You are requested to contract the agency for further guidance on e-
21. Any additional information: The quoted rate should be inclusive of materials, labour, wages, fixtures, transportation, installation, all taxes (but excluding GST), wastages, Octroi, machinery, temporary works such as scaffolding, cleaning, overheads, profit, statutory expenses, incidental charges and all related expenses to complete the work.

Notes:

a) All Tenderer are informed that, price bidding for the work will be through e-tendering method. The bill of quantity of tender i.e “Price Bid” is to be submitted online on e-tendering portal. Orders will be placed on the basis of closing price by bidders in the “Price Bid.

b) The Tenderer are expected to examine all instructions, forms, terms and specifications in the tender documents. Failure to furnish all information required as per the Tender Documents or submission of bids not substantially responsive to the Tender Documents in every respect will be at the Tenderer risk and shall result in rejection of the Tender.

c) In case the date of submission of Tender Processing Fee, EMD, Price Bid is declared as a holiday, the respective date will be considered on the next working day at the same time. The bidder, who is the authorized representative and participating on behalf of company/ Dealer/vendor, should have a valid digital signature certificate (DSC) for this tender. The validity of the DSC should be at least 3 months.

d) The SBIIMS reserves the right to cancel or postpone or modify the tenders at any stage without assigning any reason.

e) Since bidder has to quote item-wise rate/amount in e-tendering process (i.e Price Bid) for the entire work, therefore they are strongly advised to visit site before submitting their bid and work out the quantity requirement for all required material to make the work complete in all respects.

f) If the L1 bidder quotes abnormally low (below 10% of the estimated cost), he will be required to furnish a Performance Guarantee Bond/STDR lien to the name of AGM(P&E), LHO Guwahati on the “accepted tender amount” which will be released after virtually completion of the work and Additional Security Deposit amounting to additional 2% of the accepted tender amount in addition to EMD and ISD, which will be released after successful completion of Defect Liability Period.

(For and behalf of State Bank of India)

Against this Enquiry for the subject item/system with detailed scope of supply as per our specification, SBI may resort to “e-Tendering process comprises of Technical Bid and Price Bid”.

1. For the proposed e-tendering process, already empanelled vendors for the said purpose who fulfill all terms and conditions including deposit of tender process amount and earnest money amount only shall be eligible to participate.
2. SBIIMS will engage the services of a service provider who will provide all necessary training and assistance before commencement of on line bidding on Internet.
3. SBIIMS will inform the vendor in writing, the details of service provider to enable them to contact and get trained.
4. Business rules like event date, time, etc. also will be communicated through service provider for compliance.
5. Vendors have to fax the compliance form in the prescribed format [provided by service provider] before start of e-tendering process. Without this the vendor will not be eligible to participate in the event.
6. E-tendering process will be conducted on schedule date & time.
7. At the end of event, the lowest bidder value will be known on the network.
8. The lowest bidder has to fax the duly signed filled-in prescribed format as provided on case-to-case basis to SBIIMS through service provider within 24 hours of completion of auction without fail.
9. Any variation between the on-line bid value and signed document will be considered as sabotaging the tender process and will invite disqualification of vendor to conduct business with SBI as per prevailing procedure.
**Terms & Conditions of e-Tendering process**

1. **LOG IN NAME & PASSWORD:** Each Bidder is assigned a Unique User Name & Password by ETL. The Bidders are requested to change the Password after the receipt of initial Password from ETL. All bids made from the Login ID given to the bidder will be deemed to have been made by the bidder.

2. **BIDS PLACED BY BIDDER:** The bid of the bidder will be taken to be an offer to execute the work. Bids once made by the bidder cannot be cancelled. The bidder is bound to execute the work (as mentioned above) at the price that they bid. Should any bidder back out and not make the supplies at the rates quoted, SBIIMS and / or ETL shall take action as appropriate.

3. **LOWEST BID OF A BIDDER:** In case the bidder submits more than one bid, the lowest bid will be considered as the bidder’s final offer to execute the work.

4. **AUCTION TYPE:** a) Online Price Bid.

5. **AUCTION WINNER:** At the end of the Price Bid, SBI will evaluate all the bids submitted and will decide upon the winner.

6. **GENERAL TERMS & CONDITIONS:** Bidders are required to read the “Terms and Conditions” section of the auctions site using the Login IDs and passwords given to them.

7. **OTHER TERMS & CONDITIONS:**
   - The Bidder shall not involve himself or any of his representatives in Price manipulation of any kind directly or indirectly by communicating with other suppliers / bidders.
   - The Bidder shall not divulge either his Bids or any other exclusive details of SBIIMS to any other party.
   - SBIIMS’s decision on award of Contract shall be final and binding on all the Bidders.
   - SBIIMS along with ETL can decide to extend, reschedule or cancel any Auction. Any changes made by SBIIMS and / or ETL, after the first posting will have to be accepted if the Bidder continues to access the site after that time.
   - ETL shall not have any liability to Bidders for any interruption or delay in access to the site irrespective of the cause.
   - ETL is not responsible for any damages, including consequential damages, including but not limited to systems problems, inability to use the system, loss of electronic information etc.

N.B.

- All the Bidders are requested to ensure that they have a valid digital certificate well in advance to participate in the online event.
- All the Bidders are required to submit the Technical Bid to SBIIMS along with technical bid as mentioned in the above NIT before due date.
Process Compliance Form

The bidders are required to print this on their company’s letter head and sign, stamp and send the scanned/ hard copy to SBIIMS, Guwahati circle.

Sub: Agreement to the Process related Terms and Conditions for the E-Tendering Process

Dear Sir,

This letter has reference to the Terms & Conditions for CIVIL WORKS FOR CONSTRUCTION OF BOUNDARY WALL AT BANK’S OWN PLOT OF LAND AT MERIMA, KOHIMA. This letter is to confirm that:

1. The undersigned is authorized representative of the company.
2. We have studied all the terms & conditions specified in the tender, Commercial Terms and the Business rules governing the e-Tendering process and the RFP as mentioned in your letter and confirm our agreement to them.
3. We also confirm that we have taken the training on the auction tool and have understood the functionality of the same thoroughly.
4. We confirm that SBIIMS and ETL shall not be liable & responsible in any manner whatsoever for my/our failure to access & bid on the e-auction platform due to loss of internet connectivity, electricity failure, virus attack, problems with the PC, any other unforeseen circumstances etc. before or during the auction event.
5. We understand that in the event we are not able to access the auction site, we may authorize ETL to bid on our behalf by sending a fax containing our offer price before the auction close time and no claim can be made by us on either SBIIMS or ETL regarding any loss etc. suffered by us due to acting upon our authenticated fax instructions.
6. I/we do understand that ETL may bid on behalf of other bidders as well in case of above mentioned exigencies.
7. We also confirm that we have a valid digital certificate issued by a valid Certifying Authority.
8. We also confirm that we will fax the price confirmation of our quoted price as per Annexure II and the format as requested by SBIIMS/ ETL.
9. We, hereby confirm that we will honour the Bids placed by us during the auction process.
10. I/We have inspected the site of works and have made me/us fully acquainted with the local conditions in and around the sites of works. I/We hereby declare that I/We have gone through the conditions laid down in the Notice Inviting Tender, General Conditions of Contract, Special Conditions of Contract, Technical Specifications and understood the same and on the basis of the same I/We will quote our rates in the Price Bid.

2.1 The work has to be carried out strictly according to the conditions stipulated in tender consisting the following documents and the most workmen like manner,

   a) Instructions to tenderers
   b) General Conditions of Contract
   c) Special Conditions of Contract
   d) Technical Specifications
   e) Drawings
   f) Price Bid

2.2 The above documents shall be taken as complementary and mutually explanatory of one another but in case of ambiguities or discrepancies, shall take precedence in the order given below:

   a) Price Bid
   b) Drawings
   c) Technical Specifications
   d) Special Conditions of Contract
   e) General Conditions of Contract
   f) Instructions to Tenderer

2.3 The tender documents are not transferable.

3.0 Site Visit
The tenderer must obtain himself on his own responsibility and his own expenses all information and data which may be required for the purpose of filling this tender document and enter into a contract for the satisfactory performance of the work. The tenderer is requested satisfy himself regarding the availability of water, power, transport and communication facilities, the character quality and quantity of the materials, labour, the law and order situation, climatic conditions local authorities requirement, traffic regulations etc; The tenderer will be fully responsible for considering the financial effect of any or all the factors while submitting his tender.

4.0 Earnest Money

4.1 The tenderer are requested to submit the Earnest Money of Rs.- 74,200.00 to be deposited to A/C No. 10242804581 (SBI, LHO, PREMISES & ESTATE Department Misc. Deposit account) maintained at SBI, Dispur Branch (IFSC code-SBIN0003030) through online mode only.

4.2 No interest will be paid on the EMD.

4.3 EMD of unsuccessful tenderers will be refunded after award of Contract.

4.4 EMD of successful tenderer will be retained as a part of security deposit.

4.5 The EMD shall stand absolutely forfeited if the tenderer revokes his tender at any time during the period when he is required to keep his tender open acceptance by the SBIMS or after it is accepted by the SBIMS, the contractor fails to enter into a formal agreement or fails to pay the initial security deposit as stipulated or fails to commence the work within the stipulated time.

5.0 Initial Security Deposit
The successful tenderer will have to submit a sum equivalent to 2% of contract value less EMD within a period of 15 days of acceptance of tender.

6.0 Security Deposit

6.1 Total security deposit shall be 5% of contract value. Out of this 2% of contract value is in the form of initial security deposit, which includes the EMD. Balance 3% shall be deducted from the running account bill of the work at the rate of 10% of the respective running account bill i.e. deduction from each running bill account will be 10% till total 3% of
contract value is reached. 50% of the total security shall be paid to the contractors without interest on the basis of certifying the virtual completion. The balance 50% would be paid to the contractors without interest within 15 days after the end of the defect liability period provided the contractor has satisfactorily attended to all defects in accordance with the conditions of contract including site clearance.

6.2 No interest shall be paid to the amount retained by the Bank as Security Deposit.

7.0 Signing of Contract Documents
The successful tenderer shall be bound to implement the contract by signing an agreement and conditions of contract attached herewith within 7 days from the receipt of intimation of acceptance of his tender by the Bank. However, the written acceptance of the tender by the Bank will constitute a binding agreement between the Bank and successful tenderer whether such formal agreement is subsequently entered into or not.

8.0 Completion Period
Time is essence of the contract. The work should be completed in all respects in accordance with the terms of contract within a period of 120 days from the date of handing over site or 10 days from the date of issue of letter of acceptance of Bank whichever is later.

9.0 Validity of Tender
Tenders shall remain valid and open for acceptance for a period of three months from the date of e-tendering process. If the tenderer withdraws his/her offer during the validity period or makes modifications in his/her original offer which are not acceptable to the Bank without prejudice to any other right or remedy the Bank shall be at liberty to forfeit the EMD.

10.0 Liquidated Damages
The liquidated damages shall be 0.5% per week subject to a maximum of 5% of contract value.

11.0 Rates and Prices

11.1 The tenderers shall quote their rates for individual items through online submission in the Price Bid as per the attached BOQ of this tender. The rate quoted shall be firm and shall include all costs of labour, material, allowances, taxes if any (other than GST) as may be applicable. No extra claims/PVA by any means due to increase rates etc. will be entertained. Bank will only pay GST in addition to quoted rates

11.2 Rates as bid in the “Price Bid” will be the basis of final order placement.

ARTICLES OF AGREEMENT made this ____________ day of ____________ Two thousand ________________ between the
State Bank of India, a Corporation constructed under the State Bank of India Act, 1955 and having its central office at
MADAM CAMA ROAD, MUMBAI-400001 & its LHO at Dispur, Guwahati-781006 and many other places (hereinafter
referred to as "the BANK") which expression shall include its successor or successors and assigns of the ONE PART through
the authorized officer Shri ______________________ (designation).

AND

M/s. __________________________________ having its registered office at _______________ _______________
[hereinafter referred to as the `CONTRACTOR`] of the OTHER PART.

WHEREAS the Bank is desirous of Civil works for construction of Boundary wall at Bank’s own plot of land at
MEREIMA,KOHIMA of State Bank of India, stated herein before in clause 1 in instruction to tenderer (hereinafter called the
"Works").

AND WHEREAS the Bank has caused the plans, drawings and specifications, priced schedule of quantities for the
construction of said work as per conditions of the contract, special conditions and instructions to tenderer subject to
which the offer of the Contractor shall be accepted.

AND WHEREAS the tender of the Contractor for said work has been approved by BANK.

WHEREAS the contractor has deposited with the Bank Rupees ________________ ________________ as Security
deposit for the due performance of the agreement.

AND WHEREAS the Bank has issued work order therefore to the contractor.

AND WHEREAS said drawings inclusive of the specifications, priced schedule of quantities, conditions of contract and
special conditions (hereinafter collectively referred to as the said condition) have been signed by the parties hereto and
the contractor has agreed to execute the works upon and subject to the said conditions.

NOW IT IS HEREBY AGREED AS FOLLOWS:

1. In consideration of the payments to be made to the contractor as hereinafter provided the contractor shall
upon and subject to the said conditions execute and complete the works shown upon the said drawings etc
and such further detailed drawings as may be furnished to the contractor by the said Bank as described in the
said specifications and the said priced schedule of quantities.

2. The Bank will pay to the Contractor the sum of Rs. ____________
(Rupees ________________ ________________) [hereinafter called the contract sum] or
such other sum as shall become payable hereunder at the times and in the manner specified in the said
conditions. However, the actual sum will be paid on the actual value of work done, irrespective of the contract
sum.

3. The plans, agreement and documents above mentioned shall form the basis of this contract and all disputes to
be decided in the manner prescribed in the conditions attached hereto.

4. The said contract comprises the interior redesign works as above mentioned, and all subsidiary works connected
therewith within the same site as may be ordered to be done from time to time by the said Bank even though
said works may not be shown on the drawings or described in the said specifications or the priced schedule of
quantities.

5. Notwithstanding what are stated in the special condition, conditions of contract and herein before stated the
Bank reserves to himself the right to alter the drawings and nature of the work and of adding to or omitting any
items of works from or of having portions of the same carried out departmentally or otherwise and such
alterations or variations shall be carried out without prejudice to this contract.

6. The said conditions shall be read and be treated as forming part of this agreement and the parties hereto will
respectively be bound thereby and to abide by and submit themselves to the conditions and stipulations and
perform the same on their parts to be respectively observed and preferred.

7. Any dispute arising under this agreement shall be referred to the arbitration of a sole arbitrator appointed with
consent of the Bank and the contractor as indicated in the Article of the general conditions. The award of the
arbitrator shall be final and binding on both parties.

IN WITNESS WHEREOF, the parties hereto have executed these presents the day and year first herein above written.

1.6 ‘Drawings’ shall mean the drawings prepared by the employer and issued by the Engineer and referred to in the specifications and any modifications of such drawings as may be issued by the Engineer from time to time 1

1.7 ‘Contract value’ shall mean the value of the entire work as stipulated in the letter of acceptance of tender subject to such additions thereto or deductions there from as may be made under the provision herein after contained.

1.8 ‘Specifications’ shall mean the specifications referred to in the tender and any modifications thereof as may time to time be furnished or approved by the employer.

1.9 “Month” means calendar month.

1.10“Week” means seven consecutive days.

1.11“Day” means a calendar day beginning and ending at 00 Hrs and 24 hrs respectively.

2.0 Language
The language in which the contract documents shall be drawn shall be in English. All communications by employer & Contractor will be in English

3.0 Errors, Omissions and Discrepancies
In case of errors, omissions and/or disagreement between written and scaled dimensions on the drawings or between the drawings and specifications etc, the following order shall apply.

i) Between scaled and written dimension (or description) on a drawing, the latter shall be adopted.

ii) Between the written or shown description or dimensions in the drawings and the corresponding one in the specification the farmer shall be taken as correct.

iii) Between written description of the item in the specifications and descriptions in bills of quantities of the same item, the latter shall be adopted.

iv) In case of difference between rates written in figures and words, the rate in words shall prevail.

v) Between the duplicate/subsequent copies of the tender, the original tender shall be taken as correct.

4.0 Scope of Work
The contractor shall carry out, complete and maintain the said work in every respect strictly in accordance with this contract and with the directions of and to the satisfaction of the Employer

5.0 Letter of Acceptance
Within the validity period of the tender the Employer will issue a letter of acceptance by registered post or otherwise depositing at the address of the contractor as given in the tender to enter into a Contract for the execution of the work as per the terms of the tender. The letter of acceptance shall constitute a binding contract between the Employer and the contractor.

SBIIMS/PHY
5.1 Contract Agreement: On receipt of intimation of the acceptance of tender from the Employer the successful tenderer shall be bound to implement the contract and within seven days thereof he shall sign an agreement in a non-judicial stamp paper of appropriate value.

6.0 Ownership of drawings:
All drawings, specifications and copies thereof furnished by the SBII/MS through its EICs/ Consultants are the properties of the SBI. They are not to be used on other work.

6.1 Detailed drawings and instructions: The SBII/MS through its EICs/ Consultants shall furnish with responsible promptness additional instructions by means of drawings or otherwise necessary for the proper execution of the work. All such drawings and instructions shall be consistent with the contract documents, true developments thereof and reasonably inferable therefrom.

The work shall be executed in conformity therewith and the contractor is to prepare a detailed program schedule including therein the date of start and completion of various activities on receipt of the work order and submit the same to the SBII/MS through the EIC/ Consultant.

7.0 Copies of Agreement
Two copies of agreement/tender document duly signed by both the parties with the drawings shall be handed over to the contractors.

8.0 Liquidated Damages
If the contractor fails to complete the work and clear the site including vacating their office on or before the contracted or extended date or completion without justification in support of the cause of delay, he may be called upon without prejudice to any other right of remedy available under the law to the SBI on account of such breach to pay a liquidated damages at the rate of 0.5% of the contract value per week subject to a maximum of 5% of the contract value.

9.0 Materials, Appliances and Employees
Unless or otherwise specified the contractor shall provide and pay for all materials, labour, water, power, tools, equipment transportation and any other facilities that are required for the satisfactory execution and completion of the work. Unless or otherwise specified all materials shall be new and both workmanship and materials shall be best quality. The contractor shall at all times enforce strict discipline and good order among his employees and shall not employ on the work any unfit person or any not one skilled in the work assigned to him. Workman whose work or behaviour is found to be unsatisfactory by the SBII/MS/ EIC/ consultant he shall be removed from the site immediately.

10.0 Permits, Laws and Regulations
Permits and license required for the execution of the work shall be obtained by the contractor at his own expenses. The contractor shall give notices and comply with the regulations, laws, and ordinances rules, applicable to the contract. If the contractor observes any discrepancy between the drawings and specifications, he shall promptly notify the SBII/MS in writing under intimation of the EIC/ Consultant. If the contractor performs any act which is against the law, rules and regulations he shall meet all the costs arising there from and shall indemnify the SBI any legal actions arising there from.

11.0 Setting out Work
The contractor shall set out the work and shall be responsible for the true and perfect setting out of the same and for the correctness of the positions, levels, dimensions, and alignment of all parts thereof and get it approved by the bank before proceeding with the work. If at any time any error in this respect shall appear during the progress of the works, irrespective of the fact that the layout had been approved by the bank the contractor shall be responsible for the same and shall at his own expenses rectify such error, if so, required to satisfaction of the SBI.

12.0 Protection of works and property
The contractor shall continuously maintain adequate protection. Of all his work from damage and shall protect the SBI’s properties from injury or loss arising in connection with contract. He shall make good any such damage, injury, loss, except due to causes beyond his control and due to his fault or negligence.

He shall take adequate care and steps for protection of the adjacent properties. The contractor shall take all precautions for safety and protections of his employees on the work and shall comply with all applicable provisions of Govt. and local bodies safety laws and building codes to prevent accidents, or injuries to persons or property on, about or adjacent to his place of work. The contractor shall take insurance covers as per clause 25.0 at his own cost. The policy may be taken in joint names of the contractor and the SBI and the original policy may be lodged with the SBI.

13.0 Inspection of work:
The SBII/MS/ EIC/ Consultant or their representative shall at all times have access to the work site and / or to the workshop, factories, or other places where materials are lying or from where they are obtained and the contractor shall give every facility to the SBII/MS, EIC/ consultant and their representatives necessary for inspection and examination and test of the materials and workmanship. No person unless authorized by the SBII/MS /EIC/consultant and their representatives necessary for inspection and examination and test of the materials and workmanship. No person unless authorized by the SBII/MS/EIC/consultant except the representative of public authorities shall be allowed on the work at any time. The
proposed work either during its construction stage or its completion can also be inspected by the Chief Technical Examiner’s organization, a wing of central Vigilance commission.

14.0 Assignment and subletting
The whole of work included in the contract shall be executed by the contractor and he shall not directly entrust and engage or indirectly transfer assign or underlet the contract or any part or share thereof or interest therein without the written consent of the Employer and no undertaking shall relieve the contractor from the responsibility of the contractor from active superintendence of the work during its progress.

15.0 Quality of Materials, Workmanship & Test
All materials and workmanship shall be best of the respective kinds described in the contract and in accordance with EIC/consultant instructions and shall be subject from time to time to such tests as the EIC/consultant may direct at the place of manufacture or fabrication or on the site or an approved testing laboratory. The contractor shall provide such assistance, instruments, machinery, labour and materials as are normally required for examining measuring sampling and testing any material or part of work before incorporation in the work for testing as may be selected and required by the EIC/consultant.

i) Samples: All samples of adequate number, size, shades & pattern as per specifications shall be supplied by the contractor without any extra charges. If certain items proposed to be used are of such nature the samples cannot be presented or prepared at the site detailed literature/ test certificate of the same shall be provided to the satisfaction of the EIC/consultant. Before submitting the sample/literature the contractor shall satisfy himself that the material/equipment for which he is submitting the sample/literature meet with the requirement of tender specification. Only when the samples are approved in writing by the EIC/consultant shall proceed with the procurement and installation of the particular material/equipment. The approved samples shall be sign by the EIC/consultant for identification and shall be kept record at site office until the completion of the work for inspection/ comparison at any time. The EIC/consultant shall take reasonable time to approve the sample. Any delay that might occur in approving the samples for reasons of its not meeting the specifications or other discrepancies inadequacy in furnishing samples of best qualities from various manufacturers and such other aspects causing delay on the approval of the materials/equipment etc. shall be to the account of the contractor.

ii) Cost of tests: Test provided for in the specifications or BOQ:
   a) The cost of making any test shall be borne by the contractor
   b) Test not provided for in the specifications of BOQ : if any test is ordered by the EIC/consultant which is either to be carried out by an independent person at any place other than the site or the place of manufacture or fabrication of the materials tested or any Government/ approved laboratory, then the cost of such test shall be borne by the contractor.

16.0 Obtaining Information related to execution of work
No claim by the contractor for additional payment shall be entertained which is consequent upon failure on his part to obtain correct information as to any matter affecting the execution of the work nor any misunderstanding or the obtaining incorrect information or the failure to obtain correct information relieve him from any risks or from the entire responsibility for the fulfilment of contract.

17.0 Contractor’s superintendence
The contractor shall give necessary personal superintendence during the execution of the works and as long, thereafter, as the Employer may consider necessary until the expiry of the defects liability period, stated hereto.

18.0 Quantities

i) The bill of quantities (BOQ) unless or otherwise stated shall be deemed to have been prepared in accordance with the Indian Standard Method of Measurements and quantities. The rate quoted shall remain valid for variation of quantity against individual item to any extent subject to maximum variation of the contract value by 25%. The entire amount paid under Clause 20 hereof as well as amounts of prime cost and provisional sums, if any, shall be excluded.

ii) Variation exceeding 25%: The items of work executed in relation to variation exceeding 25% shall be paid on the basis of provisions of clause 21(e) hereof.

19.0 Works to be measured
The Employer may from time to time intimate to the contractor that he required the work to be measured and the contractor shall forthwith attend or send a qualified representative to assist the Employer in taking such measurements and calculation and to furnish all particulars or to give all assistance required by any of them. The representative of the Employer shall take joint measurements with the contractor’s representative and the measurements shall be entered in the measurement book. The contractor or his authorized representative shall sign all the pages of the measurement
book in which the measurements have been recorded in token of his acceptance. All authorized extra work, omissions and all variations made shall be included in such measurements.

20.0 Variations
No alteration, omission or variation ordered in writing by the Employer shall vitiate the contract. In case the Employer thinks proper at any time during the progress of works to make any alteration in, or additions to or omission from the works or any alteration in the kind or quality of the materials to be used therein, the Employer shall give notice thereof in writing to the contractor or shall confirm in writing within seven days of giving such oral instructions the contractor shall alter to, add to, or omit from as the case may be in accordance with such notice but the contractor shall not do any work extra to or make any alteration or additions to or omissions from the works or any deviation from any of the provisions of the contract, stipulations, specifications or contract drawings without previous consent in writing of the Employer and the value of such extra, alterations, additions or omissions shall in all cases be determined by the Employer and the same shall be added to or deducted from the contract value, as the case may be.

21.0 Valuation of Variations
No claim for an extra shall be allowed unless it shall have been executed under the authority of the Employer as herein mentioned. Any such extra is herein referred to as authorized extra and shall be made in accordance with the following provisions.

a) The net rates or prices in the contract shall determine the valuation of the extra work where such extra work is of similar character and executed under similar conditions as the work priced herein.

i) Rates for all items, wherever possible should be derived out of the rates given in the priced BOQ.

b) The net prices of the original tender shall determine the value of the items omitted, provided if omissions do not vary the conditions under which any remaining items of works are carried out, otherwise the prices for the same shall be valued under sub clause (c) hereunder.

c) Where the extra works are not of similar character and/or executed under similar conditions as aforesaid or where the omissions vary the conditions under which any remaining items or works are carried out, then the contractor shall within 7 days of the receipt of the letter of acceptance inform the Employer of the rate which he intends to charge for such items of work. duly supported by analysis of the rate or rates claimed and the Employer shall fix such rate or prices as in the circumstances in his opinion are reasonable and proper, based on the market rate.

d) Where extra work cannot be properly measured or valued the contractor shall be allowed day work prices at the net rates stated in the tender of the BOQ or, if not, so stated then in accordance with the local day work rates and wages for the district; provided that in either case, vouchers specifying the daily time (and if required by the Employer) the workman’s name and materials employed be delivered for verifications to the Employer at or before the end of the week following that in which the work has been executed.

e) It is further clarified that for all such authorized extra items where rates cannot be derived from the tender, the contractor shall submit rates duly supported by rate analysis worked on the “market rate basis” for material, labor, hire/running charges of equipment and wastages etc plus 15% towards establishment charges, contractor's overheads and profit. Such items shall not be eligible for escalation.

22.0 Final Measurement
The measurement and valuation in respect of the contract shall be completed within six months of the virtual completion of the work.

23.0 Virtual Completion Certificate (VCC)
On successful completion of entire works covered by the contract to the full satisfaction of the Employer, the contractor shall ensure that the following works have been completed to the satisfaction of the Employer.

a) Clear the site of all scaffolding, wiring, pipes, surplus materials, contractor’s labour, equipment and machinery.

b) Demolish, dismantle and remove the contractor’s site office, temporary works, structures including labor sheds/camps and constructions and other items and things whatsoever brought upon or erected at the site or any land allotted to the contractor by the SBI and not incorporated in the permanent works.

c) Remove all rubbish, debris etc from the site and the land allotted to the contractor by the Employer and shall clear, level and dress, compact the site as required by the Employer.

d) Shall put the Employer in undisputed custody and possession of the site and all land allotted by the Employer.

e) Shall hand over the work in a peaceful manner to the Employer.
23.1 Upon the satisfactory fulfilment by the contractor as stated above, the contractor shall be entitled to apply to the Employer for the certificate. If the Employer is satisfied of the completion of the work, relative to which the completion certificate has been sought, the Employer shall within fourteen (14) days of the receipt of the application for virtual completion certificate, issue a VCC in respect of the work for which the VCC has been applied.

23.2 This issuance of a VCC shall be without prejudice to the SBI’s rights and contractor’s liabilities under the contract including the contractor’s liability for defects liability period nor shall the issuance of VCC in respect of the works or work at any site be construed as a waiver of any right or claim of the SBI against the contractor in respect of works or work at the site and in respect of which the VCC has been issued.

24.0 Work by other agencies

The SBIIMS/ EIC consultant reserves the rights to use premises and any portion of the site for execution of any work not included in the scope of this contract which it may desire to have carried out by other persons simultaneously and the contractor shall not allow but also extend reasonable facilities for the execution of such work. The contractor however shall not be provided any plant or material for the execution of such work except by special arrangement with the SBIIMS. Such work shall be carried out in such manner as not to impede the progress of the works included in the contract.

25.0 Insurance of Works

Contractor will have to obtain the following insurance covers for the full tenure of the work to cover risks detailed in the following para clauses:

i) Contractor’s All Risk Policy including third party compensation as detailed below.

ii) Workmen Compensation Policy.

25.1 Without limiting his obligations and responsibilities under the contract the contractor shall insure in the joint names of the Employer and the contractor against all loss or damages from whatever cause arising other than the excepted risks, for which he is responsible under the terms of contract and in such a manner that the Employer and contractor are covered for the period stipulated in clause 28 of GCC and are also covered during the period of maintenance for loss or damage arising from a cause, occurring prior to the commencement of the period of maintenance and for any loss or damage occasioned by the contractor in the course of any operations carried out by him for the purpose of complying with his obligations under clause.

a) The works for the time being executed to the estimated current Contract value thereof, or such additional sum as may be specified together with the materials for incorporation in the works at their replacement value.

b) The constructional plant and other things brought on to the site by the contractor to the replacement value of such constructional plant and other things.

c) Such insurance shall be effected with an insurer and in terms approved by the Employer which approval shall not be unreasonably withheld and the contractor shall whenever required produce to the Employer the policy of insurance and the receipts for payment of the current premiums.

25.2 Damage to persons and property: The contractor shall, except if and so far as the contract provides otherwise indemnify the Employer against all losses and claims in respect of injuries or damages to any person or material or physical damage to any property whatsoever which may arise out of or in consequence of the execution and maintenance of the works and against all claims proceedings, damages, costs, charges and expenses whatsoever in respect of or in relation thereto except any compensation of damages for or with respect to:

a) The permanent use or occupation of land by or any part thereof.

b) The right of Employer to execute the works or any part thereof, on, over, under, in or through any lands.

c) Injuries or damages to persons or properties which are unavoidable result of the execution or maintenance of the works in accordance with the contract.

d) Injuries or damage to persons or property resulting from any act or neglect of the Employer, their agents, employees or other contractors not being employed by the contractor or in respect of any claims, proceedings, damages, costs, charges and expenses in respect thereof or in relation thereto where the injury or damage was contributed to by the contractor, his servants or agents such part of the compensation as may be just and equitable having regard to the extent of the responsibility of the Employer, their employees, or agents or other employees, or agents or other contractors for the damage or injury.
25.3 Contractor to indemnify Employer: The contractor shall indemnify the Employer against all claims, proceedings, damages, costs, charges and expenses in respect of the matters referred to in the provision sub-clause of this clause.

25.4 The contractor shall fully indemnify and keep indemnified the Employer against any action, claim, or proceeding relating to infringement or use of any patent or design or any alleged patent or design rights and shall pay any royalties which may be payable in respect of any article or part thereof included in the contract. In the event of any claim made under or action brought against Employer in respect of such matters as aforesaid the contractor shall be immediately notified thereof and the contractor shall be at liberty, at his own expenses to settle any dispute or to conduct any litigation that may arise there from, provided that the contractor shall not be liable to indemnify the Employer if the infringement of the patent or design or any alleged patent or design right is the direct result of an order passed by the Consultant in this behalf.

25.5 Third Party Insurance

25.5.1 Before commencing the execution of the work the contractor but without limiting his obligations and responsibilities under clause 26.0 of GCC shall insure against his liability for any material or physical damage, loss, or injury which may occur to any property including that of SBI, or to any person, including any employee of the SBI, by or arising out of the execution of the works or in the carrying out of the contract, otherwise than due to the matters referred to in the provision to clause 26.0 thereof.

25.5.2 Minimum Amount of Third Party Insurance

Such insurance shall be affected with an insurer and in terms approved by the SBI which approval shall not be reasonably withheld and for at least the amount stated below. The contractor shall, whenever required, produce to the SBI/Consultant the policy or policies of insurance cover and receipts for payment of the current premiums.

25.5.3 The minimum insurance cover for physical property, injury, and death is Rs.5.0 lacs per occurrence with the number of occurrences limited to four. After each occurrence contractor will pay additional premium necessary to make insurance valid for four occurrences always.

25.6 Accident or Injury to Workmen

25.6.1 The Employer shall not be liable for or in respect of any damages or compensation payable at law in respect or in consequence of any accident or injury to any workmen or other person in the employment of the contractor or any sub-contractor, save and except an accident or injury resulting from any act or default of the Employer or their agents, or employees. The contractor shall indemnify and keep indemnified Employer against all such damages and compensation, save and except as aforesaid and against all claims, proceedings, costs, charges and expenses whatsoever in respect thereof or in relation thereto.

25.6.2. Insurance against accidents etc to workmen: The contractor shall insure against such liability with an insurer approved by the Employer during the whole of the time any person employed by him on the works and shall, when required, produce to the Employer such policy of insurance and receipt for payment of the current premium. Provided always that, in respect of any persons employed by any sub-contractor the contractor’s obligation to insure as aforesaid under this sub-clause shall be satisfied if the sub-contractor shall have insured against the liability in respect of such persons in such manner that Employer is indemnified under the policy but the contractor shall require such sub-contractor to produce to the Employer when required such policy of insurance and the receipt for the payment of the current premium.

25.6.3 Remedy on Contractor’s failure to insure: If the contractor fails to effect and keep in force the insurance referred to above or any other insurance which he may be required to effect under the terms of contract, then and in any such case the Employer may effect and keep in force any such insurance and pay such premium or premiums as may be necessary for that purpose and from time to time deduct the amount so paid by the Employer as aforesaid from any amount due or which may become due to the contractor, or recover the same as debt from the contractor.

25.6.4. Without prejudice to the other rights of the Employer against contractors, in respect of such default, the employer shall be entitled to deduct from any sums payable to the contractor the amount of any damages costs, charges, and other expenses paid by the Employer and which are payable by the contractors under this clause. The contractor shall upon settlement by the insurer of any claim made against the insurer pursuant to a policy taken under this clause, proceed with due diligence to rebuild or repair the works destroyed or damaged. In this event all the monies received from the insurer in respect of such damage shall be paid to the contractor and the contractor shall not be entitled to any further payment in respect of the expenditure incurred for rebuilding or repairing of the materials or goods destroyed or damaged.

26.0 Commencement of Works

The date of commencement of the work will be reckoned as the recorded date of handing over site or 10 days from the date of issue of letter of acceptance of the tender by the Employer whichever is later.
27.0 Time for completion

Time is the essence of the contract and shall be strictly observed by the contractor. The entire work shall be completed within a period of 120 days from the date of commencement. If required in the contract or as directed by the Employer, the contractor shall complete certain portions of work before completion of the entire work. However the completion date shall be reckoned as the date by which the whole work is completed as per the terms of the contract.

28.0 Extension of Time

If, in the opinion of the Employer, the work be delayed for reasons beyond the control of the contractor, Bank to grant a fair and reasonable extension of time for completion of work as per the terms of contract. If the contractor needs an extension of time for the completion of work or if the completion of work is likely to be delayed for any reasons beyond the due date of completion as stipulated in the contract, the contractor shall apply to the Employer in writing immediately and while applying for extension of time he shall furnish the reasons in detail and his justification if any, for the delays. While granting extension of time the contractor shall be informed the period extended time which will qualify for levy of liquidated damages. For the balance period in excess of original stipulated period and duly sanctioned extension of time by the Employer the provision of liquidated damages as stated under clause 8 of GCC shall become applicable.

29.0 Rate of progress

Whole of the materials, plant and labour to be provided be the contractor and the mode, manner and speed of execution and maintenance of the works are to be of kind and conducted in a manner to the satisfaction of the BIC/consultant /SBIIMS should the rate of progress of the work or any part thereof be at any time be in the opinion of the BIC/consultant too slow to ensure the completion of the whole of the work by the prescribed time for completion the BIC/consultant /SBIIMS shall thereupon take such steps as considered necessary by the BIC/consultant to expedite progress so as to complete the works the works by the prescribed time or extended time. Such communications from the BIC/consultant /SBIIMS neither shall relieve the contractor from fulfilling obligations under the contract nor will he be entitled to raise any claims arising of such directions.

30.0 Work during night and holidays

Subject to any provision to the contrary contained in the contract no permanent work shall save as herein provided be carried on during the night or holidays without the permission in writing of BIC/consultant /SBIIMS, save when the work is unavoidable or absolutely necessary for the saving of life of property or for the safety of the work in which case the contractor shall immediately advice the BIC/consultant. However the provisions of the clause shall not be applicable in the case of any work which becomes essential to carry by rotary or double shifts in order to achieve the progress and quality of the part of the works being technically required/ continued with the prior approval of the BIC/consultant/SBIIMS at no extra cost to the SBI.

All work at night after obtaining approval from competent authorities shall be carried out without unreasonable noise and disturbance.

31.0 No compensation for restrictions of work

If at any time after acceptance of the tender SBIIMS shall decide to abandon or reduce the scope of work for any reason whatsoever and hence not required the whole or any work to be carried out. The BIC/consultant shall give notice in writing to that effect to the contractor and the contractor shall act accordingly. In the matter, the Contractor shall have no claim to any payment of compensation or otherwise whatsoever, on account of any profit or advantage which he might have derived from the execution of the work fully but which he did not derive in consequence of the foeclosure of the whole or part of the work.

Provided that the contractor shall be paid the charges on the cartage only of materials actually and bonafide brought to the site of the work by the contractor and rendered surplus as a result of the abandonment, curtailment of the work or any portion thereof and then taken back by the contractor, provided however that the BIC/Consultant shall have in such cases the option of taking over all or any such materials at their purchase price or a local current rate whichever is less.

In case of such stores having been issued from SBIIMS stores and returned by the contractor to stores, credit shall be given to him at the rates not exceeding those at which were originally issued to the contractor after taking into considerations and deduction for claims on account of any deterioration or damage while in the custody of the contractor and in his respect the decision of BIC/consultant/SBIIMS shall be final.

32.0 Suspension of work

i) The contractor shall, on receipt of the order in writing of the SBI (whose decision shall be final and binding on the contractor) suspend the progress of works or any part thereof for such time and in such manner as SBI may consider necessary so as not cause any damage or injury to the work already done or endanger the safety thereof for any of following reasons.

   a) On account any default on the part of the contractor, or
   b) For proper execution of the works or part thereof for reasons other than the default of the contractor, or
   c) For safety of the works or part thereof.
The contractor shall, during such suspension, properly protect and secure the works to the extent necessary and carry out the instructions given in that behalf by the Consultant.

ii) If the suspension is ordered for reasons (b) and (c) in sub-para (i) above:

The contractor shall be entitled to an extension of time equal to the period of every such suspension. No compensation whatsoever shall be paid on this account.

33.0 Action when the whole security deposit is forfeited

In any case in which under any clause or clauses of this contract, the Contractor shall have rendered himself liable to pay compensation amounting to the whole of his security deposit the Employer shall have the power to adopt any of the following course as they may deem best suited to the interest of the SBIIMS.

a) To rescind the contract (of which rescission notice in writing to the contractor by the Employer shall be conclusive evidence) and in which case the security deposit of the contractor shall be forfeited and be absolutely at the disposal of Employee.

b) To employ labour paid by the Employer and to supply materials to carry out the work, or any part of the work, debiting the contractor with the cost of the labor and materials (the cost of such labor and materials as worked out by the Employer shall be final and conclusive against the contractor) and crediting him with the value of the work done, in all respects in the same manner and at the same rates as if it had been carried out by the contractor under the terms of this contract the certificate of Employer as to the value of work done shall be final and conclusive against the contractor.

c) To measure up the work of the contractor, and to take such part thereof as shall be unexecuted, out of his hands, and to give it to another contractor to complete in which case any expenses which may be incurred in excess of the sum which would have been paid to the original contractor, if the whole work had been executed by him (of the amount of which excess the certificates in writing of the Employer shall be final and conclusive) shall be borne by original contractor and may be deducted from any money due to him by Employer under the contract or otherwise, or from his security deposit or the proceeds of sale thereof, or sufficient part thereof.

In the event of any of above courses being adopted by the Employer the contractor shall have no claim to compensation for any loss sustained by him by reasons of his having purchased or procured any material or entered into any engagements or make any advances on account of, or with a view to the execution of the work or the performance of the contract and in case the contract shall be rescinded under the provision aforesaid, the contractor shall not be entitled to recover or to be paid any sum or any work thereto for actually performed under this contract, unless, and until the Employer will have certified in writing that the Contractor has failed to commence the works, or has neglected or failed persistently to perform the acts, matters or things by this contract to be observed and performed by the contractor for seven days after written notice to him to do so, to show to the reasonable satisfaction of the Employer that he is able to carry out and fulfill the contract, and to give security therefore if so required by the Employer.

34.0 Bank's Right to Terminate the Contract

If the contractor being an individual or a firm commit any 'Act of Insolvency' or shall be adjusted an insolvent or being an incorporated company shall have an order for compulsory winding up voluntarily or subject to the supervision of Govt and of the Official Assignee of the liquidator in such acts of insolvency or winding up shall be unable within seven days after notice to him to do so, to show to the reasonable satisfaction of the Employer that he is able to carry out and fulfill the contract, and to give security therefore if so required by the Employer.

Or if the contractor (whether an individual firm or incorporated Company) shall suffer execution to be issued or shall suffer any payment under this contract to be attached by or on behalf of any of the creditors of the contractor.

Or shall assign or sublet this contract without the consent in writing of the Employer through the Consultant or shall charge or encumber this contract or any payment due to which may become due to the contractor there under.

a) Has abandoned the contract; or

b) Has failed to commence the works, or has without any lawful excuse under these conditions suspended the progress of the works for 14 days after receiving from the Employer written notice to proceed, or

c) Has failed to proceed with the works with such diligence and failed to make such due progress as would enable the works to be completed within the time agreed upon, or has failed to remove the materials from the site or to pull down and replace work within seven days after written notice from the Employer that the said materials were condemned and rejected by the Employer under these conditions; or has neglected or failed persistently to observe and perform all or any of the acts, matters or things by this contract to be observed and performed by the contractor for seven days after written notice shall have been given to the contractor to observe or perform the same or has to the detriment of good workmanship or in defiance of the Employer instructions to the contrary subject any part of the contract. Then and in any of said cases the Employer may not notwithstanding any previous waiver, after giving seven days notice in writing to the contractor, determine the contract, but without thereby affecting the powers of the Employer or the obligation and liabilities of the contractor the whole of which shall continue in force as fully as if the contract had not been so determined and as if the works subsequently had been executed by or on behalf of the contractor. And, further the Employer, their agents or
employees may enter upon and take possession of the work and all plants, tools, scaffolding, materials, sheds, machineries lying upon the premises or on the adjoining lands or roads, use the same by means of their own employees or workmen in carrying on and completing the work or by engaging any other contractors or persons to complete the work and the contractor shall not in any was interrupt or do any act, matter or thing to prevent or hinder such other contractor or other persons employed for completing and finishing or using the materials and plant for the works.

When the works shall be completed or as soon thereafter as convenient the Employer shall give a notice in writing to the contractor to remove his surplus materials and plants and should the contractor fail to do so within 14 days after receipt thereof by him the Employer sell the same by public auction after due publication and shall adjust the amount realized by such auction. The contractor shall have no right to question any of the act of the Employer incidental to the sale of the materials etc.

35.0 Settlement of Disputes and Arbitration

Except where otherwise provided in the contract all questions and disputes relating to the meaning of the specifications, design, drawings and instructions herein before mentioned and as to the quality of workmanship of materials used on the work or as to any other question, claim, right, matter or thing whatsoever in any way arising out of or relating to the contract, designs, drawings, specifications, estimates, instructions, orders or these conditions or otherwise concerning the work or the execution or failure to execute the same, whether arising during the progress of the work or after the cancellation, termination, completion or abandonment thereof shall be dealt with as mentioned hereinafter :

a) If the contractor considers that he is entitled to any extra payment or compensation in respect of the works over and above the amounts admitted as payable by the EIC or in case the contractor wants to dispute the validity of any deductions or recoveries made or proposed to be made from the contract or raise any dispute, the Contractor shall forthwith give notice in writing of his claim, or dispute to the Circle Head, SBIIMS, Circle Office, Guwahati and endorse a copy of the same to the EIC, within 30 days from the date of disallowance thereof or the date of deduction or recovery. The said notice shall give full particulars of the claim, grounds on which it is based and detailed calculations of the amount claimed and the contractor shall not be entitled to raise any claim nor shall the Bank be in any way liable in respect of any claim by the contractor unless notice of such claim shall have been given by the contractor to the Circle Head, SBIIMS, Circle Office, Guwahati in the manner and within the time as aforesaid. The contractor shall be deemed to have waived and extinguished all his rights in respect of any claim not notified to the Circle Head, SBIIMS, Circle Office, Guwahati in writing in the manner and within the time aforesaid.

b) Circle Head, SBIIMS, Circle Office, Guwahati shall give his decision in writing on the claims notified by the contractor. The contractor may within 30 days of the receipt of the decision of the Circle Head, SBIIMS, Circle Office, Guwahati submit his claims to the conciliating authority namely the Circle Development Officer for conciliation along with all details and copies of correspondence exchanged between him and the Circle Head, SBIIMS, Circle Office, Guwahati.

c) If the conciliation proceedings are terminated without settlement of the disputes, the contractor shall, within a period of 30 days of termination thereof give a notice to the concerned Chief General Manager of SBI LHO, Guwahati for appointment of an arbitrator to adjudicate the notified claims failing which the claims of the contractor shall be deemed to have been considered absolutely barred and waived.

d) Except where the decision has become final, binding and conclusive in terms of the contract, all disputes or differences arising out of the notified claims of the contractor as aforesaid and all claims of the Bank shall be referred for adjudication through arbitration by the Sole Arbitrator appointed by the Chief General Manager.

e) Also, there will be no objection to any such appointment that the Arbitrator so appointed is a Bank Officer and that he has to deal with the matters to which the Contract relates in the course of his duties as Bank Officer, if the arbitrator so appointed is unable or unwilling to act or resigns his appointment or vacates his office due to any reason whatsoever another sole arbitrator shall be appointed in the manner aforesaid by the said Chief General Manager. Such person shall be entitled to proceed with the reference from the stage at which it was left by his predecessor.

f) It is a term of this contract that the party invoking arbitration shall give a list of disputes with amounts claimed in respect of each dispute along with the notice for appointment of arbitrator.

g) It is a term of this contract that the party invoking arbitration shall give a list of disputes with amounts claimed in respect of each dispute along with the notice for appointment of arbitrator.

h) It is also a term of this contract that no person other than a person appointed by such Chief General Manager aforesaid should act as arbitrator. The conciliation and arbitration shall be conducted in accordance with the provisions of the Arbitration & Conciliation Act 1996 or any statutory modification or re-enactment thereof and the rules made there under.
i) It is also a term of the contract that if any fees are payable to the arbitrator these shall be paid equally by both
the parties. However, no fees will be payable to the arbitrator if he is a Bank Officer.

j) It is also a term of the contract that the arbitrator shall be deemed to have entered on the reference on the
date he issues notice to both the parties calling them to submit their statement of claims and counter statement
of claims. The venue of the arbitration shall be such place as may be fixed by the arbitrator in his sole discretion.
The fees if any, of the arbitrator shall, if required to be paid before the award is made and published, be paid
half and half by each of the parties. The cost of the reference and of the award (including the fees, if any of the
arbitrator) shall be in the discretion of the arbitrator who may direct to any by whom and in what manner, such
costs or any part thereof shall be paid and fix or settle the amount of costs to be so paid.

36.0 Certificate of Payment
The contractor shall be entitled under the certificates to be issued by the EIC/ Consultant/SBIIMS to the contractor within
10 working days from the date of certificate to the payment from SBI from time to time. The SBI shall recover the statutory
recoveries and other dues including the retention amount from the certificate of payment. Provided always that the
issue of any certificate by the EIC/Consultant during the progress of works or completion shall not have effect as
certificate of satisfaction or relieve the contractor from his liability under clause. The EIC/Consultant shall have power to
withhold the certificate if the work or any part thereof is not carried out to their satisfaction. The EIC/Consultant may by
any certificate make any corrections required in previous certificate. The SBIIMS shall modify the certificate of payment
as issued by the EIC/Consultant from time to time while making the payment. The contractor shall submit interim bills only
after taking actual measurements and properly recorded in the Measurement book (M.B). The contractor shall not submit interim bills when the approximate value of work done by him is less than 25,00,000.00 (Twenty Five Lakh) only and the minimum interval between two such bills shall be one month. The final bill may be submitted by contractor within a
period of one month from the date of virtual completion and EIC/Consultant shall issue the certificate of payment within
a period of two months. The SBI shall pay the amount within a period of three months from the date of issue of certificate
provided there is no dispute in respect of rates and quantities.

37.0 Water Supply
The contractor shall make his arrangements for water required for the work and nothing extra will be paid for the same.
This will be subject to the following conditions:

i) That the water used by the contractor shall be fit for construction purpose to satisfaction of the EIC/ consultant.

Wherever provision for submission of a guarantee has been advised, the same shall be submitted from the specialized agency along with a counter guarantee by the main contractor engaged for the work. The guarantee shall be furnished on a non-judicial stamp paper of appropriate value. If the contractor is required to submit guarantee/ guarantees for any items for a period of more than 12 months, the guarantee/ guarantees in case of those items shall remain valid even expiry of the defects liability period of 12 months as stipulated in the contract.

31.0 Safety Measures at Site
All personnel at site should be provided with Helmets and Safety Boots with some Identification Mark. Visitors also should be provided with Helmets. It should be ensured that these are used properly.

1. First Aid Box should be kept at site with all requisite materials.
2. No one should be allowed to inspect / work at a height without Safety Belt.
3. Suitable scaffolds should be provided for workmen for all Works that cannot safely be done from the ground, or from solid construction except such short period Work as can be done safely from ladders. When a ladder is used an extra Mazdoor shall be engaged for holding the ladder and if the ladder is used for carrying materials as well as suitable footholds and handholds shall be provided on the ladder and the ladder shall be given an inclination not steeper than 1/4 to 1 (1/4 horizontal and 1 vertical).
4. Scaffolding or staging more than 3.5 meters above the ground or floors, swung or suspended from an overhead support or erected with stationary support shall have a guard rail properly attached, bolted, braced and otherwise secured at least 1 Meter high above the floor or platform of such scaffolding or staging and extending along the entire length of the outside and ends thereof with only such openings as may be necessary for the delivery of materials. Such scaffolding or staging shall be so fastened as to prevent it from swaying from the building or structure.
5. Working platforms, Gangways, and Stairways should be so constructed that they do not sag unduly or unequally, and if the height of the platform or the Gangway or the Stairway is more than 3-5 Meters above ground level or floor level they should be closely boarded, should have adequate width and should be suitably fenced, as described.
6. Every opening in the floor of a building or in a working platform be provided with suitable means to prevent the fall of persons or materials by providing suitable fencing or railing whose minimum height shall be 1 Meter.
7. Safe means of access shall be provided to all working platforms and other working places. Every ladder shall be securely fixed. No portable single ladder shall be over 9 Meters in length while the width between side rails in rung ladder shall in no case be less than 30cms for ladder upto and including Meters in length. For longer ladders this width should be increased at least 6mm for each additional 30 cms. Uniform step spacing shall not exceed 30cms.
8. Adequate precautions shall be taken to prevent danger from electrical equipments. For electrical on line works gloves, rubber mats, and rubber shoes shall be used.
9. All trenches 1.2 Meters or more in depth shall at all times be supplied with at least one ladder for each 30 Meters length, or fraction thereof. Ladder shall be extended from bottom of the trench to at least 1 Meter above the surface of the ground. The sides of the trenches, which are 1.5 Meters or more in depth shall be stepped back to give suitable slope, or securely held by timber bracing, so as to avoid the danger of sides collapsing. The excavated materials shall not be placed within 1.5 Meters of the edge of the trench or half of the depth of the trench whichever is more cuttings shall be done from top to bottom. Under no circumstances undermining or under cutting shall be done.
10. Before any demolition work is commenced and also during the process of the work:
   a) All roads and open areas adjacent to the Work Site shall either be closed or suitably protected;
   b) No electrical cable or apparatus which is liable to be a source of danger over a cable or apparatus used by the operator shall remain electrically charged.
11. Use of hoisting machines and tackle including their attachments, anchorage and support shall conform to the following standard or conditions:-

a) These shall be of good mechanical construction, sound material and adequate strength and free from patent defect and shall be kept in good repairs and in good working order.

b) Every rope used in hoisting or lowering materials or as a means of suspension shall be of durable quality and adequate strength, and free from patent defects.

c) Every crane driver or hoisting appliance operator shall be properly qualified and no person under the age of 21 years should be in-charge of any hoisting machine including any scaffold, winch or give signals to the operator.

d) In case of every hoisting machine and of every chain ring hook, shackle swivel and pulley block used in hoisting or lowering or as means of suspension the safe working load shall be ascertain by adequate means.

e) Every hoisting machine and all gear referred to above shall be plainly marked with the safe working load. In case of hoisting machine having a variable safe working load, each safe working load of the conditions under which it is applicable shall be clearly indicated. No part of any machine or of any gear referred to above in this paragraph shall be loaded beyond the safe working load except for the purpose of testing.

f) Motor, Gearing, Transmission, Electric wiring and other dangerous parts of hoisting appliances should be provided with efficient safeguards, hoisting appliances should be provided with such means as will reduce to the minimum the risk of accidental descent of the load, adequate precautions should be taken to reduce to the minimum the risk of any part of a suspended load becoming accidentally displaced.

g) When workers are employed on electrical installation, which are already energized, insulating mats, wearing apparel such as gloves, sleeves, and boots as may be necessary should be provided. The workers should not wear any rings, watches and carry keys or other materials, which are good conductors of electricity.

12. All scaffolds, ladders and other safety devices, mentioned or described herein shall be maintained in safe condition and no scaffold, ladder or equipment shall be altered or removed while it is in use. Adequate washing facilities shall be provided at or near places of work.

3.2 Fire Safety Measure

Cutting / drilling machine and other electrically operated equipment used at site shall be plugged into correctly rated electrical outlets.

1. Only ISI marked 3 pin plug and other appliances and equipment shall be used.

2. Electrical power cables/wires used shall not have any joints and shall be properly rated.

3. All electrical appliances i.e. welding, drilling, cutting machine etc. shall be safely and securely earthed to prevent leakage current while in operation.

4. Before commencing the welding work, fire section shall be informed and required precautions should be taken.

5. Two buckets of water, sand and a fire cloth of suitable size shall be kept in an easily accessible area on the site.

6. Fire extinguishers recommended by fire officers shall be kept on the site.

7. Used paint drums shall be stored in specified store only after closing them properly.

8. Personal protective equipment such as safety shoes, hand gloves, welder’s mask, ear plug etc. depending upon the requirement of the work shall be provided by the contractor to the workmen to prevent occupational health hazards.

9. The safety belt shall be provided by the contractor and used by the workmen while working from height for more than 10 Mtr. from Ground level.

10. None of the passages near lift lobby and staircases shall be used for stacking / dumping any kind of materials/waste.

11. Any debris/ waste generated from the work shall be collected on daily basis, removed from site and stored at the designated place in proper manner.
12. Battery operated emergency light/torches shall be provided by the contractor to the workmen while working beyond office hours.

---

**RUNNING A/C BILL**

*(in MS Excel Format)*

1) **Name of contractor/Agency**:  
2) **Name of work**:  
3) **Sr. No. of this bill**:  
4) **No. and date of previous bill**:  
5) **Reference to Agreement No.**:  
6) **Date of written order to commence**:  
7) **Date of completion as per agreement**:

**Note:**

1. If part rate is allowed for any item, it should be indicated with reasons for allowing such a rate.
2. If adhoc payment is made, it should be mentioned specially ...........................................Net value since Previous bill.
III. CERTIFICATE

The measurements on the basis of which the above entries for the running Bill No.……………………….. made have been taken jointly on ……………………………. and are recorded at pages ………………………….to …………………………………………..

…………. Of measurement book no./Sheets ……………………………………………………………..

Signature and date of Contractor

Signature and date of EIC’s representative

Signature and date of Engineer of SBIIMS

The work recorded in the above mentioned measurements has been done at the site satisfactory as per tender drawings, conditions and specifications.

BIC Site Engineer/Bank’s Engineer
IV – MEMORANDUM FOR PAYMENT

R. BILL NO ……………………

1. Total amount due since previous bill (D) (A+B) Rs.…………………..

2. PVA on account of escalation in price of steel cement and other materials and labour as detailed in separate statement enclose Rs.…………………..

3. Deductions:
   a. Secured Advance paid in the previous R.A. Rs.…………………..
   b. Retention money on value of works as per accepted tenders: up to date amount
      Less: Already recovered (-) Rs.…………………..
      Balance to be recovered Rs.…………………..
   c. Mobilization advance, if any
      i. Outstanding amount (Principal + Interest) as on date Rs.…………………..
      ii. To be recovered in this bill Rs.…………………..
      iii. Any other departmental material cost to be recovered as per contract, if any Rs.…………………..
      iv. Any other departmental service charges to be recovered if any, as per contract (Water, power etc.) Rs.…………………..
   Enclose statement Rs.…………………..

4. Total deduction as per contractor Rs.…………………..

5. Net amount payable as per Contract (E-F) Rs.…………………..

(Rupees……………………………………………………….) in words.

This bill amounting to ………………………………………………….(both figures and words) has been scrutinized by me after due test check of the measurement of works as required and as recommended for payment.

Dated Signature of Bank’s Engineer

In charge of the project

STATUTORY DEDUCTIONS:

1. Total amount due (E) Rs.…………………..

2. Less: Income Tax Payable Rs.…………………..

3. Net Payable Rs.…………………..

The figure in the Memorandum for Payment has been verified and the bill passed for payment Rs.………………………………………………. (Words and figures)

Date: Signature of Premises officer
Workmen’s Compensation

Remarks:
1. This only an ‘on –account’ payment and is not be interpreted either as approval of work, materials brought or affixed at site or for that matter approval of any sort.
2. The quantum of work done and materials delivered at site have been certified by ……………..
3. Should you wish to audit such work, kindly contract the undersigned and oblige.

Ref : 1 __________________________

2. E-tendering process dt. ……………………..
3. Our Offer No. dt. ……………………..

Dear Sir,

We confirm that we have quoted.

1. ______________________________

as our final lump sum prices during the e-tendering process conducted today.

The item wise detail rates are worked out as per clause no 33 of special condition of contract of tender terms and conditions and appended herewith.

Thanking you and looking forward to the valuable order from SBI.

Yours sincerely,

For __________________________

Name: __________________________
Company: _________________________
Date: ____________________________
Seal: ____________________________
1. MATERIALS;

1.1 GENERAL

All materials used in the work shall conform to the latest revision of the relevant Indian Standard Specification to the extent practicable. When a BIS Standard is mentioned, it shall mean the latest edition /issue of such Standard. Where no such specifications exist, they shall conform to the relevant British Standard and/or shall be of the best quality available in the market. Wherever IS certified materials & products are available, these alone shall be used. All materials shall be stored at site in accordance with IS: 4082-1977.

1.2 WATER:

Water used for cement concrete, cement mortar or plaster shall be clear and free from injurious amounts of deleterious materials. It shall not contain sulphur or an excess of acid, alkali or salt. In general, limitations given in IS : 456-2000 shall be adhered to.

1.3 COARSE AGGREGATE (Broken Stone):

1.3.1 All aggregate for concreting shall be of the best quality locally available as approved by the Engineer - in-charge (EIC). These shall be inert, hard, strong and durable crushed stone obtained from naturally occurring granite or quartzite from approved quarries. The shape of the stones shall be nearly cubical, and shall not be angular or flaked or rounded. The aggregate shall be washed and cleaned in fresh water before use in the work if so directed by the EIC.

1.3.2 Crushed river gravel may also be permitted if approved by the EIC.

1.3.3 The aggregate shall be described by its nominal size, which means the mesh size of the test sieve through 85% to 100% of the aggregate by weight shall pass.

1.3.4 Unless otherwise specified in the relevant item of work, the nominal size of the coarse aggregate used in different types of work shall be as follows:

- M - 25 grade ... 20 mm
- M - 20 grade ... 20 mm
- 1:1.53 mix. ... 20 mm
- M - 15 grade ... 20 mm
- 1:2:4 mix. ... 20 mm
- 1:3:6 mix ... 40 mm
- 1:4:8 mix. ... 40 mm
- 1:5:10 mix. ... 40 mm

1.4 FINE AGGREGATE (SAND)

1.4.1 The fine aggregate shall be the best quality locally available as approved by the EIC. The fine aggregate shall be natural river sand quarried from approved sand quarries. If the quantities of deleterious materials such as clay, silt, dust, mica particles etc. in the sand exceed the limits, specified in IS:383-1970, the aggregate shall be washed and cleaned in fresh water before use.

1.5 CEMENT

1.5.1 The cement shall normally conform to 33 Grade Ordinary Portland Cement of IS : 269-1989 or 43 Grade Ordinary Portland Cement conforming to IS:8112-1989 or Portland Pozzolana Cement (fly ash based or calcined clay based) conforming to IS:1489. The Contractor shall produce the certificate of the manufacturer certifying the quality of such cement. If the EIC feels it necessary, he may order requisite tests to be conducted at the Contractor's cost to ensure the quality of cement. However, Portland slag cement conforming to IS: 455-1989 may be allowed at the sole discretion of the EIC. The Contractor shall use such slag cement in such structural members as the BICs may determine and instruct, without any extra cost to the Owner.

1.5.2 The storing of cement at site shall be done carefully and according to sound engineering practice. The method of storage and the construction of godowns shall be approved by the EIC. If at any time he is of the opinion that the cement has been stored improperly and without due care, he may order necessary tests to be performed at the Contractor's cost to satisfy himself as to the quality of the cement before allowing the use of such cement in the works.

1.6 BRICKS:

1.6.1 All bricks shall be of the best quality locally available as approved by the EIC.

1.6.2 Bricks shall be of 225 * 113 * 75 mm size or 250 * 125 * 75 mm nominal size as specified in the item of work. Where no particular size is mentioned, prior approval of the size of bricks proposed to be used in the work shall be obtained from the BIC.
1.6.3  Bricks shall be well burnt, sound, hard with sharp edges, of uniform size and shape free from cracks, stones, or particles of lime and other defects. All bricks shall be kiln burnt and satisfy the following requirements:

(i) they shall give a clear metallic sound when struck,
(ii) they shall be of uniform colour and size,
(iii) they shall not be cracked, stratified or under-burnt or over-burnt,
(iv) the tolerance in dimensions shall be ± 12 mm in length, ± 6 mm in width and ± 3 mm in height.
(v) keys or frogs shall be formed on one of the larger sides, except in the case of machine extruded bricks where no frogs are required.
(vi) the increase in weight when soaked in water for 24 hours shall not be more than 20% of the dry weight of the brick,
(vii) the efflorescence rating shall not be more than slight.

1.6.4 Necessary tests shall be conducted at the Contractor's expense to ensure quality. In general, the bricks shall be the best quality locally available.

1.7 BRICK BALLAST:
Under-burnt bricks shall not be used for making brick ballast. These shall be made from lump ballast or batters. Ballast that is brittle & easily crushed under beaters shall not be used.

1.8 STEEL:

1.8.1 Steel reinforcement bars:

The reinforcement shall conform to the following specifications:

1. IS: 432-(Part 1)-1982 : Mild steel and medium tensile steel bars
2. IS: 1786-1979: Cold twisted bars (CTD bars) and thermo-mechanically treated (TMT) bars conforming to Grade Fe 415.
4. IS:2062-1992: Structural Steel Grade 'A'

Steel bars shall be of tested quality manufactured by reputed manufacturers. All reinforcement shall be clean and free from rust, loose mill scales, dust and coats of paints, oil or other coatings which may destroy or reduce bond.

1.8.2 Welded joints in reinforcement may be used by permission of the EICs, but in all cases of important connections tests shall be made to prove the strength of weld. Welding of reinforcement shall be done using high penetration electrodes of approved brand conforming to IS: 814(Part 1)-1974 or IS:814(Part 2)-1974 or IS:1395-1982 as applicable, in accordance with the provisions of IS:456-2000 (CI. 26.2.5.2).

1.8.3 Where steel is available in coils these shall be straightened out at Contractor's own cost. The EIC may order tensile tests to be carried out for ascertaining the quality of steel and the costs of this shall be borne by the Contractor.

1.8.4 Steel for other construction & structural work shall conform to IS: 226-1992, Grade ‘A’. They shall be straight in length free from twists and bends, clean and free from rust and mill scales.

1.9 TIMBER:

1.9.1 The timber shall be well seasoned, the best of its class, free from sap wood, shakes, knots, cracks and all defects. Seasoning shall be done in accordance with IS: 1141 - 1993 and the moisture content shall be in accordance with IS: 287-1993. Where, in the item, any particular timber is mentioned by name, the same species of timber shall be used. In case no such mention is made, any class - I timber specified by the EIC may be used. All timber shall be obtained only with the certificate, seal & imprint of the Forest Department of the State Government in view of the prevailing ban imposed by the Hon'ble Supreme Court of India in regard to freshly felled trees of any species for commercial usage.

1.9.2 The maximum moisture content permissible is 10-15 percent in case of members 50 mm and above in thickness, and 8-14 percent for members thinner than 50 mm.

1.9.3 All timbers shall be well seasoned by a suitable process conforming to IS:1141-1993 before being planed to required size. Sap wood of durable species and heart wood and sap wood of non durable species shall be treated with suitable preservative in accordance with IS: 401-1982.

1.9.4 All timber shall be free from decay, fungal growth, boxed hearts, pitch pockets, or streaks, cross grains, borer holes, splits, cracks and shakes.
1.9.5 The following timbers shall be allowed in construction for the particular type of work involved.

1.10 PAINTS AND VARNISHES:

The paint and varnishes shall be best quality, ready mixed of specified type and suitable for the particular work, namely, for steel, wood or plaster surface and of approved brand. The shade and colour shall be as directed by the EICs. The quality and shades conform to the relevant BIS Specifications.

1.11 DISTEMPER:

These shall be oil bound or water bound as specified in the item and shall be of approved brand. The shades shall be as directed by the EICs.

The quality and shades shall conform to relevant BIS specifications.

1.12 CEMENT PAINTS:

All cement paints shall conform to relevant BIS Specifications. The colours shall be as directed by the EICs.

2. SPECIFICATIONS : WORK & WORKMANSHIP

[UNLESS MENTIONED OTHERWISE, ALL MEASUREMENTS SHALL BE IN ACCORDANCE WITH THE RELEVANT PARTS OF IS:1200]

2.1 EXCAVATION & BACKFILLING

2.1.1 Before starting excavation, temporary drainage arrangements shall be provided by the Contractor to prevent surface water entering the trenches, at his own cost.

2.1.1 Excavation work shall be carried out in accordance with drawings, to lines, levels, shapes and dimensions and as required by the EIC; spoils shall be stacked away from the trenches. The final bed shall be leveled, dressed and trimmed correctly, and shall any excavation be taken lower than required, the Contractor shall fill such excavation with lean concrete 1 cement :5 fine aggregate:10 coarse aggregate, well compacted, up to the desired level, at his own cost. Filling up of such extra excavation with excavated materials shall not be allowed.

2.1.3 The Contractor shall at his own cost and without extra charges, make provision for all shoring, pumping, dredging, bailing out water wherever necessary. The trenches shall be kept free from water when masonry or concreting work is done. The rate for earthwork shall include the cost of dewatering and bailing out.

2.1.4 The foundation trenches shall be got inspected and approved by the EIC before any work is commenced.

2.1.5 The excavated earth if found suitable in the opinion of the BICs, shall be used for filling up the sides of the foundation and between the plinth walls in layers not exceeding 150 mm, properly watered and rammed, and any surplus left over shall be spread or deposited at the site and consolidated.

2.1.6 The rate for excavation shall include excavating in all types of soils at all depths except hard rock. The excavated earth, if approved by the BICs, shall be used in plinth filling and compacted after back filling in trenches. Any extra excavation due to slip or falls shall not be measured. The excavation shall extend up to the edge of the mud-mat or the granular cushion, as the case may be, and no allowance shall be made for working space and the like. The rate quoted shall include such allowances, if any and nothing extra on this account shall be paid by the Owner.

2.1.7 The measurement of the works shall be in cubic metre basis, the exact height of the trenches shall be multiplied with the area of trenches.

2.2 EARTH FILLING:

2.2.1 The area to be filled shall be cleaned of grass, shrubs, stumps of trees and the like. The earth for filling in shall be obtained by the Contractor from his own sources. The quality of earth shall be as approved by the BIC. Where filling with sand is specified, the fill material shall be 'Brahmaputra sand' or its approved equivalent. Filling shall be done in layers of 150 mm and consolidated by watering and rolling with power roller in case of open areas and mechanical compactor rammed in case of confined areas, such as inside plinth etc. The final dressing and leveling to the required slope shall be done as shown in the drawings or as directed by the EIC. Compaction by mechanical vibrators shall be done in layers of 150 mm to the complete satisfaction of the BIC.

2.2.2 Payment shall be made on cubic metre basis. The measurement shall be computed from levels taken before and after filling. Deduction of computed quantity by 10% shall be made to arrive at the net quantity for which payment will be made. No such deduction shall be made for filling in confined areas or inside plinth. Intermediate payments may be made on the basis of truck/lorry measurements after deduction of 25% therefrom to account for consolidation and settlement. However, in all cases, the final payment shall be made on the basis of initial and final levels as described and detailed above.

2.2.3 The rate for filling shall include excavation of soil, carriage to the site, spreading, leveling, watering and consolidating including rolling with power rollers in layers of 150 mm and dressing the surfaces. It shall also include cleaning of vegetation/organic matter from areas to be filled, cost of earth including all royalties and other taxes payable. The earth used in filling shall be selected and approved by the EIC.
2.3 CONCRETE PLAIN & REINFORCED:

2.3.1 All concrete work plain as well as reinforced shall conform to IS: 456-2000, nominal mix or design mix as specified. Concrete work is generally designated under 10 grades as given below:

1. 1:5:10 - nominal mix
2. 1:4:8 - nominal mix
3. 1:3:6 - nominal mix
4. 1:2:4 - nominal mix
5. 1:1½:3 - nominal mix
6. M 15 - design mix
7. M 20 - design mix
8. M 25 - design mix
9. M 30 - design mix
10. M 35 - design mix

2.3.2 In case of the last five grades the number stands for designated characteristic strength of works cubes after 28 days expressed in MPa and the first five are given in their nominal mix proportions.

2.3.3 The water cement ratio and the grading of the aggregate for each mix shall be as approved by the EIC, but this shall not in any way relieve the Contractor of his responsibility in regard to the ensuring of the prescribed strength.

2.3.4 Where a minimum concrete strength is specified in the relevant item of work in respect of any concrete of nominal mix grade, then it shall be the responsibility of the Contractor to provide concrete of such minimum specified strength irrespective of the nominal mix prescribed in such item/s without any extra cost to the Owner and/or without any extra payment therefor.

2.3.5 During the progress of the work, tests on works cubes shall be made by the Contractor as directed by the EIC and tested according to the relevant BIS Code of Practice at his own cost. Copies of the test certificates shall be submitted to the EICs/EIC. Concrete shall be deemed to comply with the strength requirements if test results thereof conform to the acceptance criteria prescribed in IS: 456-2000. Concrete not conforming to the said acceptance criteria shall be demolished and redone at the Contractor's cost.

2.3.6 BATCHING & MIXING OF CONCRETE:

2.3.6.1 For concrete of any nominal mix grades, batching of cement, aggregate and water shall be by volume and the mixing shall be done in a mechanical concrete mixer. The aggregate shall be measured separately in suitable measuring boxes. The boxes shall be so proportioned as to avoid dividing contents of one bag. Due allowance shall be made for determining the bulkage of sand and surface water carried by fine as well as coarse aggregate as per IS: 456-2000 and IS: 2386 (Part - III) 1963. For design mix concrete, weigh-batching shall be done on the basis of design mix approved by the EIC. Notwithstanding such approval, the onus of obtaining the specified strength shall lie on the Contractor.

2.3.6.2 Mixing shall be done in mechanical mixers and the period of mixing shall not be, after the mixer has received all the different materials, less than 2 minutes. Care shall be taken to ensure that no segregation takes place while unloading the mix. No partly set concrete or concrete which was mixed earlier than 20 minutes shall be used in work nor shall such concrete be re-mixed and used in any way.

2.3.6.3 Placing of Concrete:

a) Before placing of concrete the shuttering and formwork shall be checked for level, rigidity and the dimensional requirements as shown on drawings. After mixing concrete shall be placed in continuous operation, with least delay over a clean bed. Care shall be taken to avoid segregation while transporting or placing of concrete. All concrete shall be carefully laid in position in horizontal layers not exceeding 150 mm in thickness. Compaction of concrete shall be done with the aid of mechanical vibration in case of members of 150 mm thickness and above. Vibration shall be applied so that the whole mass of concrete assumes a jelly-like appearance and water just appears on the surface. Over vibration and vibration of wet mixes shall be avoided.

b) All protection for work in extreme weather shall be taken as prescribed in IS: 456-2000, while concreting below subsoil water level, the area shall be dewatered, and water level shall not be allowed to rise to the concrete at least for a period of 12 hours. All underground structures such as basements, tunnels etc., and all water retaining structures shall be tested for leakage and seepage before the concrete surfaces are rendered. In case of leakage and seepage, the structure shall be demolished and reconstructed or otherwise rectified as per directions of the EIC at the Contractor's own cost.

c) Concreting in beams, slabs etc. shall be done in one continuous operation and where this becomes impossible the work shall be stopped at predetermined places and lines as directed by the EIC. Whenever work is interrupted for more than one hour, ending grooves shall be formed in concrete already laid and the surface shall be roughened and cleaned before the laying of subsequent concrete. If so directed by the EIC, approved epoxy based bonding agent shall be applied to the edge/border of the concrete laid earlier, at the Contractor's own cost.

2.3.7 CURING:

a) The concrete shall be covered with a layer of sacking, canvas, hessian or such other similar materials and constantly kept wet for seven days from the date of placing of concrete. Alternatively the concrete being thoroughly wetted may be covered by a layer of approved water-proofing material which shall be kept in contact with it for at least ten days.
2.4 FORMWORK:

2.4.1 Centering and shuttering shall be of steel or plywood or timber or other approved materials. For curved fascias, shells and folded plates, the material shall be suitable for the particular application. All formwork shall be properly designed for bearing the load of wet concrete and workmen, and for easy removal and cleaning. Form work shall conform to the shape, lines and dimensions as shown on drawings, and shall be so constructed as to remain sufficiently rigid during the placing and compacting of concrete including all other constructional loads and shall be sufficiently tight to prevent loss of liquid from the concrete.

2.4.2 All rubbish, chippings, shavings, saw dust etc. shall be removed and cleaned before placing of concrete. The inner surface of the shuttering shall be provided /treated with approved material to avoid adhesion of concrete to the shuttering. Oil and such other materials which may prevent adhesion of plaster or other rendering shall not be used. Faces in contact with concrete shall be free from projecting nails, screws etc.

2.4.3 Beam soffits shall be erected with an upward chamber of 6 mm for each 3 m, span or as determined by the EIC. All props shall be supported on folding wedges on sole plates or other measures taken whereby the formwork can be gently lowered without shock.

2.4.4 Removal of shuttering:

Notwithstanding the limitations or other requirements as laid down in this specification relating to the period elapsing between placing concrete and removing shuttering, the assessment of such period and any damage or other consequences arising therefrom shall be the Contractor's entire responsibility.

Minimum period for removal of shuttering:

1. Vertical sides of beams/slabs : 2 days
2. Slabs spanning up to 4.5 m. : 7 days
3. Slabs spanning over 4.5 m. : 14 days
4. Beams spanning up to 6 m. : 14 days
5. Beams spanning over 6 M : 21 days

All form work shall be lowered gently without such shock or vibration that might or would damage the concrete.

2.4.5 Finishing of surface:

a) On removal of shuttering, the concrete shall be inspected for honeycombs and such other defects and these shall be rectified. Unless otherwise specified exposed faces of concrete after removal of shuttering shall be rubbed down smooth with carborandum stone and cement grout as lubricant. Concealed concrete faces shall be left as from shuttering except that honeycomb and such other defects shall be rectified.

b) Top faces of slabs not intended to be surfaced or topped shall be leveled and floated to smooth finish to levels and falls as shown in drawing or as directed. Any indentations or grooving etc. to be done on the surface shall be executed with proper implements and as directed. Top faces of slabs to be covered with screeding or otherwise shall be left with rough finish.

c) All faces intended to be rendered with plaster shall be left rough by raking with chisel or any such method to form sufficient key for the mortar. Surfaces to be finished otherwise than referred to above shall be prepared in an approved manner to suit the finish specified.

2.4.6 Ducts, Holes, Bolts, Mouldings, etc:

a) Ducts, holes, recesses, mouldings, bolt holes etc. shall be formed in concrete as required as per details in relevant drawings and instructions of the EICs. Bolts and other inserts shall be held in position accurately and cast into concrete. Anchor bolts where required shall be cast into position with the help of temporary or permanent template to line and level, and care shall be taken not to damage the threads.

b) No extra claims/ payments shall be admissible in this respect, except for the cost of inserts so fixed, under the relevant items.

2.4.7 Conduit Wiring: Wherever electrical conduits are to be carried inside concrete all necessary help shall be rendered to the agency executing such job and no extra payments shall be admissible in this respect. If conduits are to be placed by the civil works contractor, then this work shall be carried out in accordance with the specifications & directions contained elsewhere in this Contract.

2.4.8 Mode of measurement for concrete work:

---

---

---
a) Payment for reinforced and plain cement concrete shall be in cubic metres of volume by measurement of actual work done. In case of plain concrete, unless otherwise specified, the rate shall include formwork, but in the case of reinforced concrete, reinforcement and formwork shall be separately measured and paid for.

b) Shuttering and formwork shall be measured and paid for separately under the various heads shown in the relevant items. The measurement shall be in square metres of the actual surface area in contact with concrete. Unless specified otherwise in the relevant item/s, no extra payment shall be made for curved work, fillers, throatings and mouldings.

c) Columns shall be measured from the top of the foundation up to the designated end of the column as shown on drawings. Beams shall be measured clear between columns and slabs clear between beams.

2.4.9 The rate/s shall be applicable for work at all levels, in foundations and in superstructure, and no extra payment is admissible for any lead or lift except as specifically provided in the relevant item/s of work. Concrete work shall be classified by nominal mix or grade under different heads as shown in the relevant items of work.

2.5 PRECAST CONCRETE:

2.5.1 All the specifications given in 2.4 above shall apply to all works in precast concrete. No defective, broken or cracked elements shall be used. All precast elements shall be stacked for inspection by the EIC before use. The rate shall include for transportation, placing in position and fitting and fixing the elements with cement mortar 1:2, or where so specified, with bitumen felt and finishing as directed. The rate for precast concrete work shall include necessary formwork and shuttering. Reinforcement shall be paid for separately.

2.6 REINFORCEMENT WORK:

2.6.1 Steel reinforcement shall be provided as shown on drawings. All necessary steel shall be provided in the required quantities and sizes, before being placed in position, the reinforcement shall be thoroughly cleaned of all dirt, grease, paint, oil, mill scales etc. The bars, including those in coils shall be straightened before placement.

2.6.2 Lapping in bars and hooks shall be as per IS: 456-2000 and according to drawings. All bars shall be tied at all intersections with double strand of 1 mm dia. annealed black wire. Laps in successive rows shall be staggered or arranged as shown/mentioned on drawings.

2.6.3 Cover to concrete:

Reinforcement shall have a minimum cover of concrete as specified below:

<table>
<thead>
<tr>
<th>Foundations</th>
<th>50 mm</th>
<th>Slabs/Chajjas</th>
<th>15 mm</th>
<th>Columns:</th>
<th>40 mm</th>
</tr>

<tbody>
<tr>
<td>Underside of beams</td>
<td>25 mm</td>
<td>Sides of beams</td>
<td>25 mm</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

2.6.4 Approval of formwork & reinforcement by EIC

After the reinforcement has been placed in position and before concreting is started, the Contractor shall get the reinforcement, shuttering and centering examined and approved by the EIC. The complete reinforcement for any portion of the work that is to be concreted at one time shall be placed and fixed in position before concreting is started.

2.6.5 If shown on drawings, reinforcement bars projecting out of concrete columns and walls, etc. shall be provided in specified lengths and at the positions and levels shown in the relevant drawings. Necessary allowance for leaving holes etc., in shuttering shall be made by the Contractor for such work. Nothing extra over the price for such reinforcement bars shall be paid.

2.6.6 Measurement & Payment:

Payment shall be done on the basis of tonnes as actually used in the work. The weight shall be calculated on the basis of the theoretical weights computed on the basis that steel weighs 7,850 kilogrammes per cubic metre; nothing extra shall be paid for wastage and tolerance/rolling margins. Hooks (if shown on drawings) and allowable laps and chairs shall be measured and paid for. The rate quoted shall include for cost of binding wire, making holes in shuttering, complete.

2.7 MASONRY:

2.7.1(a) RUBBLE MASONRY:

All stones used in the work shall be of approved quality and size. All stones shall be with their natural bed downwards, leaving no hollow spaces, the interstices being filled with mortar after wedging and driving stone caps. The work shall be to plumb and line and the joints shall be broken vertically. Bond stones of full depth of the wall shall be used at intervals, at least one in every square metre of surface area. The height of the course shall not exceed 0.6 metres. The work shall be kept wet for a minimum period of 10 days after laying.

All stones used in the work shall be of approved quality and size. All stones shall be with their natural bed downwards, leaving no hollow spaces, the interstices being filled with mortar after wedging and driving stone caps. The work shall be to plumb and line and the joints shall be broken vertically. Bond stones of full depth of the wall shall be used at intervals, at least one in every square metre of surface area. The height of the course shall not exceed 0.6 metres. The work shall be kept wet for a minimum period of 10 days after laying.
2.7.1. (b) Weep hole – Weep hole provided as per drawing

2.7.2 BRICK WORK:

a) Brick work shall be carried out with bricks of approved and best quality locally available and size and shall be laid in cement mortar of proportion specified in the item. Every brick shall be thoroughly soaked in water before use. Unless specified otherwise, all brick work of one brick thickness and above shall be in English bond. No broken bricks shall be used except as closures. The joint shall not exceed 10 mm except where such other thickness is required for the purpose of work up to required level or height or for making both faces even. The brick work shall not be raised more than 16 courses in one day. In case of half brick thick walls, those shall be built in stretcher bond.

b) Construction of walls shall be as far as possible carried out in regular and level courses throughout the entire length, and no portion of the walls shall be higher or lower than the others by more than 0.8 mm. All cross walls, counterforts, partitions, buttresses, steps and the like shall be built up course by course with the main walls and carefully bonded into them. Where such bond is not possible for any reason, necessary grooving or toothing shall be left in the brick work for subsequent bonding.

c) Dowel bars from RCC columns shall be built into the walls if shown in drawings. Brick work in beds of drains shall be done as shown on drawings after compacting the sides and bottom faces of excavation properly.

d) The work shall be cured for a period of not less than 15 days by keeping the surfaces constantly moist and wet, and thereafter intermittently for another 15 days. Fresh work shall be adequately protected from rains.

e) The rate for brick work shall include the cost of laying pockets, ducts, recesses, holes and fixing in and building up of inserts, bonding bars, etc. Parapets shall be considered as part of normal wall work and the rate shall include, unless specified otherwise in the relevant item/s of work, chamfering and cutting to shape as shown on drawings. The rate shall also cover the cost of supplying, erecting and dismantling necessary scaffolding and curing. The rate shall also be applicable for work at all levels as described in the relevant item/s of work.

f) Method of Payment:

Measurement of one brick thickness and above shall be on the basis of cubic metres. Half brick and brick on edge walls shall be measured in square metres. Deductions for openings shall be in accordance with the applicable Part of IS: 1200.

2.8 PLASTERING:

2.8.1 The mortar for plastering shall be of the specified proportions by volume. The thickness of plaster shall be as prescribed in the item/s of work. All plastering work shall be done as per IS: 1961-1960. The surface to which plaster is to be applied shall be thoroughly cleaned from dust, dirt, loose mortar and washed and well watered for at least 4 hours before plaster is applied. The joints of brick work or other masonry shall be raked out to a depth of 12 mm. When plaster is to be applied on concrete surfaces the surface shall be hacked with a chisel or scored by trowel when concrete is still green. When the thickness of plaster is more than 12 mm it shall be applied evenly over the surface smoothened with a straight edge, wooden float and trowel. The surface shall be finished off at once by rubbing over with a trowel till cement appears on the surface and till the surface is free from all depressions and unevenness. In case of highly rough and uneven surfaces a rendering coat shall first be applied to bring the surface to evenness by filling up depression and cavities. In case of two coat plastering, the first coat shall be dubbed out while green, and allowed to set. The final coat shall be applied and finished as described for single coat plastering. When smooth finishing is specified, the cement plaster shall be floated over with neat cement within 15 minutes of the application of final coat. To ensure the finish being true to plumb and line, mortar scree or fillets shall be put on the surface true to plumb and line at regular intervals and then only the panels shall be worked on. The plaster shall be cured with water for a minimum period of 15 days and fresh work shall be protected from sun and rain by an approved method.

2.8.2  Rough Cast Plaster:

The surface shall be prepared as described above for cement plaster. A concrete mixture using 1 part ordinary cement (OPC). 2 parts sand and 2 parts broken stone chips or gravel 6 mm to 2 mm size shall be made and applied to the surface by dashing against with a trowel to a uniform thickness of 20 mm.

2.8.3 Method of Measurement & Basis of Payment for Plaster:

Rate shall be per square metre. The actual area of work shall be measured. Deductions for openings and additions for jamb, sills and the like shall be as per the relevant clauses of IS: 1200-1964. The rate shall be applicable for internal as well as external work, work at all heights, work in walls, ceilings, chajjas, fins, on brick work or concrete as specified in the relevant item of work. The rate shall include the complete cost of materials, labour for applying the plaster including necessary scaffolding works, curing etc. complete.

2.9 POINTING:

2.9.1 All joints shall be racked out to a depth of 12 mm. The surface to be pointed must be cleaned and washed and kept wet for 2 days before pointing is commenced. The type of pointing and proportioning of mortar to be used shall be as prescribed in the relevant item.

2.9.2 FLUSH POINTING:
2.10.1 Whitewash & Colour wash:

a) The surface to be whitewashed shall be thoroughly cleaned of all dust, dirt etc. and shall be washed clean. After the surface is dry the wash prepared as specified below shall be applied with jute brushes. Each coat shall consist of four brush strokes, two in vertical direction and two in horizontal direction. The final coat shall be perfectly uniform and free from brush marks. Each coat of whitewash shall be allowed to dry before next coat is applied. When dry, the coat of whitewash shall not show any sign of cracking nor shall come off when rubbed with the fingers. Necessary precaution shall be taken during the operations to see that whitewash is not splashed over wood work, floors and glazing, and all such splashings and droppings shall be cleaned and washed off promptly.

b) The wash shall be prepared from fresh lime only. After slaking the lime shall be mixed with sufficient quantity of water and strained through a clean coarse cloth or other filter. Gum or glue at the rate of 0.5 Kg per 100 kg. of lime shall be added and well mixed. Ultramarine blue in adequate quantity shall be added to the mixture to give it a bluish tint.

2.10.2 Colour Washing:

a) The colour and the number of coats shall be specified in the item. The surface to be colour washed shall be prepared as for whitewashing. The mixture for colour washing shall be prepared except that necessary colouring materials in adequate quantities shall be added in lieu of ultramarine blue. During the process of application the mixture shall be continuously stirred to yield a uniform colour. If on drying the colour wash turns to be streaky, blotchy or powdery or it comes off on touch, it shall be rectified by application of extra coat/s, for which no extra payment shall be admissible.

b) The colour wash shall be applied in the same manner as whitewash. Whether it is specified in the item or not, the surface to be colour washed shall be first treated with a priming coat of whitewash, for which the rate shall be inclusive of such priming coat.

2.10.3 Method of Measurement & Payment:

Rate shall be for one square metre. The actual area of the work done shall be measured. Deductions for openings and additions for sills etc. shall be in accordance with IS: 1200-1964. The rate shall cover the cost of all materials, labour, tools & plants, supply, erection and removal of scaffolding, finishing, cleaning after completion etc., complete.

2.10.4 CEMENT PAINTS:

a) The paint shall be of approved brand, manufacture, colour and quality and shall be brought to the site in sealed containers.

b) The surface to be painted shall be thoroughly cleaned and rubbed down and all unevenness and defects properly rectified. The preparation and application of the paint shall be as per the manufacturer’s specifications and recommendations.

2.10.5 Method of Measurement & Payment:

Same as for white and colour washing.

2.10.6 DISTEMPERS:

a) The type of distemper, make, colour and the number of coats to be applied shall be as specified in the item.

b) The surface to be distempered shall be thoroughly cleaned of dust, dirt, grease, loose scales etc. and rubbed down to make the surface smooth and fit to receive the distemper. The preparation and application of the shall be as per the manufacturer’s specifications and recommendations.

2.10.7 Method of Measurement & Payment:

Same as for white and colour washing.
MANDATORY TEST OF MATERIALS

1. All tests in the manner and the frequency as prescribed by the Central Public Works Department Works Manual shall be carried out by the Contractor at the Contractor’s own cost.

2. In particular the following tests shall be carried out and results thereof submitted with every bill raised by the Contractor:
   - Cube tests on concrete at 7 days and at 28 days
   - Tensile strength and % elongation for reinforcement bars
