- e) All statutory clearances from the local and government authorities are available for the leasing and use of the building e.g. Fire department's clearance, occupation certificate, Income tax department clearance. The interior work should be planned in such a manner that it is carried out along with the building finishing works so that the whole interior is finished along with completion of the construction of the premises and the same could be occupied and used immediately afterwards. Loose furniture can be obtained either from the existing office/branch or procured if and as required, well within the construction period in such cases.

Example for evaluation of proposals:

The example to calculate most successful offerer based on marks given on each of the above parameters is as follows:

Total marks 100.

Three premises short listed- A, B, & C.

They get following marks

A-78; B-70; C-54

Convert them to percentiles

$$A : (78/78)*100= 100$$

$$B : (70/78)*100 =89.74$$

$$C : (54/78)*100=69.23$$

Now that technical offers are evaluated, financial offers can be opened.

Financial quotes for three premises are as follows:

A : Rs 70 per sqm for Built up area

B : Rs 60 per sqm for Built up area

C: Rs 50 per sqm for Built up area

AsC is lowest, to work out percentile score, following will be the calculation:

$$C : (50/50)*100 = 100$$

$$B:(50/60)*100 = 83.33$$

$$A:(50/70)*100= 71.43$$

Since proportion of technical to financial score is specified to be 70:30, then final scores will work out as follows:

$$A:(100 \times 0.70) + (71.43 \times 0.30) = 91.43$$

$$B:(89.74 \times 0.70) + (83.33 \times 0.30) = 87.817$$

$$C:(69.23 \times 0.70) + (100 \times 0.30) = 78.46$$

Therefore Most successful offerer shall be 'A' and Bank may invite 'A' for further negotiation.
