	BOQ FOR INTERIOR FURNITURE WORK FOR EMERALD LOUNGE	E AT			
	BRAHMAPUTRA PREMIUM BRANCH (LOUNGE ONLY)				
lo.	Description	Quantity	Unit	Rate	Amount
	OFFICER'S TABLE- Size 1500mm x 750mm x 750mm				
1	Re-modelling of existing Table as per the following description:				
	Table Top: Providing and fixing 6 mm thick IS 303 BWR grade plywood with 4mm thick Teak veneer with melamine				
	finish within the existing structure. The top of the table shall be provided with equal sized 12mm thick toughened				
	glass with polished edges. The top level of the glass shall be 750mm. Apron (Modesty Panel) made from 18mm thick				
	BWR grade plywood finished with 1mm laminate.				
	Table sides, back & intermediate panels (at 500mm from each side) will be finished with 1mm laminate for exposed				
	surfaces (4 faces) and 0.8 mm thick laminate for inner surfaces shall be provided as per drawing.	6.00	Nos.		
	The rates shall also includes remodellling of side credenza. All internal surface will have min. 0.80 mm thick balancing		1405.		
	laminate. Table shall have stand of 18 mm ply finish with 1 mm thk. Laminate of size 400 x 375 mm for keeping CPU				
	and PVC cable Manager shall be provided in the cutouts on the tabletop.				
	All edges to be provided & fixed with teak wood lipping patti finished with melamine polish. All the surface				
	without teak veneer / laminate / balancing laminate shall be lacquered polished of approved shade.As per				
	drawing and instruction of Bank, work to be completed. The rates shall includes dismantling of existing structure if any				
	Plywood Make: Greenply, Century, Duro or equivalent approved by the Bank.				
	CLERICAL STAFF TABLE- Size 1200mm x 750mm x 750mm				
	Supplying and installation of Table as per the following description: Tabletop shall be made from 19 mm thick IS 303 BWR grade plywood with 4mm thick Teak veneer with melamine polish with necessary intermediate support. Tabletop				
	shall be supported by 19 mm thick BWR grade plywood with wooden framing. The top of the table shall be provided				
	with equal sized 12mm thick toughened glass fixed.Apron (Modesty Panel) made from 19 mm thick BWR				
	grade plywood finished with 1mm laminate & groove pattern as per drawing. Table sides & intermediate panels				
	(at 50cm from each side) made from 19 mm thick BWR grade plywood finished with 1mm thick laminate for all surfaces shall be provided as per drawing.				
	(Removed drawer cabinet in this version as there will be no space left for a person to sit)	1.00	Nos.		
	Computer Keyboard (550 x 375 mm) of metal / PVC of approved make shall be provided. Footrest of 38 x 76 MM T.W				
	members shall be provided. All internal surface will have min. 0.80 mm thick balancing laminate. Table shall have				
	stand of 18 mm ply finish with 1 mm thk. Laminate of size 400 x 375 mm for keeping CPU and PVC cable Manager				
	shall be provided in table top. All edges to be provided & fixed with teak wood lipping patti finished with melamine polish.As per drawing				
	and instruction of Bank, work to be Completed. The rate shall includes dismantling of existing structure if any,				
	Plywood Make: Greenply, Century, Duro or equivalent approved by the Bank.				
	MEETING ROOM TABLE Providing and placing in position Meeting Room tables of approx. size 2100/ 2400 mm x 1200 mm or 900mm/ 1200mm				
	in diameter (size to be considered based on site conditions).				
	Providing & Fixing Conference Table of shape as per design made from 50mm X 40mm T. W. Wood framework				
	450mm center to center both ways for tabletop covered with 12mm thick BWR ply for bottom, 19mm thick BWR ply for				
	top, table stand and base with necessary 50mm X 40mm vertical supports. All exposed surfaces shall be finish with approved color 1 mm thk. Iaminate. All internal surfaces to be finished with 0.8mm thick laminate. All edges to	1.00	.00 Nos.		
	be provide with TW lipping patti finished with melamine polish. Rate shall be inclusive of Brush Finish Stainless Steel				
	Tray with POP UP Flap for electrical switches including necessary openings for wire manager, mikes carting				
	away unserviceable materials out of the compound, cleaning the site etc. complete as per the detail drawing and instruction of Engineer.				
	Plywood Make: Greenply, Century, Duro or equivalent approved by the Bank.				
	SIDE/ REAR CREDENZA- For officer and clerical staff table				
	Low Height Cupboard with Laminate Finish: Providing & fixing Low Height Storage Cupboard of 750 height and 450mm deep. Outer exposed structure with to be made with 19mm BWR ply as per IS 303 and back side using 8mm BWR				
	grade ply. All shutters to be made from 25 mm thk BWR Ply and shelves to be made with 19 mm thk.BWR ply.				
	The top potion of the side and rear credenza to be finished with approved veneer and finished with melamine polish. All				
	the other internal and external surfaces to be finished with 1mm laminate of approved shade and All edges to be		_		
	provide with TW lipping patti finished with melamine polish. Shutters will have concealed handle with wooden groove	5	Rm		
	finished with approved shade of melamine polish as per drawing, magnetic catchers, self-closing SS hinges, locks (Godrej/ Hettich/Haffele), SS towerbolts etc. All shutters to be made overlapping the frame Only front elevation				
	will be considered for area calculation. As per drawing and instruction of Bank, work to be CompletedThe rate shall				
	includes dismantling of existing structure if any,				
	Plywood Make: Greenply, Century, Duro or equivalent approved by the Bank.				
	Same as above- but finished externally with approved quality veneer with melamine polish complete instead	2.00	Rm		
	of 1mm laminate to match with design of tables. STORAGE CUPBOARDS				
	Providing and placing in position storage cupboard of 450 mm depth, made out of 18 mm thick BWR grade ply.				
	Full Height Cupboard with Laminate Finish: Providing & fixing full Height Storage Cupboard of 2100mm height and				
	450mm deep. Outer exposed structure with to be made with 19mm BWR ply as per IS 303 and back side using 8mm				
	BWR grade ply.All shutters and shelves to be made with 19 mm thk. BWR plywood. All internal and external surfaces to				
	be finished with 1mm laminate of approved shade and make.All edges of the cupboard should be edge banded using				
	PVC edge banding tape of approved shade.Shutters to be provided with S.S. 200mm handles, magnetic	3.00	Rm		
а	catchers, self-closing SS hinges, locks (Godrej/ Hettich/Haffele), SS tower bolts etc. All shutters to to be				
	made overlapping the frame. Only front elevation will be considered for area calculation. The rates shall includes	I		1	
	dismantling of existing structure if any Plywood Make: Greenply, Century, Duro or equivalent appro				

	Some as above, but finished externally with approved quality variant and DL seating finish average selection and			1	1
b	Same as above- but finished externally with approved quality veneer and PU coating finish over melamine polish	1.00	Rm		
	complete instead of 1mm laminate.				
6	 WALL/ COLUMN PANELING WITH LAMINATE FINISH. Wall paneling made from 25 x 25 x 1.00 mm thick hollow aluminum sections, over which BWR grade ply of 10 mm shall be fixed and additional 6-8mm ply in layers to create grooves as per the design in the drawing t, with decorative molding patty on the edges. Providing and fixing in position wooden paneling to column / walls finished with laminate comprising as under:-(i) Framework:- Made out of 50 mm x 25 mm x 1.2mm thick extruded Aluminium hollow sections, placed not exceeding 600 mm centre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. (ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood and additional 6-8mm ply in layers to create grooves as per the design to Aluminum framework finished with 1.00 mm thick approved quality and shade laminate, using approved adhesive, in approved pattern & design, including providing grooves, decorative molding setc. as per drawings and as directed at site by the Engineer-in-charge. (iii) Providing approved quality, seasoned, full length, Teak Wood molding 15 mm thick with adequate width as required at site, to all openings, cutouts etc duly polished with melamine polish complete as directed by the Engineer-in-charge at site. (v) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / cables, Switch boards, AC ducts etc., including providing necessary wooden/aluminum section members support at cutouts, doors/windows openings etc. complete as per drawings and as directed by the Engineer-in-charge at site. (v) Applying 2 or more coats of melamine polish to exposed edges of paneling, moulded beadings etc. including preparation of surface, sealer coats etc. complete including wastage of material, if any, scaffolding for execution of work at all heights and locations etc. complete. The rate shall includes dismantling of existing structure if	33.00	Sq.m.		
	(d) Adhesive: Fevicol SH/Vamicol or equivalent approved by the Bank.				
	Mode of measurement:- Though, the aluminium frame may extend above false ceiling level, clear paneling area available below false ceiling shall only be measured after deduction for all openings above 0.50 Sqm.				
7	FULLY GLAZED TOUHGEN DOOR Providing and fixing position 12 mm fully glazed toughened glass door, single/ double shutter, of approx. size 900/ 1500 x 2100/2400 mm Providing and fixing in position frameless glass door shutter made using 12mm thick toughened glass fixed to the partition (glazed / solid / gypsum partitions) using heavy duty floor spring with pivot of approved make including necessary cutting of floor and making the surface good to its original position including all necessary Patch fittings of approved make and fixtures & hardwares. Approved make: DORMA Top Pivot - PT 24, Top Patch Fittings - PT 20, Bottom Patch fittings - PT 10, Floor Spring - BTS 75 V, Corner lock with strike plate and Handle - TG DIH600 - 600mm length) or equivalent brand fittings from Hettich / Hafele / as per sample approved by the Bank. Rate should also include providing film as per design/ instructions of Bank. Mode of Measurement: Door opening size shall be measured.	6.3	Sqm		
8	FULL HEIGHT FULLY GLAZED PARTITION WITH 12MM TOUGHENED GLASS UPTO 7' LEVEL. WITH SOLID PARTITION ABOVE 7' LEVEL Providing & fixing full height glazed partition with 12mm Toughened glass of approved make up to 7' level height with solid partition above 7'-0' level up to false ceiling bottom. The glazed panels shall be fixed to the existing floor and false ceiling with all necessary SS brackets (D, C or U type) Vertical joints between the glass panels shall be sealed with suitable transparent sealant. The solid partition above7'-0" level shall be made with aluminium framework of size 63mm X38.10mm X1.47 mm (0.780Kg /mtr) box section. The spacing of the Horizontal and Vertical members are approximately 600mm c/c (maximum) and the top of the frame shall be fixed to the RCC slab bottom. The exposed surfaces on both sides of framework are covered with 6mm BWR ply finished with 1.0mm thick laminate as per direction. Providing, placing in position & erecting full height partition in desired shape, framework shall be of 50 x 50 x 1.5 mm thick aluminum square section placed at 500 mm c/c both ways or as directed.	27	Sqm		
	FULL HEIGHT SOLID WOODEN PARTITION WITH BOTH SIDES LAMINATE				
9	Providing & fixing in position 70mm thick +/- 2mm full height solid/opaque wooden partitions finished with laminate on both sides comprising as under:- (i) Framing- Made out of 50mm x 50mm, 1.2 mm thick hollow aluminium square sections at spacing not exceeding 600 mm (may slightly vary as per unavoidable site conditions) both ways (horizontal and vertical) fixed rigidly on floor, wall / column & ceiling. (ii) Pinyshing:- Providing & fixing 12 mm thick MDF boards on both sides of the framework. (iii) Finyshing:- Providing 1.00 mm thick, approved quality and shade laminate, on both sides of partitions in approved quality adhesive complete. (v) Making suitable cutouts/ openings/ channels for Doors, electrical conduits, cables & switch boards, AC ducts etc including making guitable door frame with rebate for door shutters using approved quality seasoned full-length Teak Wood having finished sectional size 75mm x 20mm to the door perimeter complete as per detailed drawing and as directed at site. (vi) Applying 2 or more coats of approved matching shade and finish, melamine polish to all exposed edges of partitions including those in door openings, cutout set. complete. (vii) The rate shall include cost of required hardware, necessary transportation, The rates shall includes dismantling of existing structure if any Plywood Make: Greenply, Century, Duro or equivalent appro	15	Sqm		
	Bank. (b) MDF Board:- Greenply, Century, Samrat or equivalent approved by the Bank. (c) Laminate:- Greenlam/Century/Archid or equivalent approved by the Bank. (d) Adhesive: Fevicol SH/Vamicol or equivalent approved by the Bank.				

	MDF FLUTED WOODEN PANELLING				
10	Wall paneling made from framework of 25 x 25 x 1.20 mm thick hollow aluminum sections spaced 600mm c/c, over which MDF fluted wooden panel of 10mm +/-2mm shall be fixed as per the design in the drawing . (i) Framework:- Made out of 25 mm x 25 mm x 1.2mm thick extruded Aluminium hollow sections, placed not exceeding 600 mm centre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb.	5	S		
10	(ii) Panel Finishing:- Providing & fixing 10mm +/- 2mm thick approved MDF Wooden Panelling fixed on the aluminum sections with tongue and groove joints in line and level. (iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / cables, Switch boards, AC ducts etc., including providing necessary wooden/aluminum section members support at cutouts, doors/windows openings etc. complete as per drawings and as directed by the Engineer-in-charge at site.	5	Sqm		
11	Providing & Supplying Sofas, Sofa chairs of various types & categories (Single seater, Two seater & Three seater) etc complete as per the manufacturers specifications as mentioned below. The rights to select & approve the sofas & seating shall vest with the clients. The contractor shall submit brochures of manufacturer at the time of quoting for this item etc complete as per layout. The consultants reserve the right to select the sofas in line with the technical specifications envisaged & meeting the specifications standards expected.(Approved makes: Godrej / Durian / Featherlite)		I		
а	Single seater sofa	0	nos		
b	Two seater sofa	1	nos		
с	Three seater sofa	1	nos		
U .	CHAIRS FOR OFFICERS/VISITORS AND MEETING ROOM				
	Supplying & Installation of Office Chairs				
	a) The seat & back are made of 1.20 cm thick hot-pressed plywood upholstered with fabric and polyurethane foam together with moulded ABS seat & back covers. The back foam should be designed with contoured lumber support for extra comfort having seat size 51x47 cm and back size 48x68cm approx. Overall size of the chair Depth 70 cm x width 70 cm x height 106 - 123.5cm seat ht44 - 45 cm. The polyurethane foam should be moulded with density				
12	=45 ± 2 kg/m3 and hardness + 20 ± 2 kg on Hampden machine at 25% compression. b) Chair should be provided with a synchro tilt mechanism which should offer features like forward tilt, self-regulating tilt tension + Manual override, 4 position tilt locking and anti-shock back mechanism which prevents the back rest from hitting the user when the lock should be released. The backrest consists of a drop lift mechanism, which can be adjusted in the range of 6.5 cm and can be locked in 5 steps for the better lumbar support. c) Chair should be provided with a gas lift mechanism for height adjustments. The pedestal should be injection moulded in black 30% glass filled nylon. The pedestal should be 60 cm pitch centre dia (70 cm with castors). The twin wheel				
	castors are injection moulded in black nylon. All metal components are epoxy polyester powder coated with dry film thickness of more than 45 microns, salt spray test to withstand more than 1000 hrs, pencil scratch hardness more than 2H, other tests conforming to Class D, IS:6005:1970. Polyurethane arm rest & 5 twin wheel extra smooth castors. Chair for Officers (Godrej model- DIVA Revolving Mid Back with Fixed Loop Arms)				
а	/ equivalent approved make of Featherlite / Wipro	1.00	Nos.		
b	Chair for Visitors (Godrej model- DIVA Revolving Mid Back with Fixed Loop Arms) / equivalent approved make of Featherlite / Wipro	2.00	Nos.		
с	Chairs for Meeting Room (Godrej model- DIVA Revolving Mid Back with Fixed Loop Arms) / equivalent approved make	6.00	Nos.		
	of Featherlite / Wipro GYPBOARD FALSE CEILING				
13	Providing and fixing false ceiling at all height including providing and fixing of frame work made galvanized M.S. sections as per IS : 277 and consisting of angle cleats of size 25 mm wide x 1.6 mm thick with flanges of 27 mm and 37mm, at 1200 mm centre to centre, one flange fixed to the ceiling with dash fastener 12.5 mm dia x 50mm long with 6mm dia bolts, other flange of cleat fixed to the angle hangers of 25x10x0.50 mm of required length with nuts & bolts of required size and other end of angle hanger fixed with intermediate G.I. channels 45x15x0.9 mm running at the spacing of 1200 mm centre to centre, to which the ceiling section 0.5 mm thick bottom wedge of 80 mm with tapered flanges of 26 mm each having lips of 10.5 mm, at 450 mm centre to centre, shall be fixed in a direction perpendicular to G.I. intermediate channel with connecting clips made out of 2.64 mm dia x 230 mm long G.I. wire at every junction, including fixing perimeter channels 0.5 mm thick 27 mm high having flanges of 20 mm and 30 mm long, the perimeter of ceiling fixed to wall/partition with the help of rawl plugs at 450 mm centre, with 25mm long dry wall screws @ 230 mm interval. Fixing of gypsum board to ceiling section and perimeter channel with the help of dry wall screws of size 3.5 x 25mm at 230 mm c/c, including jointing and finishing to a flush finish of tapered and square edges of the board with recommended jointing compound , jointing tapes , finishing with jointing compound in 3 layers covering upto 150 mm on both sides of joint and two coats of primer suitable for board, all as per manufacturer's specification and also including the cost of making openings for light fittings, grills, diffusers, cutouts made with frame of perimeter channels suitably fixed, all complete as per drawings, specification and direction of Engineer in charge including cost of painting the false ceiling with two coats of acrylic emulsion paint over a cost of puty 12.5 mm thick tapered edge gypsum plain board conforming to IS: 2095- (Part I) :2011 (Boar	8.82	Sqm		
14	FALSE CEILING FINISHED WITH LAMINATE Same as Gypsum false ceiling but instead gypsum boards providing, making, and fixing 12 mm thick. BWR Grade ply, and additional 6-8mm ply in layers with molding of approved design shall be fixed as per drawing, with decorative molding patty. The plywood should be finished with 1 mm thick. Laminate of approved colour(wooden finish) and quality.	3.00	Sqm		

MINERAL FIBRE GRID TILE CEILING:				
Providing and fixing tiled false ceiling of specified materials of size 595x595 mm in true horizontal level, suspended on				
nter locking metal grid of hot dipped galvanized steel sections (galvanized @ 120 grams/ sqm, both side inclusive)				
consisting of main "T" runner with suitably spaced joints to get required length and of size 24x38 mm made from 0.30				
,				
Jiffusers, grills, light fittings, fixtures, smoke detectors etc.				
	8.00	Sqm		
Main "T" runners to be suspended from ceiling using GI slotted cleats of size 27 x 37 x 25 x1.6 mm fixed to ceiling with				
12.5 mm dia and 50 mm long dash fasteners, 4 mm GI adjustable rods with galvanised butterfly level clips of size 85 x				
statically polyester powder coated of thickness 60 microns (minimum), including factory painted after bending and				
perforation, and backed with a black Glass fibre acoustical fleece.				
COVE IN FALSE CEILING

(iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / cables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site. -ogo:- Providing and fixing in position with SS studs or as directed laser cut Logo as per design made from 18 mm WDF board (exterior grade) and finished with enamel paint as directed complete.				
pentre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. (ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 3 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. (iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / cables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site. ogo:- Providing and fixing in position with SS studs or as directed laser cut Logo as per design made from 18 mm <u>MDF board (exterior grade) and finished with enamel paint as directed complete</u> . Acrylic Emulsion Paint on old surface				
enertre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 3 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / cables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site. Logo:- Providing and fixing in position with SS studs or as directed laser cut Logo as per design made from 18 mm MDF board (exterior grade) and finished with enamel paint as directed complete. Acrylic Emulsion Paint on old surface Preparing earlier treated surface by scraping, rubbing with sand paper, applying two coats of Birla white putty				
eventre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. (ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 8 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. (iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / cables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site	1	No.		
enertre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 3 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / cables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site. Logo:- Providing and fixing in position with SS studs or as directed laser cut Logo as per design made from 18 mm MDF board (exterior grade) and finished with enamel paint as directed complete. Acrylic Emulsion Paint on old surface Preparing earlier treated surface by scraping, rubbing with sand paper, applying two coats of Birla white putty				
eventre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. (ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 8 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. (iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / cables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site	1	No.		
eventre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. iii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 3 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / aables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site. ogo: Providing and fixing in position with SS studs or as directed complete. MDF board (exterior grade) and finished with enamel paint as directed complete. MDF board incluse ob surface Preparing earlier treated surface by scraping, rubbing with sand paper, applying two coats of Birla white putty wherever required, to level the surface, and its rubbing with sand paper, to ensure smooth surface, suitable to receive paint and then applying 2 or more coats of approved colour and shade of Acrylic Emulsion Paint with low	1	No.		
pentre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 3 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / cables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site. ogo:- Providing and fixing in position with SS studs or as directed laser cut Logo as per design made from 18 mm <u>MDF board (exterior grade) and finished with enamel paint as directed complete</u> . Acrylic Emulsion Paint on old surface Preparing earlier treated surface by scraping, rubbing with sand paper, applying two coats of Birla white putty wherever required, to level the surface, and its rubbing with sand paper, or ensure smooth surface, suitable to eceive paint and then applying 2 or more coats of approved colour and shade of Acrylic Emulsion Paint with low <i>VOC</i> content over a coat of approved primer complete as per manufacturers' specifications to internal walls/ceiling including necessary scaffolding etc. complete.	1	No.		
The pertre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. (ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with a mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. (iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / cables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site. Jogo:- Providing and fixing in position with SS studs or as directed laser cut Logo as per design made from 18 mm MDF board (exterior grade) and finished with enamel paint as directed complete. Acrylic Emulsion Paint on old surface Preparing earlier treated surface by scraping, rubbing with sand paper, applying two coats of Birla white putty wherever required, to level the surface, and its rubbing with sand paper, to ensure smooth surface, suitable to eceive paint and then applying 2 or more coats of approved colour and shade of Acrylic Emulsion Paint with low /OC content over a coat of approved primer complete as per manufacturers' specifications to internal walls/ceiling including necessary scaffolding etc. complete. Make:- Asian / Berger/ICI or approved equivalent make.	1	No.		
The server to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. (ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 3 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. (iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / ables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site. Ogo: Providing and fixing in position with SS studs or as directed complete. Acrylic Emulsion Paint on old surface Preparing earlier treated surface by scraping, rubbing with sand paper, applying two coats of Birla white putty wherever required, to level the surface, and its rubbing with sand paper, or ensure smooth surface, suitable to eceive paint and then applying 2 or more coats of approved colour and shade of Acrylic Emulsion Paint with low //OC content over a coat of approved primer complete as per manufacturers' specifications to internal walls/ceiling including necessary scaffolding etc. complete. Polyester Film over glazed partitions:	1	No.		
eventre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. iii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 3 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / aables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at siteogo:- Providing and fixing in position with SS studs or as directed laser cut Logo as per design made from 18 mm MDF board (exterior grade) and finished with enamel paint as directed complete. Acrylic Emulsion Paint on old surface Preparing earlier treated surface by scraping, rubbing with sand paper, applying two coats of Birla white putty wherever required, to level the surface, and its rubbing with sand paper, to ensure smooth surface, suitable to receive paint and then applying 2 or more coats of approved colour and shade of Acrylic Emulsion Paint with low /OC content over a coat of approved primer complete as per manufacturers' specifications to internal walls/celling including necessary scaffolding etc. complete. Polyester Film over glazed partitions: Providing and fixing in position high impact resistant Polyester Films of approved design & pattern, which once installed	1 25.00	No. Sq.m.		
The server to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. (ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 3 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. (iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / ables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site. Ogo: Providing and fixing in position with SS studs or as directed complete. Acrylic Emulsion Paint on old surface Preparing earlier treated surface by scraping, rubbing with sand paper, applying two coats of Birla white putty wherever required, to level the surface, and its rubbing with sand paper, or ensure smooth surface, suitable to eceive paint and then applying 2 or more coats of approved colour and shade of Acrylic Emulsion Paint with low //OC content over a coat of approved primer complete as per manufacturers' specifications to internal walls/ceiling including necessary scaffolding etc. complete. Polyester Film over glazed partitions:	1	No.		
The pertre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columns in perfect line, level and plumb. (ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 3 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. (iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / pables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site	1 25.00	No. Sq.m.		
pentre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 3 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / cables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site. 	1 25.00	No. Sq.m.		
The pertre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columns in perfect line, level and plumb. (ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 3 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. (iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / pables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site	1 25.00	No. Sq.m.		
pentre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 3 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self-adhesive tape complete as directed by the Engineer-in-charge. iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / cables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site. 	1 25.00 6.45	No. Sq.m.
