SBI INFRA MANAGEMENT SOLUTIONS PVT LTD(SBIIMS)

(WHOLLY OWNED SUBSIDIARY OF SBI)

CIRCLE OFFICE, PATNA

SCHEDULE OF WORKS: INTERIOR FURNISHING WORKS

PROJECT: RANISHWAR BRANCH

UNDER RBO-II, DUMKA, AO DEOGHAR

1 LOW HEIGHT SINGLE WINDOW COUNTER (a) Providing and fixing low height Single Window counters / Case Manager's table with a maximum width of 3'0" in required shape as per typical NEW design Map Enclosed. The main structure of the counter is to be made of 19mm thick BWP grade Phenol Formaldehyde block board of Green/Century/Mayur/Alpro ISI marked, with proper framing at lower curved point. The width / front of the counter should have 5'0" length and with side credenza / cabinet of 1'4" wide and maximum 3'0" length / depth (excluding width of counter) The vertical supporting member of counter are to be made of 19 mm thick block board for keeping 'Godrej' 'Dun-8 box'(shall be provided by the bank OR as a separate item) would be fitted properly in right hand side. The key board made of 19 mm board & laminated and painted / or PVC pull-out tray to be provided. The 19 mm thick BWP grade board Platform shall be provided for keeping CPU as per design/drawing. The counter top has a neat hole to be made in the table
 / Case Manager's table with a maximum width of 3'0" in required shape as per typical NEW design Map Enclosed. The main structure of the counter is to be made of 19mm thick BWP grade Phenol Formaldehyde block board of Green/Century/Mayur/Alpro ISI marked, with proper framing at lower curved point. The width / front of the counter should have 5'0" length and with side credenza / cabinet of 1'4" wide and maximum 3'0" length / depth (excluding width of counter) The vertical supporting member of counter are to be made of 19 mm thick block board for keeping 'Godrej' 'Dun-8 box'(shall be provided by the bank OR as a separate item) would be fitted properly in right hand side. The key board made of 19 mm board & laminated and painted / or PVC pull-out tray to be provided. The 19 mm thick BWP grade board Platform shall be provided for keeping CPU as per design/drawing.
for connecting the wires which is to be covered with a dark colored PVC insert wire manager. The exposed block-board/ plywood to be covered with 0.8 mm thick frosty white laminate of Greenlam / Marino / Century or equivalent as per shaped in drawing (approx 1'3" down round in shape as per drawing). The internal and non-visible side of all drawers, cabinets and counter table shall be painted with 3 coats of enamel paint over one coat of primer on the internal side. Front 12 mm thick Glass (Modi float / Ashentshai float) portion

wide and 1'0" wide glasses. Door shutter BWP board to be fixed at the rear side of counter with automatic locking system from Godrej or equivalent. Teak wood shall be polished and protected with melamine/spirit polish. (Separate item and measurement and payment for low type partitions sides and rear side rack & door at rear side). The work is to be completed with all materials, accessories, labor, tools & tackles and in strict conformity with manufacturer's specifications & recommendations. All materials should be approved by SBIMS. Visible plan area is to be measured for finished work. (b) A transaction to of having 8" wide (3" inside and 5" noutside) of 12 mm thick glass at 3" 8" height from flooring between 4" gaps would be provided for banking transactions. (c) P/F 12mm TOUGHNED GLASS in required shape and size including fitting. Tking with proper fittings to complete job. No. 4 2 FULL HEIGHT PARTITION PARTLY PANELED AND PARTLLY GLAZED WITH DOORS AND HARD WOOD CHAUKHAT AS PER THE REQUIREMENT SOM. 25 glazed full height partition with frames of 50 mm x 38 mm (finished size) seasoned hardwood members (Gamhar, Malxysian Sal wood, Hollock) at maximum intervals of 450 mm x 450 mm with provision of bigger members at skirting, Tking to faise ceiling (ff provided) fixing to RCC Slab, Beams etc. Frame work to be cowered with 12 mm thick MDF board on both side and 1.0 mm thick (Greenlam/century/Mayur or ISI marked equivalent) laminate if needed with grooves / small / panels cut and pasted in the same as per typical design, on both sides so as to form a double skin partition to level 900 mm and above with 6 mm clear float-glass Modi Float / AIS or equi					
locking system from Godrej or equivalent. Teak wood shall be polished and protected with melamine/spirit polish. (Separate item and measurement and payment for low type partitions sides and rear side rack & door at rear side). The work is to be completed with all materials, accessories, labor, tools & tackles and in strict conformity with manufacturer's specifications & recommendations. All materials should be approved by SBIIMS. Visible plan area is to be measured for finished work. (b) A Transaction top of having 8" wide (3" inside and 5" outside) of 12 mm thick glass at 3" height from flooring between 4" gaps would be provided for banking transactions. No. 3 (c) P/F 12mm TOUGHNED GLASS in required shape and size lob. No. 4 2 FULL HEIGHT PARTITION PARTLY PANELED AND PARTLLY GLAZED WITH DOORS AND HARD WOOD CHAUKHAT AS PER THE REQUIREMENT SOM. 25 2 FULL HEIGHT PARTITION PARTLY PANELED AND particle dist, bains for for bard on both side and 1.0 mm thick dist, baars at wood, Hollock) at maximum intervals of 450 mm x450 mm with provision of bigger members at skriting, fixing to false ceiling (if provided) fixing to RCC Slab, Beams etc. Frame work to be covered with 12 mm thick MDF board on both side and 1.0 mm thick. (Greenlam/century/Mayur or ISI marked equivalent) laminate if needed with grooves / small / panels cut and pasted in the same as per typical design, on both sides so as to form a double skin partition to level 900 mm and above with 6 mm clear float-glass Modi Float / AlS or equivalent above, etched / etching film pasted as per design fixed in frame with steel beading as per detalide design, the frame of the partition shall c		wide and 1'0" wide glasses. Door shutter BWP board to			
shall be polished and protected with melamine/spirit polish. (Separate item and measurement and payment for low type partitions sides and rear side rack & door at rear side). The work is to be completed with all materials, accessories, labor, tools & tackles and in strict conformity with manufacturers specifications & recommendations. All materials should be approved by SBIIMS. Visible plan area is to be measured for finished work. No. (b) A Transaction top of having 8" wide (3" inside and 5" outside) of 12 mm thick glass at 3" 8" height from flooring between 4" gaps would be provided for banking transactions. No. (c) P/F 12mm TOUGHNED GLASS in required shape and size including fitting, fixing with proper fittings to complete job. No. 4 2 FULL HEIGHT PARTITION PARTLY PANELED AND PARTLLY GLAZED WITH DOORS AND HARD WOOD CHAUKHAT AS PER THE REOURREMENT SOM. 25 glazed full height partition with frames of 50 mm x 38 mm (finished size) seasoned hardwood members (Gamhar, Malaysian Sal wood, Hollock) at maximum intervals of 450 mm x 450 mm with provision of bigger members at skirting, fixing to false ceiling (if provided) fixing to RCC Slab, Beams etc. Frame work to be covered with 12 mm thick MDF board on both side and 1.0 mm thick (Greenlam/century/Mayur or ISI marked equivalent) laminate if needed with grooves / small / panels cut and pasted in the same as per typical design , on both sides so as to form a double skin partition to level 900 mm and above with 6 mm claar float-glass Modi Float / Als or equivalent above, etched / etching film pasted as per design fixed in frame with steel beading as per detailed design, the frame of the partition shall continue right up to the ceiling as s		be fixed at the rear side of counter with automatic			
shall be polished and protected with melamine/spirit polish. (Separate item and measurement and payment for low type partitions sides and rear side rack & door at rear side). The work is to be completed with all materials, accessories, labor, tools & tackles and in strict conformity with manufacturers specifications & recommendations. All materials should be approved by SBIIMS. Visible plan area is to be measured for finished work. No. (b) A Transaction top of having 8" wide (3" inside and 5" outside) of 12 mm thick glass at 3" 8" height from flooring between 4" gaps would be provided for banking transactions. No. (c) P/F 12mm TOUGHNED GLASS in required shape and size including fitting, fixing with proper fittings to complete job. No. 4 2 FULL HEIGHT PARTITION PARTLY PANELED AND PARTLLY GLAZED WITH DOORS AND HARD WOOD CHAUKHAT AS PER THE REOURREMENT SOM. 25 glazed full height partition with frames of 50 mm x 38 mm (finished size) seasoned hardwood members (Gamhar, Malaysian Sal wood, Hollock) at maximum intervals of 450 mm x 450 mm with provision of bigger members at skirting, fixing to false ceiling (if provided) fixing to RCC Slab, Beams etc. Frame work to be covered with 12 mm thick MDF board on both side and 1.0 mm thick (Greenlam/century/Mayur or ISI marked equivalent) laminate if needed with grooves / small / panels cut and pasted in the same as per typical design , on both sides so as to form a double skin partition to level 900 mm and above with 6 mm claar float-glass Modi Float / Als or equivalent above, etched / etching film pasted as per design fixed in frame with steel beading as per detailed design, the frame of the partition shall continue right up to the ceiling as s		locking system from Godrei or equivalent. Teak wood			
polish. (Separate item and measurement and payment for low type partitions sides and rear side rack & door at rear side). The work is to be completed with all materials, accessories, labor, tools & tackles and in strict conformity with manufacturer's specifications & recommendations. All materials should be approved by SBIIMS. Visible plan area is to be measured for finished work. (b) A Transaction top of having 8" wide (3" inside and 5" outside) of 12 mm thick glass at 3" 8" height from flooring between 4" gaps would be provided for banking transactions. No. 3 (c) PF-T2mm TOUGHNED GLASS in required shape and size including fitting, fixing with proper fittings to complete job. No. 4 2 FULL HEIGHT PARTITION PARTLY PANELED AND PARTLY GLAZED WITH DOORS AND HARD WOOD CHAUKHAT AS PR THE REQUIREMENT SQM. 25 glazed full height partition with frames of 50 mm x 38 mm (finished size) seasoned hardwood members (Gamhar, Malaysian Sal wood, Hollock) at maximum intervals of 450 mm x 450 mm with provision of bigger members at skirting, fixing to false ceiling (if provided) fixing to RCC Slab, Beams etc. Frame work to be covered with 12 mm thick MDF board on both side and 1.0 mm thick (Gree lama dia bow with 6 mm clear float-glass Modi Float / AlS or equivalent above, etched / etching film pasted as per design fixed in frame with steel beading as per detailed design, the frame of the partition shall contave, etched / etching film pasted as per design fixed in frame with steel beading as per detailed design, the frame of the partition shall contave, etched / etching film pasted as per design fixed in frame with steel beading as per detailed design, the frame of the					
for low type partitions sides and rear side rack & door at rear side). The work is to be completed with all materials, accessories, labor, tools & tackles and in strict conformity with manufacturer's specifications & recommendations. All materials should be approved by SBIIMS. Visible plan area is to be measured for finished work. (b) A Transaction top of having 8" wide (3" inside and 5" outside) of 12 mm thick glass at 3" 8" height from flooring between 4" gaps would be provided for banking transactions. No. 3 (c) P/F 12mm TOUGHNED GLASS in required shape and size including fitting, fixing with proper fittings to complete job. No. 4 2 FULL HEIGHT PARTITION PARTLY PANELED AND PARTILY GLAZED WITH DOORS AND HARD WOOD CHAUKHAT AS PER THE REQUIREMENT SQM. 25 glazed full height partition with frames of 50 mm x 38 mm (finished size) seasoned hardwood members (Gamhar, Malaysian Sal wood, Hollock) at maximum intervals of 450 mm x 450 mm kith provision of bigger members at skirting, fixing to false ceiling (if provided) fixing to RCC Slab, Beams etc. Frame work to be covered with 12 mm thick MDF board on both side and 1.0 mm thick (Greenlam/century/Mayur or ISI marked equivalent) laminate if needed with groves / smal / panels cut and pasted in the same as per typical design, on both sides so as to form a double skin partition to level 900 mm and above with 6 m clear finat-glass Modi Float / AIS or equivalent above, etched / etching film pasted as per design fixed in frame of the partition shall continue right up to the ceiling as shall be firmly fixed to the ceiling and ground by the means of Rawal Plugs etc. necessary fasteners so as to form a s					
rear side). The work is to be completed with all materials, accessories, labor, tools & tackles and in strict conformity with manufacturer's specifications & recommendations. All materials should be approved by SBIIMS. Visible plan area is to be measured for finished work. (b) A Transaction top of having 8" wide (3" inside and 5" outside) of 12 mm thick glass at 3" 8" height from flooring between 4" gaps would be provided for banking transactions. No. 3 (c) P/F 12mm TOUGHNED GLASS in required shape and size incluing fitting, fixing with proper fittings to complete job. No. 4 2 FULL HEIGHT PARTITION PARTLY PANELED AND PARTLY GLAZED WITH DOORS AND HARD WOOD CHAUKHAT AS PER THE REQUIREMENT SQM. 25 yiazed full height partition with frames of 50 mm x 38 mm (finished size) seasoned hardwood members (Gamhar, Malaysian Sal wood, Hollock) at maximum intervals of 450 mm x 450 mm with provision of bigger members at skirting, fixing to false celling (if provided) fixing to RCC Slab, Beams etc. Frame work to be covered with 12 mm thick MDF board on both side and 1.0 mm thick (Greenlam/century/Mayur or ISI marked equivalent) laminate if needed with groover / smal / panels cut and pasted in the same as per typical design, on both sides so as to form a duble skin partition to level 900 mm and above with 6 mm clear float-glass Modi Float / AIS or equivalent above, etched / etching film pasted as per design fixed in frame of the partition shall continue right up to the ceiling as shall be firmly fixed to the ceiling and ground by the means of Rawal Plugs etc. necessary fasteners so as to form a stable system / partition all complete work with provision for wring to					
materials, accessories, labor, tools & tackles and in strict conformity with manufacturer's specifications & recommendations. All materials should be approved by SBIIMS. Visible plan area is to be measured for finished work. (b) A Transaction top of having 8" vide (3" inside and 5" outside) of 12 mm thick glass at 3" helight from flooring between 4" gaps would be provided for banking transactions. No. 3 (c) P/F 12mm TOUGHNED GLASS in required shape and size including fitting, fixing with proper fittings to complete job. No. 4 2 FULL HEIGHT PARTITION PARTLY PANELED AND PARTLY GLAZED WITH DOORS AND HARD WOOD CHAUKHAT AS PER THE REQUIREMENT SOM. 25 ylazed full height partition with frames of 50 mm x 35 mm (finished size) seasoned hardwood members (Garnhar, Malaysian Sal wood, Hollock) at maximum intervals of 450 mm x 450 mm vith provision of bigger members at skirting, fixing to false ceiling (if provided) fixing to RCC Slab, Beams etc. Frame work to be covered with 12 mm thick MDF board on both side and 1.0 mm thick (Greenlam/century/Mayur or ISI marked equivalent) laminate if needed with grooves / small / panels cut and pasted in the same as per typical design, on both sides so as to form a double skin partition to level 900 mm and above with 6 mm clear float-glass Modi Float / AIS or equivalent above, etched / etching film pasted as per design fixed in frame of the partition shall continue right up to the ceiling as shall be firmly fixed to the ceiling and ground by the means of Rawal Plugs etc. necessary fasteners so as to form a stable system / partition all complete work with provision for wring to be done by other agencies. The work is to be completed with all materials, ac					
conformity with manufacturer's specifications & recommendations. All materials should be approved by SBIIMS. Visible plan area is to be measured for finished work. No. (b) A Transaction top of having 8" widd (3" inside and 5" outside) of 12 mm thick glass at 3 8" height from flooring between 4" gaps would be provided for banking transactions. No. (c) P/F T2mm TOUGHNED GLASS in required shape and size including fitting, fixing with proper fittings to complete job. No. 4 2 FULL HEIGHT PARTITION PARTLY PANELED AND PARTLLY GLAZED WITH DOORS AND HARD WOOD CHAUKHAT AS PER THE REQUIREMENT SOM. 25 Providing and fixing double skin partly paneled & partly glazed full height partition with frames of 50 mm x 38 mm (finished size) seasoned hardwood members (Gamhar, Malaysian Sal wood, Hollock) at maximum intervals of 450 mm x 450 mm with provision of bigger members at skirting, fixing to false ceiling (if provided) fixing to RCC Slab, Beams etc. Frame work to be covered with 12 mm thick MDF board on both side and 1.0 mm thick (Greenlam/Century/Mayur or ISI marked equivalent) laminate if needed with grooves / small / panels cut and pasted in the same as per typical design, on both sides so as to form a double skin partition to level 900 mm and above with 6 mm clear float-glass Modi Float / AlS or equivalent above, etched / etching film pasted as per detailed design, the frame of the partition shall continue right up to the ceiling ashall be firmly fixed to the ceiling and ground by the means of Rawal Plugs etc. necessary fasteners so as to form a stable system / partition all complete work with provision for wring to be done by other agencies. The work is to be completed with all materials, accessories, labor,					
recommendations. All materials should be approved by SBIIMS. Visible plan area is to be measured for finished work. No. (b) A Transaction top of having 8" wide (3" inside and 5" outside) of 12 mm thick glass at 3 8" height from flooring between 4" gaps would be provided for banking transactions. No. (c) P/F 12mm TOUGHNED GLASS in required shape and size including fitting, fixing with proper fittings to complete job. No. 4 2 FULL HEIGHT PARTITION PARTLY PANELED AND PARTLLY GLAZED WITH DOORS AND HARD WOOD CHAUKHAT AS PER THE RECUIREMENT No. 4 Providing and fixing double skin partly paneled & partly glazed full height partition with frames of 50 mm x 38 mm (finished size) seasoned hardwood members (Gamhar, Malaysian Sal wood, Hollock) at maximum intervals of 450 mm x 450 mm with provision of bigger members at skirting, fixing to false celling (f provided) fixing to RCC Slab, Beams etc. Frame work to be covered with 12 mm thick MDF board on both side and 1.0 mm thick (Greenlam/century/Mayur or 15] marked equivalent) laminate if needed with grooves / small / panels cut and pasted in the same as per typical design, on on both sides oas to form a double skin partition to level 900 mm and above with 6 mm clear float-glass Modi Float / AIS or equivalent above, etched / etching film pasted as per design fixed in frame with steel beading as per detailed design, the frame of the partition shall continue right up to the ceiling ashall be firmly fixed to the ceiling and ground by the means of Rawal Plugs etc. necessary fasteners so as to form a stable system / partition all complete work with manufacturer's specifications & recommendations. All materials, accessories, labor, tools					
All materials should be approved by SBIIMS. Visible plan area is to be measured for finished work. (b) A Transaction top of having 8" wide (3" inside and 5" outside) of 12 mm thick glass at 3' 8" height from flooring between 4" gaps would be provided for banking transactions. No. 3 (c) P/F 12mm TOUGHNED GLASS in required shape and size including fitting, fixing with proper fittings to complete job. No. 4 2 FULL HEIGHT PARTITION PARTLY PANELED AND PARTLLY CLAZED WITH DOORS AND HARD WOOD CHAUKHAT AS PER THE REQUIREMENT SOM. 25 9 Grad fixing double skin partly paneled & partly glazed full height partition with frames of 50 mm x 38 mm (finished size) seasoned hardwood members (Gamhar, Malaysian Sal wood, Hollock) at maximum intervals of 450 mm x450 mm with provision of bigger members at skirting, fixing to false ceiling (if provided) fixing to RCC Slab, Beams etc. Frame work to be covered with 12 mm thick MDF board on both side and 1.0 mm thick (Greenlam/century/Mayur or ISI marked equivalent) laminate if needed with grooves / small / panels cut and pasted in the same as per typical design, on both sides so as to form a double skin partition to level 900 mm and above with 6 mm clear float-glass Modi Float / AIS or equivalent above, etched / etching film pasted as per detailed design, the frame of the partition shall continue right up to the ceiling as all part distons of Rawal Plugs etc. necessary fasteners so as to form a stable system / partition all complete work with provision for wring to be done by other agencies. The work is to be completed with all materials, accessories, labor, tools & tackles and in strict conformity with manufacturer's specifications & recomme		5

3	FULL HEIGHT NON GLAZED PARTITION			
3	Providing and fixing full height non glazed partition with all other specification remaining identical to that in item No. 2 above as required and the glazed area to be replaced by double skin partition of the same specification as exist in the other parts of the same partition. The work is to be completed with all materials, accessories, labor, tools & tackles and in strict conformity with manufacturer's specifications & recommendations. All materials should be approved by SBIIMS.	SQM.		
	Visible plan area is to be measured for finished work.			
4	LOW HEIGHT PARTITION Providing and fixing low / half height partitions up to 4'0" with double skin paneling up to 3'0" and 12 mm thick clear float glass Modi Float / AIS or equivalent above frame less on the top and sides and sturdily fixed at the bottom. All other specifications and details to be as per item No. 2 above as per the design i.e. shown in sides of low-height counters. The work is to be completed with all materials, accessories, labor, tools & tackles and in strict conformity with manufacturer's specifications & recommendations. All materials should be approved by SBIIMS. Visible plan area is to be measured for finished work.	SQM.	25	
5	ALUMINIUM FRAME AND GLASS FOR GLAZED DOOR AND ALUMINIUM PARTITION			
	Providing and fixing at main entrance gate anodized aluminum section to be made from INDAL / ZINDAL or equivalent standard all complete including glazing beads, gaskets with suitable heavy sections with 5/6 mm thick clear float glass ALL FOR DOORS AND PARTATIONS Modi Float/ AIS or equivalent float glass beveled with etching/ etching film as per design and specification, all complete with all approved quality of hardware's including locks, floor springs, handles etc. as per instruction of the Bank. Section to be used : approx Top 60 x 38 mm. Bottom 60 x 38 mm sides, middle 60 x 38 mm x 2 mm thickness in all, The work is to be completed with all materials, accessories, labor, tools & tackles and in strict conformity with manufacturer's specifications & recommendations. All materials should be approved by SBIIMS. Visible plan area is to be measured for finished work.	SQM.	25	
6	WOODEN DOORS FOR CHAMBERS ROOMS ETC.			
	Providing and fixing glazed door, all complete as per specifications given in item no. 2 above. Doors shall have	SQM.		

separate hard wood choukhats of 100 mm x 60 mm of Sal wood and frames of Gamhar which shall be of 150 mm X 40 mm at the top and sides and 200 mm X 40 mm at the bottom. Beading shall be given as per typical	
mm X 40 mm at the top and sides and 200 mm X 40 mm	
at the bottom. bedding shall be given as per typical	
design and specifications. Door panel shall be of 8 mm	
thick clear Modi Flat/AIS or equivalent float glass of	
approved brand. All necessary hardware such as brass	
hinges (4 nos. heavy quality for each door), door locks,	
brass tower bolts and any other hardware required for	
the door shall be in the rate. Gamhar frame shall be	
neatly covered with 4.0 mm BWP ply and 0.8 mm	
laminate of approved brand as per design. All visible	
wooden surfaces shall be well polished. The work is to	
be completed with all materials, accessories, labor, tools	
& tackles and in strict conformity with manufacturer's	
specifications & recommendations.	
All materials should be approved by SBIIMS.	
Visible plan area is to be measured for finished work.	
7 Supplying and fixing following accessories to doors :	
(a) Heavy Duty Hydraulic Door Closure of approved make No. 2	
(b) Cylindrical Lock(Premium quality) of approved make No.	
(a) Inside an axian 7 Issue Night I state of an annual matter Night 2	
(c)Inside opening 7 lever Night Latch of approved make.No.3	
(d) Mortice Lock(6 lever) of approved make(Godrej Stella or No. 2	
equivalent)	
8 GRAHAK MITRA/CIF	
The work top shall be 1350 mm long, 600 mm wide & No. 1	
750 mm high from FFL.	
The work top is to be made out of 19 mm thick BWP	
block board.	
The front & other two sides of the desk is to be enclosed	
with a 950 mm high double skin solid partition.	
The partition is to be fixed to a 100 mm high & 50 mm	
thick polished teak wood framework at bottom.	
The enclosure is to be made out of 50 mm x 50 mm well	
seasoned Malaysian sal wood framework placed at 600	
mm c/c both vertically & horizontally.	
The enclosure shall be covered by 6 mm thick BWP	
plywood on both sides with suitable fixtures and finished	
with 6 mm thick solid surface material.	
The total height of the enclosure shall be 1050 mm from	
FFL.	
All exposed surfaces including the work top are to be	
I tipichod with 6 mm thick colid curtace material/1 mm	
finished with 6 mm thick solid surface material/1 mm thick high gloss laminate.	

	1		1	
	The inside edges of both the enclosure and the			
	framework at bottom are to be kept at same vertical			
	level to give the enclosure a projection of 25 mm beyond			
	the framework.			
	A 600 mm wide glazing is to be done on the enclosure			
	facia with 12 mm thick machine polished transparent			
	toughened glass fixed with SS stud fittings as per design.			
	The top of the glazing shall be fixed with SS stud fittings			
	to an extruded section of 75 mm x 75 mm well seasoned			
	Malayasian sal wood batten.			
	The section is to be fixed at a distance of 600 mm from			
	left end & on top of the enclosure.			
	The top of the glazing is to come up to a height of 1150			
	mm from FFL.			
	The glass shall have a blue shade with high gloss			
1	Polyurethane coating on the surface.			
	All edges of the glass are to be finished with mirror			
	polishing.			
	The work is to include all necessary materials,			
	accessories, labour, tools & rackles except for ony solid			
	surface material on work top, if provided.			
	The job shall also include provisions for electrical,			
	computer & telephone wiring conduits, switch boxes etc.			
	The fixing of solid surface material on work top only as			
	above shall be a separate item.			
	All materials should be approved by SBIIMS.			
	Payment shall be made for finished work.			
	Grahak Mitra/Tech Mitra			
9	WORK STATIONS / TABLES			
-	Making and providing Desk-top with provision of dark			
	color PVC made wire manager having sides vertical			
	support panels and modesty panel. All made of 19 mm			
	thick BWP grade block board of Green / Century or ISI			
	marked equivalent laminated with 1.0 mm laminate of			
	Green / Marino / Century or ISI equivalent. All edges			
	shall be covered with teek wood lipings and front edge			
1	shall be covered with half round / flat moulding.			
	Inner portion of table shall be painted with matt finish 3			
	coat of synthetic enamel paint. All wooden surface shall			
	be well polished with melamine polish.			
	(A) Making and providing drawer chest unit on the right			
	hand side with two drawers and one cupboard with			
	concealed hinges and godrej multipurpose locks. Box			
	made of 19 mm thick and bottom with 6 mm BWP grade			
	•			
	ply of Green / Century / archid or equivalent shall be			
	cladded with 1.0 mm thick laminate of Green lam /			
	Century / archid or equivalent, side edges of drawers			
	and cupboard shall molded as per drawing. All drawers			

	shall have 'Z' shape powder coated MS runners with PVC			
	soundless rollers. All wooden surface shall be polished			
	with melamine/spirit polish. all complete work as per			
	prevailing design, specification and direction of			
	Engineer-in-charge/Bank			
	5			
	(B) Providing and fixing PVC made key board tray or			
	Laminated board on 'Z' shape powder coated runner			
	with PVC soundless rollers.			
	(i) 'L' shaped 1800 mm x 1800 mm x 750 mm (NEW)	No.	1	
	branch head table as per drawing enclosed with Teak			
	wood with high gloss PU finish on table top, side,			
	modesty panel and back unit, Right side one drawer and			
	cupboard unit and a raised wooden platform for CPU			
	and small UPS.			
	(ii) 'L' shaped 1500 mm x 1500 mm x 750 mm table as	No.	2	
	per drawing enclosed with Teak wood with high gloss			
	PU finish on table top, side, modesty panel and back			
	unit, Right side one drawer and cupboard unit and a			
	raised wooden platform for CPU and small UPS.			
	The work is to be completed with all materials,			
	accessories, labor, tools & tackles and in strict			
	conformity with manufacturer's specifications &			
	recommendations.			
	All materials should be approved by SBIIMS.			
	Visible plan area is to be measured for finished work.			
10	FOOT REST			
	Providing and placing foot rest made of 19 mm BWP	No.	7	
	grade block with wooden lipings top claded with rubber			
	mat. All inner portions shall have a coat of matt finish			
	enamel paint. The work is to be completed with all			
	materials, accessories, labor, tools & tackles and in strict			
	conformity with manufacturer's specifications &			
	recommendations.			
	All materials should be approved by SBIIMS.			
	Visible plan area is to be measured for finished work.			
	Size of the foot rest 2'x1'			
11	LOW TYPE STORAGE CABINET			
	Making and fixing low type storage cabinet (length x	SQM.	4	
	height will be considered for payment) with drawers and			
	cupboard with shelve at an interval of say 3'0" or the			
	standard size for the purpose as per the drawing /			
	design all made of 19 mm thick BWP block board of			
	Green / Century / archid or equivalent. Top and Front			
	laminated with 0.8 mm laminate of Green / Marino /			
	century or equivalent. Drawer shall run of 'Z' type			
	drawer slides with PVC rollers. All inside portion shall be			
	painted with matt finish enamel paint and all wooden			
	surface shall be melamine polish all complete work with

	necessary and required hardware of standard quality				
	The work is to be completed with all materials,				
	accessories, labor, tools & tackles and in strict				
	conformity with manufacturer's specifications &				
	recommendations.				
	All materials should be approved by SBIIMS.				
	Visible plan area is to be measured for finished work.				
	Top 1'4" x Height 2' 6" x running length.				
12	VERTICAL BLINDS				
	Providing and fixing 100 mm wide vertic al blinds (Vista	SQM.	7		
	level or Classic) in Off-white or any approved colour on				
	all windows and openings. All complete with all				
	mechanisms etc. (Note: the area of the blinds shall be				
	measured for payment). The work is to be completed				
	with all materials, accessories, labor, tools & tackles and				
	in strict conformity with manufacturer's specifications &				
	recommendations.				
	All materials should be approved by SBIIMS.				
	Visible plan area is to be measured for finished work.				
13	PANELING IN WALLS				
	Paneling of wall above storage cabinet with blue shade	SQM.	20		
	laminate on 6 mm thick BWP plywood firmly fixed to				
	wooden Frame above storage cabinet all around as per				
	above in item no 2. The work is to be completed with all				
	materials, accessories, labor, tools & tackles and in strict				
	conformity with manufacturer's specifications &				
	recommendations.				
	All materials should be approved by SBIIMS.				
	Visible plan area is to be measured for finished work.				
14	"GODREJ" MAKE DRAWERS FOR SWO COUNTERS ETC.				
	Providing dun-8 box made up of godrej / equivalent	No.	3		
	make sliding drawers cabinet with self locking				
	(automatically locked when pushed and shall not open				
	without key). The work is to be completed with all				
	materials, accessories, labor, tools & tackles and in strict				
	conformity with manufacturer's specifications &				
	recommendations.				
	All materials should be approved by SBIIMS.				
	Visible plan area is to be measured for finished work.				
15	SIDE AND CENTRE TABLE				
	Providing and placing side tables of size 600 mm x450	No.			
	mm x 375 mm high and top to be made out of 12 mm				
1	thick machine cut and machine bevele clear glass, with				
1	absolute smooth edges, fixed onto a base frame of				
1	teakwood of size 300 mm x 300 mm which shall have				
1					
1	various grooves etc. as per detailed drawing, design and				
	shall be polished to the required colour with melamine				

	1	1	1	1	
	polish all complete job with necessary required				
	hardware's The work is to be completed with all				
	materials, accessories, labor, tools & tackles and in strict

	recommendations.				
	All materials should be approved by SBIIMS.				
	Visible plan area is to be measured for finished work.				
16	LONG TABLE				
	Supplying and making long table for system room having	SQM.	2		
	900 mm wide and 750 mm high, top, bottom, side and				
	space for keeping the CPU of computer under the table,				
	made of 18 mm thick PF bonded exterior grade block				
	board, shutter and shelves made of 12 mm thick PF				
	bonded BWR, with bore proof plywood with teek wood				
	liping and back finished with 6 mm thick PF bonded ply.				
	The keyboard tray made of 18 mm thick PF bonded				
	block board and pencil drawer made of 12 mm thick				
	bonded ply with ISI mark. All exposed vertical surfaces				
	including top and horizontal expect back finished with				
	0.8 mm thick laminate. Back and inside of the cabinet				
	will be paint finished and all free edges with teak wood				
	liping including hardware's etc. Making the hole on the				
	table top for connecting the wires and hole to be				
	covered with dark coloured PVC wire manager with all				
	complete job for system room. The work is to be				
	completed with all materials, accessories, labor, tools &				
	tackles and in strict conformity with manufacturer's				
	specifications & recommendations.				
	All materials should be approved by SBIIMS.				
	Visible plan area is to be measured for finished work.				
17	Providing, fitting and fixing Drop Boxes as per				
	drawings :				
	The box shall havean approximate size of 400 mm width,				
	200 mm depth and 450 mm height.				
	One drop-slit, 200 mm long & 5 mm wide with edges				
	smoothened properly, is to be provided on the top of				
	the box. Thr box shall be provided with a small lockable				
	door with 2 no. 75 mm SS butt hinges and a small SS				
	hasp bolt. The item is to be made out of 12 mm thick				
	BWR block board to a pigeon hole shape. The work is to				
	be finished with 1mm thick high gloss laminate of				
	approved shade. The inner surfaces are to be finished				
	with French polish.				
	The work is to be completed with necessary lipping &				
	polishing to exposed surfaces.				
	The box shall be fixed to a wall or column in the hall at a				
	height of 1.2 m from FFL or as directed.				
	The work is to include all necessary materials,
