For the balance period in excess of original stipulated period and duly sanctioned extension of time by the provision of liquidated damages as stated under clause 10.0 shall become applicable. Further the contract shall remain in force even for the period beyond the due date of completion irrespective whether the extension is granted or not.

37.0 Rate of progress:
Whole of the materials, plant and labour to be provided by the contractor and the mode, manner and speed of execution and maintenance of the works are to be of a kind and conducted in a manner to the satisfaction of the Architect/consultant should the rate of progress of the work or any part thereof be at any time be in the opinion the. Architect / consultant too Slow to ensure the completion of the whole of the work the prescribed time or extended time for completion the Architect/consultant shall the re upon take such steps as considered necessary by the Architect / consultant to expedite progress so as to complete the works by the prescribed time or extended time. Such communications from the Architect / consultant neither shall relieve. The contractor from fulfilling obligations under the contract nor he will be entitled to raise any claims arising out of such directions.

38.0 Work during nights and holidays:
Subject to any provision to the contrary contained in the contract no permanent work shall save as herein provided be carried on during the night or on holidays without the permission in writing of the Architect/consultant, save when the work is unavoidable or absolutely necessary for the saving of life or property or for the safety of the work in which case the contractor shall immediately advise the Architect / consultant. However the provisions of the clause shall not be applicable in the case of any work which becomes essential to carry by rotary or double shifts in order to achieve the progress and quality of the part of the works being technically required / continued with the prior approval of the Architect / consultant at no extra cost to the SBIIMS.

All work at night after obtaining approval from competent authorities shall be carried out without unreasonable noise and disturbance.

39.0 No compensation or restrictions of work:
If at any time after acceptance of the tender SBIIMS shall decide to abandon or reduce the scope of work for any reason whatsoever and hence not required the whole or any part of the work to be carried out. The Architect / consultant shall give notice in writing that effect to the contractor and the contractor shall act accordingly in the matter. 

Tender ID: AHM202001001

Signature & Seal of Tenderer
The contractor shall have no claim to any payment of compensation or otherwise what so ever on account of any profit or advantage which he might have derived from the execution of the Work fully but which he did not derive in consequence of the fore closure of the whole or part of the work.

Provided that the contractor shall be paid the charges on the cartage only of materials actually and bonafide brought to the site of the work by the contractor and rendered surplus as a result of the abandonment, curtailing of the work or any portion thereof and then taken back by the contractor, provided however that the Architect/Consultant shall have in such cases the option of taking over all or any such materials at their purchase price or a local current rate whichever is less.

In case of such stores having been issued from SBIIMS stores and returned by the contractor to stores, credit shall be given to him at the rates not exceeding those at which were originally issued to the contractor after taking into consideration and deduction for claims on account of any deterioration or damage while in the custody of the contractor and in this respect the decision of Architect / consultant shall be final.

40.0 Suspension of work:
The contractor shall, on receipt of the order in writing of the Architect / consultant (whose decision shall be final and binding on the contractor) suspend the progress of works or any part the offer such time and in such manner as Architect/consultant may consider necessary so as not to cause any damage or injury to the work already done or endanger the safety thereof for any of following reasons:

a) On account any default on the part of the contractor, or
b) For proper execution of the works or part thereof for reasons other than the default the contractor, or

c) For safety of the works or part thereof.
The contractor shall, during such suspension, properly protect and secure the works the extent necessary and carry out the instructions given in that behalf by the Architect / consultant.
i)If the suspension is ordered for reasons (b) and (c) in sub-para (i) above:
The contractor shall be entitled to an extension of time equal to the period of every such suspension. No compensation whatsoever shall be paid on this account.
**41.0 Action when the whole security deposit is forfeited:**

In any case in which under any clause or clauses of this contract, the Contractor shall have rendered himself liable to pay compensation amounting to the whole of his security deposit the Architect / consultant shall have the power to adopt any of the following course as they may deem best suited to the interest of the SBIIMS:

To rescind the contract (of which rescission notice in writing to the contractor by - Architect / consultant shall be conclusive evidence) and in which case the security deposit of the contractor shall be forfeited and be absolutely at the disposal of SBIIMS.

To employ labour paid by the SBIIMS and to supply materials to carry out the work, or part of the work, debiting the contractor with the cost of the labour and materials cost of such labour and materials as worked out by the Architect / consultant shall final and conclusive against the contractor) and crediting him with the value of the work done, in all respects in the same manner and at the same manner and at the same rates as if it had been carried out by the contractor under the terms of this contract certificate of architect /consultant as to the value of work done shall be final conclusive against the contractor.

To measure up the work of the contractor, and to take such part thereof as shall unexecuted, out of his hands, and to give it to another contractor to complete in which case any expenses which may be incurred in excess of the sum which would have been paid to the original contractor, if the whole work had been executed by him (The amount of which excess the certificates in writing of the Architects / consultant shall final and conclusive) shall be borne by original contractor and may be deducted any money due to him by SBIIMS under the contract or otherwise, or from his security deposit or the proceeds of sale thereof, or sufficient part thereof.

In the event of any of above courses being adopted by the SBIIMS the contractor shall have no claim to compensation for any loss sustained by him by reasons of his having purchased or procured any material or entered into any engagements or make any advances on account of, or with a view to the execution of the work or the performance of the contract and incase the contract shall be rescind under the provision aforesaid, the contractor shall not be entitled to recover or to be paid any sum or any work thereto for actually performed under this contract, unless, and until the Architect / consultant will have certified in writing the performance of such work and the value payable in respect thereof, and he shall only been titled to be paid the value so certified.

**42.0 Owner's right to terminate the contract:**

Tender ID: AHM202001001

Signature & Seal of Tenderer
of arbitrator.

It is also a term of this contract that no person other than a person appointed by such Chief General Manager as aforesaid should act as arbitrator. The conciliation and arbitration shall be conducted in accordance with the provisions of the Arbitration & Conciliation Act 1996 or any or any accordance modification or reenactment thereof and the rules made there under.

It is also a term of the contract that if any fees are payable to the Arbitrator these shall be paid equally by both the parties. However, no fees will be payable to the arbitrator if he is a SBIIMS Officer.

It is also a term of the contract that the Arbitrator shall be deemed to have entered on the reference on the date he issues notice to both the parties calling them to submit their statement of claims and counter statement of claims. The venue of the arbitration shall be such place as may be fixed by the arbitrator in his sole discretion. The fees, if any of the arbitrators shall, if required to be paid before the award is made and published, be paid half and half by each of the parties. The Cost of the reference and of the award (including the fees, if any of the arbitrator) shall be in the discretion of the arbitrator who may direct to any by whom and in what manner, such costs or any part thereof, shall be paid and fix or settle the amount of costs to be so paid.

45.0 Water supply:
The contractor shall make his own arrangements for water required for the work and nothing extra will be paid for the same. This will be subject to the following condition.

i) That the water used by the contractor shall be fit for construction purposes to the satisfaction of the Architect/consultant’s.

ii) The contractor shall make alternative arrangements for the supply of water if the arrangement made by the contractor for procurement of water in the opinion of the Architect/consultant is unsatisfactory.

iii) In case contractor is permitted to use SBIIMS’s source of water i.e. Municipal connection, Bore well (existing or new) etc., the SBIIMS Pvt. Ltd will recover as per clause 51.0 of this document form the final bill of contractor.

The contractor shall construct temporary well / tube well in SBIIMS Pvt. Ltd land for taking water for construction purposes only after obtaining permission in writing from the SBIIMS. The contractor has to make his own arrangements for drawing and distributing the water at his own cost. He has to make necessary arrangements. To avoid any accidents or damages caused due to construction and subsequent maintenance of the wells. He has to obtain necessary approvals from local authorities, if required, at his own cost. He shall restore the ground to its original condition after wells are dismantled.
on completion of work or hand over the well to the SBIIMS without any compensation as directed by the architect/consultant.

46.0 Power supply:
The contractor shall make his own arrangements for power and supply / distribution system for driving plant or machinery for the work and for lighting purpose at his own cost, the cost of running and maintenance of the plants are to be included in his tender prices. He shall pay all fees and charges required, by the power supply and include the same in his tendered rates and hold the owner free from all such costs. He has to obtain necessary approval from the appropriate authorities, if required.

In case contractor is permitted to use Bank’s source of power supply provided at one point, the SBIIMS will recover as per clause 51.0 of this document from the final bill of contractor.

47.0 Treasure trove etc.
Any treasure trove, coin or object antique which may be found on the site shall be the property of SBIIMS and shall be handed over to the bank immediately.

SPECIFICATIONS FOR ELECTRICAL WORKS

General:

The scope of work covers execution and completion of the electrical installation work of the proposed ELECTRICAL WORKS FOR BANK OF INDIA, NAVA BANDAR BRANCH in accordance with drawings & specifications.

Rules & Regulations:

The installation shall be generally carried out in confirmatory with the requirements of Indian Electricity Act 1910 (as amended up to date) and the latest Indian Electricity Rules and supplementary Regulations of the State Electricity Departments and Electricity Undertakings and where the installation is subject to inspection and approval of Fire Insurance and Explosives Authorities, such installation shall be planned and executed to conform to their special Rules.

1.0 Point Wiring:

1.1 Supply:

The following material shall be included in a point wiring and accessories.

a) Conduit - PVC rigid 2.0mm thick conduit and accessories.

b) Wires - PVC insulated copper conductor multi-stranded flexible type wires ISI mark of 1.0, 1.5, 2.5, 4.0, 6.0, 10, 16sq.mm

c) Switches - 5 Amp single pole, two way switch, 5 amp socket, 15 Amp switch and socket, fan Regulators with flush metal boxes wherever concealed and front plates and boxes of company make for surface mounting all of approved make.

d) Cover plates for outlet boxes - 3 mm thick Formica / Hylam sheet specially for electrical purposes.

e) Hardware - screws and washers non rusting type brass type.

Switch Boards and outlet Boxes - Factory made boxes of approved make for flush mounting for switches and accessories and 16 SWG m.s. sheet with GI boxes as outlet boxes with knock-outs for conduit entries and tapped holes for screws.

Holders - Pendant holders / angle holders / ceiling rose etc. of approved make white in color.

g) Industrial Sockets - Industrial type metal clad with metallic top.

1.2 Installation:

All conduit shall be concealed / surface mounted in / on walls, beam, column, slabs or concealed in false ceiling in all A/C areas etc. by necessary charis or clamping with saddles, spacers of hot deep GI. made. Charis shall be made in walls to conceal the
conduits and then refilling of the charis with cement mortar. All switch boards and outlet boxes (placed for bracket wall points) shall be concealed / surface in/on walls and should be kept in line and level with help of spirit level. Fan boxes shall be provided with nut welded on top with threaded hook and check nut. Wire drawing should be done with the help of draw wire. The conduits shall be cleaned of all foreign materials before inserting the wires Drawing of wires should be done such that the insulation of wires is not damaged.
All works shall be done as per instruction and satisfaction of the Consultant.
For surface conducing wiring, the conduit fitting switch/ceiling fan regulator boxes etc. shall be installed surface exposed. Flexible conduits shall not be used earth continuity conductors. Separate earth wire shall be provided either inside or outside the flexible conduits which shall be connected by means of earth clips to the earth system at one end and to the equipment at the other end as per IS 3043-1987.
Size of wire shall be chosen to limit Voltage drop within 5 %. Area of conductor shall be 1.0, 1.5, 2.5, 4.00 and 10.0 sq. mm copper. Generally not more than 8 to 10 points shall be wired in one circuit.

1.3 Testing:

After completion of wiring, installation of switches etc., testing shall be done for insulation resistance as specified in the tender.
Notes No Joints shall be allowed in any wires in the conduits, all wires shall only be joined and connected at termination points. All circuits shall have individual neutrals and one neutral shall not complete the whole wiring system.
Circuit's mains shall start from Distribution board to switch board or from Meter board to Distribution. The circuits mains includes supply and installation of two nos. of wires with earth wire for single phase mains and Four nos. of wires with earth wire for three phase mains.

2.1 Supply:

a) Conduit - PVC rigid 2.0mm thick conduit and accessories.
b) Wires - PVC insulated copper conductor multi-stranded flexible type wires ISI mark of 1.0, 1.5, 2.5, 4.0, 6.0, 10, 16 sq.mm

2.2 Installation:

a) For conceal wiring system all conduits shall be laid in the slab before casting of slab and shall be concealed in walls by making charts in walls and refilling the same before the final plaster of wall is done. All the switch boards and outlet boxes also shall be installed concealed in line and level.
b) For surface wiring system all conduits / PVC trunking shall be clamped with hot deep Gl. saddles / spacers on wall, ceiling, beam, column etc. in line align with the help of spirit level. All the switch boards and outlet boxes shall be surface mounted type and to
be installed in line and level.
c) Wires shall be drawn in conduit after cleaning of conduits and drawn with the help of draw wires. No damage to the insulation of wires should be done while drawing.

2.3 Testing:

After completion of wiring, installation of switches etc. testing shall be done for insulation resistance as specified in the tender.

3.0 Distribution Boards:

3.1 Supply:

Distribution boards shall be of sheet metal with rated bus bars, factory made. They shall be for three-phase or single phase distribution system as per the requirements or schedule of quantities.

3.2 Installation:

The distribution board shall be concealed in wall, flush mounted or surface mounted and should be in line and level. These shall be factory tested. Final MCBs on sub circuits shall be marked by permanent markers on the DB door

3.3 Test:

After installation of MCBs, it shall be tested.

4.0 M.C.B & ELMCB.

4.1 Supply:

MCB : These shall be SP, SPN, TPN or TPN as specified in drawings Rating of 2A, 6A, 16A, 25A, 30A, 63A. 10KA fault level, as per IS-8828--S978; BS 3871-part I.
ELMCB : These shall be of SPN. TPN and specified in drawings of rated value. ELMCB - BS-4293 neutral advance feature at closing neutral will be first to contact at the time of opening neutral breaks last after allowing the phases to open first Since the ELCB is to be used as main switch, it shall have safe interrupting clearance as per IEC 408/IS 4064. The ELCB shall have terminals to terminate aluminum conductor up to 25 mm2. The ELMCB shall have sensitivity of 30 - 300 ma as per requirements

4.2 Installation:

All ELMCB and MCBs shall be installed in the DB on din rail provided in the DB, spares shall be blocked by blank plates.

Tender ID: AHM202001001
Signature & Seal of Tenderer
4.3 Testing:

All ELMCB should be tested for overloading, short circuit, earth leakage tripping and MCBs should be tested for overloading and short circuit tripping

5.0 Material:

All materials, fittings and appliances used in the electrical installation shall be of the best quality of approved manufacturer and shall conform to the latest Indian Standard Specifications wherever these exist.

6.0 Workmanship:

Good workmanship and neat appearance are the prerequisites for compliance with the various sections of these specifications. The work shall be carried out under direct supervision of a person holding Certificate of Competency issued by the State Government and in accordance with the statutory rules and regulations in force. The relevant ISI code of practice shall be followed wherever applicable.

7.0 Drawing:

The set of all relevant electrical drawings, with specifications are furnished to the Contractor for his own use until the completion of the contract. However wherever required, detailed drawings shall be prepared and got approved.

On completion of the work, completion drawings shall be prepared and five copies of the same should be submitted to the Employer. The completion drawings shall indicate clearly the main switch board, the runs of various mains and sub-mains, position of points and their controls. All circuits shall be clearly indicated and numbered in the wiring diagrams and all points shall be given the same number as the circuit to which they are electrically connected.

8.0 Marking & Apparatus:

When a board is connected to voltage higher than 250 volts, all the terminals or leads of the apparatus mounted on it shall be marked in the following colours to indicate the different poles or phases to which the apparatus or its different terminals may have been connected.

- Three Phases -- Red, Blue & Yellow
- Neutral -- Black
- Off wire -- White or Grey
- Earth wire -- Green

Where four wire three phase wiring is done, the neutral shall be in black color and the other three wire in another color. Where has more than one switch, each such switch
shall be marked to indicate which section of the installation it controls. The main switch shall be marked as such and where there is more than one main switch is the building, each such switch shall be marked to indicate which section of the installation it controls. All marking required under this clause shall be clear and permanent.

9.0 Materials:

All materials used in the construction of fittings shall be of such quality, design and construction that will provide adequate protection in normal use against mechanical and electrical failures and exposures to the risk of injury or electric shock and shall withstand the effects of exposure to atmosphere.

10.0 Ceiling Rose:

Ceiling rose and similar attachments - A ceiling rose or any other similar attachments shall not be used on a circuit, the voltage of which normally exceeds 250 Volts. Normally only one flexible cord shall be attached a ceiling rose. Specially designed ceiling roses shall be used for multiple pendants.

11.0 Socket Outlets & Plugs:

A socket outlet shall not embody fuse terminals as an integral part of it. But the fuse may be embodied in plug in which case the plug shall be non-reversible and shall be so arranged and connected that the fuse is connected to an outer or phase conductor or the non-earthed conductor of the circuit. Every socket outlet shall be controlled by switch will be on the live side of the line. In an earthed system of supply, the outlet and plug shall be three pin type and the third terminal connected to earth. Every lighting fitting shall be controlled by a switch and where control at more than point is necessary by as many as two ways and intermediate switches as there are control points. Lights, fans and socket outlets shall be so located as to provide maximum comfort to the occupant and to enable him to utilize the electricity in the most economical manner.

Where conductors are required to be drawn through tube or channel leading to the fittings, the tube or channel must be free from sharp angles or protecting edges and of such size as will enable them to be wired with the conductors used for the final sub-circuit without removing the braiding or taping. As far as possible all tubes or channels should be of sufficient size to permit looping back.

c) Where a light fitting is supported by one or more flexible cords, the maximum weight to which the twin flexible cords can be subjected shall be as follows:

**SIZE OF TWIN FLEXIBLE CORDS**

<table>
<thead>
<tr>
<th>Nominal cross sectional</th>
<th>No. &amp; diameter area of in wires</th>
<th>Maximum permissible</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>

</tbody>
</table>

Where a weight is greater than 4.5kgs.(10 Lbs) then it has to be supported, two or three twin flexible cords shall be used so that the maximum weight to which any cord is subjected does not exceed the above values, or Alternatively other support viz. suitable metal pipe or suitable support shall be provided.

No inflammable shade shall form a part of a light fitting unless such shade is well protected against all risks of fire. Celluloid shade or light fitting shall not be used under any circumstances.

Enclosed type fittings shall be provided with a removable glass receptacle, arranged to enclose the lamp completely and of such size or construction as to prevent undue heating of the lamp or if the position of fitting be such that the glass receptacle is liable to mechanical damage the glass shall be protected by a suitable wire guard.

12.0 Fittings Wire:

The use of fitting wire shall be restricted to the internal wiring of the lighting fittings. Where fittings wire is used for wiring fittings, the sub-circuit leads shall terminate in a ceiling rose or connector from which they shall be carried into the fittings.

13.0 Lamp Holders:

Lamp holders for use on brackets and the like shall have not less than 1.3 cm (1/2") nipple and all those for use with flexible pendant shall be provided with cord grips. All lamp holders shall be provided with shade carriers. Where centre contact Edison screw lamp holders are used, the outer or screw contact shall be connected to the ' middle wire ' or the neutral or to the earthed conductor of the circuit.

14-0 Lamps:

All incandescent lamps, unless otherwise required, shall be hung at height of 2.5m (8 ft.), above the floor level they shall be provided with caps of the following patterns:
Up to and including 200 watt. - Standard Bayonet (B)
Above 200 watts and not exceeding 300 watts - Edison Screw (E.S.)
Above 300 watts - Golliath Screw (GS)

15.0 Fans, Regulators and Clamps:

Ceiling Fans: Ceiling fans including their suspension shall conform to IS: 374-1951 and to the following requirements:

All ceiling fans shall be wired to ceiling roses or to special connector boxes and suspended from hooks or shackles with insulators between hooks and suspension rods. There shall be no joint in the suspension rod but if joints are unavoidable then such joints (2") minimum length and both ends of the pipes shall touch together within couplers and shall in addition to, be secured by means of split pins; alternatively the two pipes may be welded. Canopies on top of suspension rod shall effectively hide the suspension. The leadings-in-wire shall be of nominal cross section area not less than 0.002 sq.inch (3.00.029") and shall be protected from abrasion.

ii) Exhaust fans shall be erected at the places indicated by the Architects. For fixing an exhaust fan, a circular hole shall be provided in the wall to suit the size of the frame, which shall be fixed by means of rag bolt embedded in the wall. The exhaust fan shall be aired as near to the hole as possible by means of a flexible cord, care being taken that the blades rotates in the proper direction.

TESTING OF INSTALLATION

16.0 Insulation Resistance:

The insulation resistance shall be measured by applying between earth and the whole system of conductors or any section thereof with all fuses in place and all switches closed and except in earthed concentric wiring all lamps in position or both poles of the installation otherwise electrically connected together, a direct current pressure of not less than twice the working pressure provided that it need not exceed 500 volts for medium voltage circuits. Where the supply is derived from the three wire (AC or DC) or a poly phase system, the neutral pole of which is connected to earth either direct or through added resistance, the working pressure shall be deemed to be that which is maintained between the outer or phase conductor and the neutral.
The insulation resistance measured as above shall not be less than 50, divided by the number of points on the circuits provided that the whole installation shall be required to have an insulation resistance greater than one mega ohm.

Control rheostats, heating and power appliances and electrical sings may, it required, be disconnected from the circuit during the test, but in that event the insulation resistance between the case of frame work and all live parts or each rheostat appliance and sign shall not be less than that specified in the relevant IS specifications shall not be less than half a mega ohm.

The insulation resistance shall also be measured between all conductors connected to one or phase conductor of the supply and all the conductors connected to the middle wire or the neutral or to the other pole or phase conductors of the supply and its value shall not be less than that specified in sub clause(b)

On completion of an electric installation (or an extension to an installation) a certificate shall be furnished by the contractor countersigned by the qualified supervisor the installation was carried out. The certificate shall be in the prescribed form as required by the local Electrical Supply Authorities. One such recommended form is given in Appendix-B.

Testing of earth continuity path: The earth continuity conductor including metal conduits and metallic envelopes of cables in all cases shall be tested for electric continuity and the electrical resistance of the same along with the earthing lead but excluding any added resistance or earth leakage circuit-breaker measured from the connection with the earth electrode to any point in the earth continuity conductor in the completed installation shall not exceed one ohm.

Testing of polarity of non-linked single pole switches:
In a two wire installation a test shall be made to verify that all non-linked single pole switches have been fitted in the same conductor throughout and such conductor shall be labeled or marked for connection to an outer of phase conductor or to the non-earthed conductor of the supply.

In a three wire or a four wire installation, a test shall be made to verify that every non-linked single pole switch is fitted in a conductor which is labeled or marked for connection to one of the outer or phase conductor of the supply.

17.0 CONDUIT CAPACITY:

Maximum number of PVC insulated cables confirming to IS: 694-1977 that can be drawn in one conduit shall be as follows:
Nominal cross sectional area of conductor

<table>
<thead>
<tr>
<th>SIZE OF CONDUIT</th>
<th>20 mm</th>
<th>25mm</th>
<th>32mm</th>
<th>38mm</th>
<th>51mm</th>
</tr>
</thead>
<tbody>
<tr>

<td>B</td>
<td>S</td>
<td>B</td>
<td>S</td>
</tr>
</tbody>
</table>

Tender ID: AHM202001001

Signature & Seal of Tenderer
NOTE:

1. The above table shows the max. Capacity of conduits for a simultaneous drawing of cables.
2. The columns headed 'S' applies to runs of conduit which have distance not exceeding 4.25m between draw in boxes and which do not deflect from the straight by an angle of more than 15. The columns headed 'B' apply to runs of conduit which deflect from the straight by an angle of more than 15.

18.0 CABLES

18.1 Cables shall be supplied by Electrical Contractor.

18.2 Cable Specifications:

All cables shall be as per latest IS 1554 Part I PVC insulated heavy duty electric cables Part I for working Voltages up to and including 1100 V.
All power cables shall be PVC insulated, armored, inner sheathed, PVC insulated aluminum conductor. Control cables shall be of copper conductor.
The core insulation and inner sheath shall confirm to the requirement of Type A IS 5831 STI IS respectively. Similarly for outer sheath. Cables shall have amour of steel wire upto 0 D of 18 mm and flat steel strip for higher OD.
Cables shall be supplied in drums of 1000 mts. for and upto 6 sq mm and 10 sqmm and above in 500 mts.

18.3 Cabling:

Cabling shall be done with help of jack and rollers. Cable shall be passed through RCC Hume Pipe wherever road crossing or pathway crossing is there. All cables shall rise form cable trenches in GI Pipes. Cable shall be tagged as per cable schedule at every 30 mts. by Aluminum tags of minimum 2mm thick securely fastened. They shall also be identified near the terminations.
Above the cable trenches cable route markers shall be installed as per rules and  
regulations at every 30 mts and at every turnings of the cables or branching of cables  
All cables shall be laid in trenches at a depth of 750mm and as shown in drawings.  
Before laying of cables sand shall be spread then the cable shall be laid which shall  
again be covered with sand minimum 150mm from the top of the largest dia of the  
cable. Then second class bricks shall be laid across the trench completely covering  
the trench, lastly excavated soil shall be back filled and compacted by watering  
intermittently  
All cables after laid shall be checked for insulation level and measured before back  
filling. Cable entries in GI pipes or Hume pipes shall be sealed by cable compound or  
putty for smaller dia of pipes.  
If required for the- cable- to run on cable trays then the cable shall be clamped by 16  
SWG GI saddles and damps All works should be done to the satisfaction of the Engg -  
in Charge.

18.4 Terminiations

Cable shall be terminated by means of single compression glands and terminated by  
solder less crimped type lugs. All should be done to the satisfaction of the Engg.-in-  
Charge. If the cores do not have any color identification, then they should be identified  
by insulation tape of various phases. Cable shall enter any termination point by means  
of double compression glands, using reducers if required or drill of holes in gland plates.  
IF panel installed on a cable trench which does not have any bottom excess then holes  
shall be drilled in one line for the cables then the gland plates is cut into two halves from  
the centre of the hole. Cables inserted and sealed and the armour in the bottom should  
open and earthed to the earth bus. Crimping of lugs shall be done by hand crimping tool  
or hydraulic crimping tool with conducting jelly applied to conductors. Insulation shall be  
cut immediately after the lugs and care should be taken that the conductor is not left  
open. All jointing and crimping shall be carried out by licensed and experienced jointers  
approved E.I.C. and termination and straight joint shall be of ‘Taped’ or heat shrinkable  
type as specified.

18.5 Testing:

Before energizing, the mugger test shall be carried out for insulation resistance between  
phase to phase and phase to earth.  
For cable up to 1.1 KV grade 1000 KV mugger shall be used.  
D.C. High Voltage test shall be conducted after installation on the following and test  
results are recorded as per format furnished by the Engineer-in-charge.  
a) All 1000 Volts grade cables in which straight through joints have been made.  
b) All cables above 1100 V grade.  
For record purposes test data shall include the measure values of leakage current  
verses time.  
The DC High voltage test shall be performed as detailed below in the presence of the  

Tender ID: AHM202001001  Signature & Seal of Tenderer
EIC or his authorized representative only.
Cables shall be installed in final position with all straight through joints complete.
Termination shall be kept on unfinished so that the motors, switchgears, t transformers, etc. are not subjected to test Voltages
The Test Voltage shall be as under:
   i) for cable 3.3 KV Grade  5.4  KV DC
   ii) for cable 66 KV Grade  10.8 KV DC
   iii) for cable 11 KV Grade  18  KV DC
Cable schedule and layout drawings must be marked for AS BUILT conditions during the installations work and shall be approved by the Site Engg.

IDENTIFICATION OF EARTHED AND EARTHED NEUTRAL CONDUCTORS AND POSITION OF SWITCHES AND CUTOUTS THEREIN:

Where the conductors include an earthed conductor of two-wire system or an earthed neutral conductor of a multi-wire system or a conductor which is to be connected thereto, the following conditions shall be compiled with
1. An indication of a permanent nature shall be provided by the owner of the earthed or earthed neutral conductor, or the conductor which is to be connected thereto, to enable such conductor to be distinguished from any live conductor. Such indication shall be provided.
   a) Where the earthed or earthed neutral conductor is the property of the bidder, at or near the point of commencement of the supply.
   b) Where a conductor forming part of a consumer's system is to be connected to the bidder's earthed or earthed neutral conductor, at the point where such connection is to be made.
   c) In all other cases, at a point corresponding to the point of commencement of supply or at such other point as may be approved by an inspector.
2. No cut-out, link or switch other than a linked-switch arranged to operate simultaneously on the earthed or earthed neutral conductor and live conductor shall be inserted or remain inserted in any earthed or earthed neutral conductor of a two-wire system or in any earthed or earthed neutral conductor of a multi-wire system or in any conductor connected thereto with the following exceptions
   a) A link for testing purposes - OR -
   b) A switch for use in controlling a generator or transformer.

ELECTRICAL CODE OF PRACTICE
The following ISI code of practice for providing and installation of the electrical items shall be deemed any deviation from the code should be approved from the Electrical Inspector.

a) ISI 694-1977 : PVC insulated cables for working voltages up to and including 1100 Volts.
b) ISI 1554-1976: PCV insulated (heavy duty) (part-I) electric cables for working voltages up to and including 1100 V.
c) ISI 1554-1981: PVC insulated (Heavy duty) electric (PART-I) cables for working voltages from 3.3 KV up to and including 11 Kv.

   d) ISI 2551-1963: Danger notice plates.

   e) ISI 3043-1966: Earthing
   g) ISI 5216-1969: Guide for safety procedures and practices in electrical works.
   h) ISI 3072-1975: Installation and maintenance of switch gears.

   k) ISI 2309-1969: Protection of building and allied structures against lighting.

   i) ISI 3106-1966: Selection, installation and maintenance of fuses (Voltages no exceeding 650 volts).
   m) ISI 8923-1978: Warning symbol for dangerous voltages. n) ISI 2208-1962: HRC cartridge fuse links upto 650 V. o) ISI 8724-1978: Rewireable fuses upto 650 V.
   Part III: Installation.
   Part IV: Maintenance.
   q) Transformers, selection, installation and maintenance of code of practice.
   Part II
   Installation : 10028 (Part II) 1981.
   Part III
   Maintenance: 10028 (Part II) 1981.
GENERAL SPECIFICATION FOR PANELS (LIGHTING & POWER)

- Panel shall be fabricated from CRCA sheet, main frame with 14 SWG sheet and compartments with 16 SWG sheet.
- Bus Bars shall be of Aluminum /copper (as per SLD dwgs) PVC sleeved with the rating of as stated in drawing.
- The panel shall have gone through seven tank processes and shall be painted with shade no 631 or approved, oven baked.
- Panel shall be Dust and Vermin Proof.
- Cable entries shall be from the bottom / top (as per the dwg) and all gland plates are to be detachable.
- All outgoing feeders shall have elmex make terminals to be provided in cable alley compartment.
- A continuous earth bulbar to be provided at the bottom of panel.
- All internal wiring / inter-connections shall be made by using copper conductor.
- PVC insulated ISI wires (flexible type specially used in Panel) according rating of feeders.
- All compartment doors wires shall be provided with neoprene rubber gasket and shall have door interlocking arrangement such that the compartments do not open when the switch is in ON position.
- Bus Bar alleys can be opened only with castle panel key while the Cable Alleys may have screw type knob arrangement.
- A suitable Base frame of with ISMC channel shall be provided.
- Panel should be rated for 415 V,3 phase 4 wire, 50 c/s, A.C. supply system having a fault level of 40 KA (sys) for 1 second. Ambient temperature 45 degree and temperature rise of bus bar is to be limited so that end temperature does not exceed 85 degree C. Bus bars will be mounted on epoxy insulators of adequate strength. Aluminum earth bus bar of appropriate cross section should be provided continuously at the bottom of the panel. The incoming and outgoing feeders shall be as per Single Line Diagram.
IMPORTANT POINTS TO BE NOTED

1. Rates for LIGHT, FAN, EX. FAN, CALL BELL, RAW POWER ETC. POINTS includes the cost of main wires and PVC pipes from LDB-ROW POWER DB to DIFFERENT SWITCHBOARDS WITH REQUIRE CIRCUITS.
2. Rates for COMPUTER POWER POINTS include the cost of wires and PVC pipes from UPS DB to COMPUTER POWER POINTS.
3. Rates for COMPUTER I/O include the cost of DATA cables and PVC pipes from SERVER SWITCH to COMPUTER NODES.
4. Rates for TELE POINTS include the cost of TELEPHONE Wires and PVC pipes from EPABX/CRONE BOX to TELE. POINTS.
5. Rates for A.C. / POWER POINTS include the cost of wires and PVC pipes from A.C. DB to DIFFERENT A.C. AND POWER POINTS WITH REQUIRE CIRCUITS.
6. THE CONTRACTOR SHOULD SUBMIT THE BUILTUP SLD OF PANEL, SLD OF DIFFERENT DBS TO DIFFERENT SWITCHBOARDS WITH NUMBERING, SLD OF DATARACK TO DIFFERENT I/O POINTS WITH NUMBERING, TELE. KRONE BOX TO DIFFERENT TELE. POINTS WITH NUMBERING, ETC. AFTER EXECUTION OF THE BRANCH. – 2 SETS OF COPIES – 1 WITH LAMINATION.
7. THE CONTRACTOR SHOULD USE MAX. 3 CIRCUITS IN ONE CONDUIT FOR UPS & RAW POWER POINTS.
8. THE CONTRACTOR SHOULD USE MAX. 3 WIRES OF DATA & TELE. IN ONE CONDUIT.
9. EVERY CONDUIT FOR UPS, RAW POWER, DATA & TELE., POWER POINTS, AC POINTS, LIGHTING POINTS SB SHOULD BE SEPARATE.
10. FOR DATA & TELE. POINTS, BIG JUNCTION BOX MUST BE REQUIRED.
11. FOR UPS & RAW POWER POINTS, BIG/ SMALL JUNCTION BOX MUST BE REQUIRED.
12. EMPTY CONDUIT MUST BE LAID FOR SECURITY SYSTEM.
13. PVC CONDUITS MUST BE CLAMPED WITH SADDLES IN CEILING ONLY.
14. ELE. CONTRACTOR MUST SUBMIT CERTIFIED LOAD LIST WITH ELE. LICENSE NO. / SUPERVISOR CERTIFICATE NO.
15. CONTRACTOR SHOULD SUBMIT TEST REPORT.
16. CONTRACTOR SHOULD PRESENT EARTHING PLATES BEFORE EXECUTION.
ADDITIONAL SPECIFICATION & CONDITIONS

1. Wherever the specifications are not specified in details the work shall be carried out as per CPWD specifications or Manufacturer’s instructions or architects instructions depending upon the site conditions as directed by the Bank/ Architects

2. The tenderer must visit the site and acquaint themselves with the site conditions. It must be noted that the work is to be carried out in the functional branch without hindering the normal functioning of the Branch. The work shall generally be carried out on holidays or after Banking hours only.

3. The contractor has to work in coordination with the other contractors and daily/weekly schedule of working shall be prepared in consultation with the Architects/Banks. Regular updating / modification of such schedule shall be required.

4. For normal functioning of the Bank/Branch the contractor shall be required to shift the furniture etc and/or relocate the existing and/or new loose and/or fix furniture and/or any other item of works and/or any such materials at new location at times. The contractor shall carry out all such activities with utmost priority and without any additional/extra cost to the bank. The tenderer shall quote the rates inclusive of all such activities/works as may be required as per site conditions. The rates quoted by the tenderer shall be inclusive of all such temporary/semi-permanent works/activities.

5. The contractor shall be required to obtain satisfactory execution and/or application certificate from the manufacturer and/or authorized dealer/s in respect of specialized items of work such as water proofing etc as decided by the Bank/Architects. The contractor shall arrange for the visit and inspection of the work in respect of the representatives of such firms/manufacturers within the rates quoted/accepted by the bank.

6. The contractor shall produce the bills / challans / documentary evidences and proof in respect of genuineness of materials used by him when so ever asked/demanded by the Architects/Bank

7. Please note that in case of a percentage rate tender and individual item rates are not to be filled and/or tempered with and/or altered and/or changed. Only the percentage & amount above (+) or below (-) the estimated rates & amount are to be filled and the Net Tender Amount is to be worked out.

8. No running bill payments shall be made. The contractor has to submit the Final Bill on satisfactory Completion of the Work. However the contractor shall ensure that the measurements are recorded by them and got checked from the Architects from time to time particularly for hidden/concealed item of works.

9. The Bank will be absolutely authorized and entitled to recover the amount on account of loss to third party and / or Bank and / or workmen and / or any statutory recovery etc. from the contractors bill and / or any amount due to be paid to the contractor, in case contractor fails to settle such claims and or fails to pay against such claims/recoveries promptly to the satisfaction of the bank/architects.

10.

TECHNICAL SPECIFICATIONS

1. This is an item rate tender.

2. Wherever the specifications are not specified in details the work shall be carried out as per CPWD specifications or Manufacturer’s instructions or architects instructions depending upon the site conditions as directed by the Bank/ Architects.

3. The tenderer must visit the site and acquaint themselves with the site conditions. It must be noted that the work is to be carried out in the functional branch without hindering the normal functioning of the Branch. The work shall generally be carried out on holidays or after Banking hours only.

4. The contractor has to work in coordination with the other contractors and daily/weekly schedule of working shall be prepared in consultation with the Architects/Banks. Regular updating / modification of such schedule shall be required.

5. For normal functioning of the Bank/Branch the contractor shall be required to shift the furniture etc and/or relocate the existing and/or new loose and/or fix furniture and/or any other item of works and/or any such materials at new location at times. The contractor shall carry out all such activities with utmost priority and without any additional/extra cost to the bank. The tenderer shall quote the rates inclusive of all such activities/works as may be required as per site conditions. The rates quoted by the tenderer shall be inclusive of all such temporary/semi-permanent works.activities.

6. The contractor shall be required to obtain satisfactory execution and/or application certificate from the manufacturer and/or authorized dealer/s in respect of specialized items of work such as water proofing etc as decided by the Bank/Architects. The contractor shall arrange for the visit and inspection of the work in respect of the representatives of such firms/manufacturers within the rates quoted/accepted by the bank.

7. The contractor shall produce the bills / challans / documentary evidences and proof in respect of genuineness of materials used by him when so ever asked/demanded by the Architects/Bank.

8. Please note that in case of a percentage rate tender and individual item rates are not to be filled and/or tempered with and/or altered and/or changed. Only the percentage & amount above (+) or below (-) the estimated rates & amount are to be filled and the Net Tender Amount is to be worked out.

9. No running bill payments shall be made. The contractor has to submit the Final Bill on satisfactory Completion of the Work. However the contractor shall ensure that the
measurements are recorded by them and got checked from the Architects from time to time particularly for hidden/concealed item of works.

10. The Bank will be absolutely authorized and entitled to recover the amount on account of loss to third party and / or Bank and / or workmen and / or any statutory recovery etc. from the contractors bill and / or any amount due to be paid to the contractor, in case contractor fails to settle such claims and or fails to pay against such claims/recoveries promptly to the satisfaction of the bank/architects.

11. The necessary permission / permit / work pass required to be obtained from the local authority shall be taken by the contractor at his own cost. However the Bank will assist the contractor in obtaining these permissions etc.

12. Sizes of various furniture items mentioned in BOQ / schedule of quantities may vary slightly as per site conditions and / or as per instructions of architects that is maximum by up to + or − 2”. No deduction or additional payment shall be made to the contractor if the variation is within the said limits.

Unless otherwise mentioned in item description / bill of quantities/drawings and / or instructed by architects/Engineer following specifications shall be adopted All works to be carried as per detail drawing and instructions of Architect/Engineer in-charge.
SAFETY CODE

1. All working person of the contractor within the site must to wear with safety helmets, mask, goggles, safety shoes, safety bell, and first aid kit and head gloves etc.

2. Adequate precautions shall be taken to prevent danger form electrical equipment. No materials on any of the sites of work shall be so stacked or placed as to cause danger inconvenience to any person or public.

PERSONAL SAFETY WQUIMENT

3. When the work is done near any public place where is risk of drawings all necessary equipment's should be provided and kept ready for se and all necessary steps taken for prompt rescue of any person in danger and adequate provision should be made for prompt first aid treatment of all injuries likely to be sustained during the course of the work.

4. All scaffolds, ladders, and other safety devices mentioned or described herein shall be maintained in safe condition no scaffold ladder or equipment shall be altered or removed while it is use.

5. These safety provisions should be brought to the notice of all concerned by display on a notice board at a prominent place at work spol. The person responsible for compliance of the safety code shall be named therein by the contractor.

6. To ensure effective enforcement of the rule and regulations relating to safety precautions the arrangements made by the contractor shall be open to inspection by the labour officers. Engineer of the department or their representatives.

7. Notwithstanding the above clause from (1) to (7). There is nothing in these to example the contractors from the operations of any other act or rule in force in the republic of India.
## BOQ: Interior Decoration & Furniture work: ELECTRICAL WORK
of NAVA BANDAR BRANCH, RBO VERAVAL, BAO for State Bank of India. (Not To Be Filled)

**B LIGHTING FIXTURES :**

(NOTE : ANY OF FIXTURES AND FITINGS SHALL BE RE-CONFIRMED WITH THE ARCHITECTS / CONSULTANTS BEFORE ORDERING THEM.)
Supply, installation, testing and commissioning (including supply and fixing flexible wires from holder to fixtures hardwares etc.) of…. - **The LED lamps should be of same make as fixture make. - The marking & cutting of fixtures should be in ele. contractor's scope.. fixtures should be approved by bank's ele. engineer / ele. consultant / architect. from the given make list before installations. LM 79 & LM 80 test reports to be submitted. nichia / LUmileds / cree - LED should be used by manufacture. Lighting Luminaire of LED for Office single piece die cost aluminium M24 housing complete with driver unit, mirror optic and other accessories Lamps of about 100 lumen/W injection moulded PC diffusers with high brightness complete unit complying with international standard (LU49, LH801) - operotive on 190V - 270 V 50 Hz  with Mini 3 years warranty complete with mounting system and lamp duly wired and tested Details as under.

### 4.1 Installation of 1 X 36 W LED Light chains or hook arrangement with ceiling, connected to supply wire with PVC connector. Earthing connection with lugging need to given to body of Fixture, etc. complete.( Fixture will be supply at Bank's End)  
12 nos

### 4.2 Installation of 1x15 W Square / Round LED DOWN LIGHT to be recessed in false ceiling with all necessary hardwares, chains, hook etc. complete. Earthing connection with lugging need to given to body of Fixture..( Fixture will be supply at Bank's End)  
24 nos

### 4.3 LED tube light 1 x10 W ( 560 lumens ) Surface mounting type with LED tube, complete. (Wipro make Cat. No. MEGMA-P 7007 or Equivalent PHILIPS / GE make ) . For Toilet area.  
2 nos

### 4.4 Supply and installation of Call bell with Indicatore. (Max or equivalent make)  
1 nos

### 4.5 Supply and installation of Exhaust fan of 300 mm, fresh air ventilator type complete & 6 Amp. 3 pin TOP. (Crompton/ Khaitan / Havells make)  
[Wooden mounting frame should be fixed in coordination with carpenter - furniture contractor.] - One Ex. Fan is of heavy duty industrial for Ups room.  
3 nos

### 4.6 Supply and installation of 48" Ceiling Fan with fan step socket modular regulator, Max. 3 feet Fan Rode, Anchor Fastner, etc. (WHITE COLOUR - BEE 5 star labeled ceiling fan Alluminium body and copper winding.) ( Orient PSPO or equivalent approved make in Crompton / Havells ).  
6 nos

### 4.7 Installation of 1 x 18W led batten light fixture (T-5) with electronic driver and tube complete with necessary hardwares, etc a.( Fixture will be supply at Bank's End)  
13 nos

### 4.8 Supply and installation of metal body and blade type400 mm sweep wall mounted fan with metal stand, guard and blade with on site 2 years warranty ( Crompton model - High Flow or Equivalent Make as mention in the Recomnended make (AS APPROVED BY THE ARCHITECT/BANK) .. (Off white colour) .  
7 nos.
| 4.9 | SITC of Decorative 3 W (180 lumens) LED DOWN LIGHT PANEL with its driver also. (wipro make or philips / orient or equivalent co. make). (Approved by Architrect) basic rate of fixture Rs. 1000/-  *(This is for down lighter in ACP work near entrance)*. | 3 nos |
| 4.10 | SITC of Decorative 3 W (180 lumens) LED DOWN EYE BALL LIGHT with its driver also. (wipro make or philips / orient or equivalent co. make). (Approved by Architrect) basic rate of fixture Rs. 1000/- *(Need to be fixed At Entry Gate ACP Panel Work)* | nil nos |
| 4.11 | SITC of LED STRIP LIGHT flexible complete with driver unit, 230 v, 50 Hz, as required. (CROMPTON make LST20WW or equivalent GE/Philips / Wipro / Havells make). | nil mtr |

**C**  
**COMPUTER POWER SUPPLY & NETWORKING - TELE. SYSTEM.**: Phase wire must be Yellow colour for UPS O/P DB, Red colour for PDB, Neutral Wire of Black colour & Green Wire for Earthing. Colour code must be maintained. Tagging from DB MCB and Switch board must be done.

<p>| 5 | SITC of 2 nos. of 6 A, 5 pin Sockets and 1 no. of 6 \ 16 A socket below table outlets with one 16 A switch with indicator Computer power supply with concealed company made metallic boxes or PVC flush box on walls / furniture's / trunking etc complete all respect with necessary wiring of mains of 2 no of 2.5 sq mm and 1 no of 1.5 sq/mm pvc insulated copper conductor multi-stranded flexible wire with 20/25 dia. PVC conduits with accessories duly buried under floor with necessary chasing / breaking in floor and to be refinished with all necessary civil material etc. complete from UPSDB to Computer power supply boards. (Maxi. 3 computers in one circuit), complete with necessary termination etc. complete. [White Colour Outer Plate For These Switchboards]. LOOP POINTS MUST BE OF SAME SIZED WIRES. Phase wire must be Red colour, Nutral Wire must be Black color &amp; Green Wire for Earthing. Colour code must be maintained. Tagging from UPS O/P DB MCB and Switch board must be done. | 14 nos |
| 6 | S &amp; I of 2 nos. of 6 A, 5 pin Sockets and 1 no. of with one 6 A switches raw power supply with concealed company made metallic boxes or PVC flush box on walls / furniture's / trunking etc complete all respect with necessary wiring of mains of 2 no of 2.5 sq mm and 1 no of 1.5 sq/mm pvc insulated copper conductor multi-stranded flexible wire with 20/25 dia. PVC conduits with accessories duly buried under floor with necessary chasing / breaking in floor and to be refinished with all necessary civil material etc. complete from PDB to Computer power supply boards. (Maxi. 3 Raw Power Points in one circuit), complete with necessary termination etc. complete. [Black Colour Outer Plate For These Switchboards]. LOOP POINTS MUST BE OF SAME SIZED WIRES. Phase wire must be Red colour, Nutral Wire must be Black color &amp; Green Wire for Earthing. Colour code must be maintained. Tagging from UPS O/P DB MCB and Switch board must be done. | 8 nos |</p>

### 18.5 UPS METAL DP ENCLOSURE.
(For ATM, Inverter, UPS output). - All MCBs must be C Type Characteristic.
- **Incoming:** 25 A DP 100 mA ELCB - 2 nos.
- **Outgoing:** 6 to 10 A SP MCB (6 nos).
- **Outgoing:** 10 A / 20 A. DP MCB - 1 NO FOR SERVER OUTPUT.

### 18.6 UPS 12 WAY SPN DB
(For all computers). - All MCBs must be C Type Characteristic.
- **Incoming:** 40 A FP MCB - 1 NO
- **Outgoing:** 25 A DP MCB - 1 NO FOR 1-phase INVERTER.
- **Outgoing:** 25 A DP MCB - 1 NO FOR 1-phase UPS.
- **Outgoing:** 25 A DP MCB - 1 NO FOR 1-phase UPS.

### 19 SITC of 25 A / 32 A / 40 A / 63 A FP ELCB, 100 mA (C - Curve) with powder coated compny made metallic double door IP 65 weatherproof sheet steel enclosure complete at outdoor unit connection of three phase 3.0 / 5.5 / 8.5 TR VRF / DUCTABLE / CASSETTE AC units. This will be executed near trap door of indoor unit at reachable height. (as per IP 65 protection). THE ENCLOSURE SHOULD BE SAME MAKE AS MCB MAKE.

### 20 Supply, installation, testing and commissioning of Main panels as per drawing and specifications. Panel should be dust and vermin proof. Panel shall be fabricated from 14/16 SWG CRCA sheet metal duly powder coated of approved paints. Panel should be as per the specifications of ERDA/CPRI. fabrication, Switch gear installation. Internal wiring and Test Certificate from Manufacturer to be submitted. - All MCBs must be C Type Characteristic. Panel Drawing Need to be approved by Electrical Consultantat / Bank's Engineer before starting work.

### MAIN PANEL:
- **Incoming feeder:** 100 A C&S Make CSE1N125ETM4P-100A or L&T MAKE; CM92153O000AG-100A or LEGRAND MAKE; DPX3-160A:4201 15-100A (1 No.).
- The MCCB should have inbuilt Earth Fault & Neutral Overload Protection with Power Supply & Display Module for Metering & Fault Recording.
  * **80 A, FP Change over switch (1 No.).**
  * **160 AMP. 500 Volts, 3 phase 50 Hz FP Alu.** bus bars of suitable length -Current ratio shall be 1 sq mm = 1.2 A.
  * **Digital AVF Meter with control fuses. C.T. shall be of 15VA class 1 type and shall be resin cast type.**
  * **Phase indicator lamps phase wise.**
  * **Outgoing feeder:**
<p>| <strong>21</strong> | Providing and installing of <strong>100A FP SFU (36KA)</strong>, Unit M. S. compartment enclosure IP65 with hinged door &amp; locking arrangement duly fabricated from 18 SWG sheet metal box duly painted with one coat of red-oxide paint and two coats of approved enamell paints with <strong>100A OPEN TYPE MCCB UNIT with Phase indicator lamps phase wise</strong>, control fuses &amp; wooden back complete. THIS WILL BE INSTALLED NEAR MAIN DOOR - INSIDE OR OUTSIDE - OF THE BANK. (first ask to BM / Consultant / Architect / Bank Authority). | 1 nos |
| <strong>22</strong> | SITC of 40 / 63 A FP MCB (C - Curve) with powder coated compny made metallic double door sheet stell enclosure complete For CAPACITOR BANK unit with 30 KVA CAPACITOR BANK near energy meter with load wires for connecting capacitor bank. | NIL nos |
| <strong>E EARTHING SYSTEM:</strong> | | |
| <strong>23</strong> | Providing and making Earthing Pit with all necessary mattterial and making masonry kundi, watering arrangement etc complete as per ISI 3043-1987 (FOLLOWING ITEMS MAY OPERATE). Resistivity as per IEC / IS. (3 years Manufacturer Warranty. Earthing Certificate Need to Attached). (At the Time of buried of earthing Photograph must be taken Without Photographic Proof Earthing Will be Rejected. Earthing Rod Photo Must be attached with Bill.). Earthing need to measure at Site and it should be less than 5 Ohm. If found less than 5 ohm than will be rejected. Earthing Pit Must be Provided for both Cu as well as GI earthpit. | |
| <strong>23.1</strong> | ECO SAFE environment friendly electrical grounding system with T-193- Hot Dip Galvanised, having 50mm dia. of outer pipe and 25 mm dia. of inner pipe and length of 3mtrs with 50kg Back Fill Compound as per UL 476, of Powerfill Eco friendly electrical grounding backfill compound and clamp (DB - PANEL) - G. | 25.11 | 3 C X 4.0 sq. mm. flexible PVC Insulated copper conductor cable laying in with 20 mm/25 mm dia PVC rigid conduits 1.5 mm thick ISI mark from AC indoor unit to AC outdoor unit. (For 2.0 TR CASSETTE - SPLIT AC units.). | 60 | mtr |

**G MISCELLANEOUS ITEMS:**

| 27 | Supply and installation of 300 x 300 x 40 mm size GI box duly fabricated from 18 SWG m.s. sheet with top cover of s. s. sheet complete with necessary knock outs at all the sides of box for conduit entries duly fixed in floor, including breaking in floor and re-finished the same etc. complete (Wire Draw Box). | 8 | nos |
| 28 | Supply and installation of 150 x 150 x 40 mm size GI box duly fabricated from 18 SWG m.s. sheet with top cover of s. s. sheet complete with necessary knock outs at all the sides of box for conduit entries duly fixed in floor, including breaking in floor and re-finished the same etc. complete (Wire Draw Box). | 2 | nos |
| 29 | Supply an installation of 24 Hr, 7 days A/C timer with 2 nos. power conector of M.D.S, L & T,SEIMENS,THEBEN (indoasian) Make. All enclosed in sheet steel **powder coated enclosure of 400 X 400 mm** complete with all necessary termination for system room A.C & E lobby AC. **Here Ready made Cyclic Timer Will not be permitted.** | 1 | nos |
| 30 | Supply and installation of 2.5 sq. mm. 3 core flexible cable of approved make (3 mtr. Length) with heavy duty industrial pvc flexible pipe & 15 amp. 3 pin top of approved make for the supply of locker room. | 3 | nos |
| 31 | Supply and installation of 4.0 sq. mm. 3 core flexible cable of approved make (5 mtr. Length) with heavy duty industrial pvc flexible pipe & 20 A. industrial plug socket with metal box & provision of DP MCB slot of approved make for the supply of locker room AC point. | nil | nos |
| 32 | SITC of CABLE TV cable line with proper fixing and connecting with modular Co-Axial TV Socket. - 2 run. | 40 | mtr |

<td>Liaisoning work (addition Load) WITH Electric supply Co. in branch &amp; Approval and Necessary certificate.</td>
<td>job</td>
</tr>
<tr>
<td>37</td>
<td>Providing Necessary plug points &amp; light points for tube lights (including necessary wiring) at various locations as required by various contractors for execution of various works / to run equipments such as drill / cutter etc. during the entire execution process. The accessories used for this purpose shall be of temp. nature (anchor piano or eq.) &amp; the contractor has to take back the same on completion of the project. The supply for this shall be taken from the temporary connection provided at / from nearby general meter under co.ordination with the LANDLORD. &amp; also providing temporary power supply for computers and data connection for computers with wiring, switchboard, Comp. I/O Points, etc. for smoothly running of the branch with removing &amp; reshifting of the computers, printers, etc. bank hardware accessories.</td>
<td>job</td>
</tr>
</tbody>
</table>

**TOTAL - PART A:**

**PART - B :** INTERNAL WIRING

- **A**
  - Phase wire must be Red colour for LDB, Yellow colour for PDB & Blue for ACDB, Neutral Wire of Black colour & Green Wire for Earthing. Color code must be maintained. Tagging from DB MCB and Switch board must be done.
  - P and M point wiring in concealed in walls, furniture’s & for above false ceiling, or on ceiling, on beams shall be fixed with saddles & spacers etc., with conduits taken in slab with 20 mm dia PVC Rigid conduits 1.5 mm thick ISI mark with 2 nos. of 1.5 sq. mm. off wires & 1 nos. of 1.0 sq. mm. earth wire with modular switch with company made flush metal box/surface PVC box etc. comp. with nec. main lines for switch board from LDB of mains of 2 nos. of 2.5 sq.mm wire and 1 no. of 1.0 sqmm pvc Insulated copper conductor earth wire laying in with 20 mm/25 mm dia. type PVC rigid conduits 1.5 mm thick ISI mark. These will be used with point wiring of light, fan, ex. fan, callbell points, etc. (Max. 3 Switchboards in one circuit - One Sp MCB).
- **1.1** One 5A switch controlling one light / fan point.  
- **1.2** One switch controlling Two light points.  
- **1.3** 5A socket outlet with 5A switch (on common board) (1 FOR WATER COOLER).  
- **1.4** 5A socket outlet with 5A SP switch (as an independent point) [for ex. Fan, extra points.]
| 1.6 | SITC of loop light points of 2 nos. of 1.5 sq. mm. off wires & 1 nos. of 1.0 sq. mm. earth wire from Main panel timer of mains of 2 nos. of 2.5 sq.mm wire and 1 no.of 1.0 sqmm pvc Insulated copper conductor earth wire laying in with 20 mm/25 mm dia type PVC rigid conduits 1.5 mm thick ISI mark (This point is for Signage and Down Lighter Points at Entrance) | 2 nos |
| 2   | SITC of 6/16 Amp. Switch and socket complete with necessary require wiring from PDB of 2 no of 4.0 sq mm wires and 1 no of 2.5 sq mm PVC Insulated copper conductor earth wire laying in with 20 mm/25 mm dia PVC rigid conduits 1.5 mm thick ISI mark. These will be used with point wiring of power points ,etc. (For Printer, Water Cooler, Freeze, Motor, Note Counting Machine points ). No Looping of Neutral or earthing is allowed. Each point needs to provide separate circuit. | nil nos |
| 3   | SITC of 20 A/ 25 A , 230 V, with DP ELCB., 100 mA all enclosed in a prefabricated M S boxes complete to the satisfaction of E.I.C. For SPLIT AC 1.5TR / 2.0 TR unit with necessary require wiring from ACDB of 2 no of 4.0 sqmm wires and 1 no of 2.5 sqmm PVC Insulated copper conductor wire FRLS type laying in with 20 mm/25 mm dia PVC rigid conduits 1.5 mm thick ISI mark. These will be used with point wiring of A.C. points ,etc. Server Room AC Supply need to be given through Main Panel. Color code must be maintained. Tagging from ACDB MCB and AC point must be done. This point should be installed near Split AC in concealed manner. No Looping of Neutral or earthing is allowed. Each point needs to provide separate circuit.] For Cassate AC power supply indoor or outdoor need to be given as per AC vendor's requirement. The height of switchboard must be at reachable point for easily operation. From that point to Split AC , empty conduit + necessary bends must in concealed mode by ele. contractor. | 2 nos |

B LIGHTING FIXTURES :

(Note: ANY OF FIXTURES AND FITTINGS SHALL BE RE-CONFIRMED WITH THE ARCHITECTS / CONSULTANTS BEFORE ORDERING THEM.

Supply, installation, testing and commissioning (including supply and fixing flexible wires from holder to fixtures hardwares etc.) of... - The LED lamps should be of same make as fixture make. - The marking & cutting of fixtures should be in ele. contractor’s scope.. fixtures should be approved by bank’s ele. engineer / ele. consultant / architect. from the given make list before installations. LM 79 & LM 80 test reports to be submitted. nichia / LUMileds / cree - LED should be used by manufacture. Lighting Luminaire of LED for Office single piece die cost aluminium M24 housing complete with driver unit, mirror optic and other accessaries Lamps of about 100 lumen/W injection moulded PC diffusers with high brightness complete unit complying with international standard (LU49, LH801) - opertive on 190V - 270 V 50 Hz with Mini 3 years warranty complete with mounting system and lamp dually wired and tested Details as under.

LED 1 x 31 W (3100 lumens) (2’ X 2’) RECESS MOUNTED LUMINAIRE with 2KV surge protection, making earthing conection complete to be recessed in false ceiling with all necessary hardwares, hanging - die cast frame arrangement, chains or hook arrangement with ceiling, connected to supply wire with PVC connector. Earthing connection with lugging need to given to body of Fixture, etc. complete. (CRIMPON make cat no. Aura 1 LCPL-36-CDL or Equivalent in GE/ Philips / Havells / Wipro make).

| 4.1 | LED 1 x 31 W (3100 lumens) (2’ X 2’) RECESS MOUNTED LUMINAIRE with 2KV surge protection, making earthing conection complete to be recessed in false ceiling with all necessary hardwares, hanging - die cast frame arrangement, chains or hook arrangement with ceiling, connected to supply wire with PVC connector. Earthing connection with lugging need to given to body of Fixture, etc. complete. (CRIMPON make cat no. Aura 1 LCPL-36-CDL or Equivalent in GE/ Philips / Havells / Wipro make). | 1 nos |
### 4.2 1x12 W Square / Round LED DOWN LIGHT pressure die cast fixture with 2KV surge protection (950 lumens) to be recessed in false ceiling with all necessary hardwares, chains, hook etc. complete. (CROMPTON make cat no. CROM ROUND / CROM SQUARE LCDN - 12 - CDL/TLWW or Equivalent in GE / Philips / Havells / Wipro make). Energy Efficient round recessed mounted LED down lighter with premium white powder coating and die cast aluminium housing, as per details above. Die casting material should not be CRCO type material. should be connected to supply wire with PVC connector. Earthing connection with lugging need to given to body of Fixture.

| 4.2 | 1x12 W Square / Round LED DOWN LIGHT pressure die cast fixture with 2KV surge protection (950 lumens) to be recessed in false ceiling with all necessary hardwares, chains, hook etc. complete. (CROMPTON make cat no. CROM ROUND / CROM SQUARE LCDN - 12 - CDL/TLWW or Equivalent in GE / Philips / Havells / Wipro make). Energy Efficient round recessed mounted LED down lighter with premium white powder coating and die cast aluminium housing, as per details above. Die casting material should not be CRCO type material. should be connected to supply wire with PVC connector. Earthing connection with lugging need to given to body of Fixture. | 7 nos |

### 4.7 1 x 20 W LED (1900 lumens) slim tube light Batten Fixture (4'-0") with LED tube complete with necessary hardwares, per watt lumens output must be above 120/watt and 90% lumens maintenance for 90% of life with input voltage 90-270 V AC 50hz operational without affecting the life, input moving fast protection in driver for above 270 V protection etc. LED Batten Comprises of Thermally conductive material. Pre-wired with high efficiency electronic driver. High translucent frosted diffuser gets glare free, smooth light distribution. (Crompton make LCTL-18-CDL OR Equivalent PHILIPS / GE / Wipro make).

| 4.7 | 1 x 20 W LED (1900 lumens) slim tube light Batten Fixture (4'-0") with LED tube complete with necessary hardwares, per watt lumens output must be above 120/watt and 90% lumens maintenance for 90% of life with input voltage 90-270 V AC 50hz operational without affecting the life, input moving fast protection in driver for above 270 V protection etc. LED Batten Comprises of Thermally conductive material. Pre-wired with high efficiency electronic driver. High translucent frosted diffuser gets glare free, smooth light distribution. (Crompton make LCTL-18-CDL OR Equivalent PHILIPS / GE / Wipro make). | nil nos |

### 4.9 SITC of Decorative 3 W (180 lumens) LED DOWN LIGHT PANEL with its driver also. (wipro make or philips / orient or equivalent co. make). (Approved by Architect) basic rate of fixture Rs. 1000/- (This is for down lighter in ACP work near entrance).

| 4.9 | SITC of Decorative 3 W (180 lumens) LED DOWN LIGHT PANEL with its driver also. (wipro make or philips / orient or equivalent co. make). (Approved by Architect) basic rate of fixture Rs. 1000/- (This is for down lighter in ACP work near entrance.) | 2 nos |

### C COMPUTER POWER SUPPLY & NETWORKING - TELE. SYSTEM:

- Phase wire must be Yellow colour for UPS O/P DB, Red colour for PDB, Neutral Wire of Black colour & Green Wire for Earthing. Color code must be maintained. Tagging from DB MCB and Switch board must be done.

| C | COMPUTER POWER SUPPLY & NETWORKING - TELE. SYSTEM: Phase wire must be Yellow colour for UPS O/P DB, Red colour for PDB, Neutral Wire of Black colour & Green Wire for Earthing. Color code must be maintained. Tagging from DB MCB and Switch board must be done. | 4 nos |

### D DISTRIBUTION BOARD AND PANELS:

- Supply, installing, testing and commissioning of metallic double door type distribution board with all necessary connection complete to be installed concealed in wall / surface mount complete to the satisfaction of the Engineer in charge. The DB should be of same make as MCB make.

| D | DISTRIBUTION BOARD AND PANELS: Supply, installing, testing and commissioning of metallic double door type distribution board with all necessary connection complete to be installed concealed in wall / surface mount complete to the satisfaction of the Engineer in charge. The DB should be of same make as MCB make. | 1 nos |

#### 18.1 12 WAY SPN DB : (ATM DB). - All MCBs must be C Type Characteristic.

| 18.1 | 12 WAY SPN DB : (ATM DB). - All MCBs must be C Type Characteristic. | 1 nos |

- incoming : 40A FP ELCB, 100 mA - 1 NO
- outgoing : 10 A SP MCB -1 NO FOR Lighting.
### F CABLES & CABLE TERMINATIONS:

<table>
<thead>
<tr>
<th>Supply, Laying, installation, testing and commissioning of following sizes of PVC insulated PVC sheathed copper / aluminum conductor armoured cable to be laying in existing cable trench or to be laid in existing pipes of with necessary clamps, spacers with cleating on wall ceiling etc. complete to the satisfaction of EIC. All types of cable excavation works should be in contractor's scope. (LENTH TO BE VERIFY AT SITE ). With termination lugging &amp; Glanding</th>

kamleshchokshi@yahoo.com
chokshikamlesh@gmail.com
dishitaelectricals@yahoo.com
1) Rates for LIGHT, FAN, EX. FAN, CALL BELL, and RAW POWER ETC. POINTS include the cost of main wires and PVC pipes from LDB-ROW POWER DB to DIFFERENT SWITCHBOARDS WITH REQUIRE CIRCUITS.

2) Rates for COMPUTER POWER POINTS include the cost of wires and PVC pipes from UPS DB to COMPUTER POWER POINTS.

3) Rates for COMPUTER I/O include the cost of DATA cables and PVC pipes from SERVER SWITCH to COMPUTER NODES.

4) Rates for TELE POINTS include the cost of TELEPHONE Wires and PVC pipes from EPABX/CRONE BOX to TELE. POINTS.

5) Rates for A.C./POWER POINTS include the cost of wires and PVC pipes from A.C. DB to DIFFERENT A.C. AND POWER POINTS WITH REQUIRE CIRCUITS.

6) THE CONTRACTOR SHOULD SUBMIT THE BUILTUP SLD OF PANEL, SLD OF DIFFERENT DBS TO DIFFERENT SWITCHBOARDS WITH NUMBERING, SLD OF DATARACK TO DIFFERENT I/O POINTS WITH NUMBERING, TELE. KRONE BOX TO DIFFERENT TELE. POINTS WITH NUMBERING, ETC. AFTER EXECUTION OF THE BRANCH. – 2 SETS OF COPIES – 1 WITH LAMINATION.

7) THE CONTRACTOR SHOULD USE MAX. 3 CIRCUITS IN ONE CONDUIT FOR UPS & RAW POWER POINTS.

8) THE CONTRACTOR SHOULD USE MAX. 3 WIRES OF DATA & TELE. IN ONE CONDUIT.

9) EVERY CONDUIT FOR UPS, RAW POWER, DATA & TELE., POWER POINTS, AC POINTS, LIGHTING POINTS SB SHOULD BE SEPARATE.

10) FOR DATA & TELE. POINTS, BIG JUNCTION BOX MUST BE REQUIRED.

11) FOR UPS & RAW POWER POINTS, BIG/ SMALL JUNCTION BOX MUST BE REQUIRED.

12) EMPTY CONDUIT MUST BE LAID FOR SECURITY SYSTEM.

13) PVC CONDUITS MUST BE CLAMPED WITH SADDLES IN CEILING ONLY.

14) ELE. CONTRACTOR MUST SUBMIT CERTIFIED LOAD LIST WITH ELE. LICENSE NO. / SUPERVISOR CERTIFICATE NO.

15) CONTRACTOR SHOULD SUBMIT TEST REPORT.

16) CONTRACTOR SHOULD PRESENT EARTHING PLATES BEFORE EXECUTION.

KAMLESH CHOKSHI
