No.	DESCRIPTION	QTY	UNIT	RATE	AMOUNT
	Note: The Vertical Distribution boards and ETPN boards dismantled with incoming and outgoing MCB/MCCBS) shall be reused to maximum possible extent.				
1	MODULAR SOCKETS:				
а	Supply and fixing of 4nos. 5A ,3 pin plug sockets with 1 no 16A switch fixed on a suitable module metal box and white front plate (Modular type) including all interconnections as required UPS power (Indicator Switch shall be fixed above the table with suitable modular front plate/box and sockets shall be fixed below the counters)	15.00	no		
	Supply and fixing of 2nos. 5A sockets with 1 no 16A switch fixed on a suitable module metal box and white front plate (Modular type) including all interconnections as required Rawpower (Switch shall be fixed above the table with suitable modular front plate/box and sockets shall be fixed below the counters)(Raw power - 8 nos, UPS -5 nos)	38.00	no		
			İ		
	Supply and fixing of modular RJ11 telephone sockets with suitable mounting box (Modular type) including all interconnections as required (Bm, officers,counter,reception,fo)	15.00	no		
d	Supply and fixing of 3nos. 15A sockets with 1 no 16A switch fixed on a suitable module metal box and white front plate (Modular type) including all interconnections as required UPS power(for the SERVER room)socket for the hub must be fixed as per the location of HUB inside the server room	1.00	no		
е	Supply and fixing of 1nos. 15A socket with 16A switch fixed on a 3 module metal box and white front plate (Modular type) including all interconnections as required(swayam-1, water cooler-1, kitchen pantry -2, DG -1, ATM machines -2	12.00	no		

_ _

Supply and fixing of 1nos. 15A socket fixed on a 3 module metal box and white front plate (Modular type) including all interconnections as required for safe room,record room,locker room 5.00 no g Providing 2 meter length of flexible 3core 2.5sqmm multi core copper cable one end connected to plug top 15A and the other connected to the SB inside and a suitable hook arranngement as required for hanging 5.00 no the cable 2 LIGHT & FAN POINT WIRING Point wiring with 1.5sqmm 650V grade multistranded PVC insulated copper wire FRLS type in MS/PVC PIPE for lights, fans including supply & fixing of 5 amp modular switch in concealed MS switch box.front plate, 3 plate ceiling rose/Angle holder in suitable 78 pts block having provision for concealed circuit wiring with 3 Nos (P,N,E) 2.5sqmm. and all interconnections as required. same as the above with two light points controlled by 6.00 pts single switch Supply and fixing of flush type 6A, 5 pin combined switch socket outlet in the Lighting control switch boards including interconnections complete as 10.00 nos required.(dependent) п supply and fixing of 6A modular socket 3" below the false ceiling and 6A switch in the switchboard as required for wall mounted fans 18.00 nos Same as item 2a but for call bell points including providing new buzzer for the Branch Manager cabin 1.00 nos as required Supply and installation of 25 A Modular type 3 pin plug socket with suitable metallic box for air 7.00 conditioners nos

	Supply and installation of 25A modular type DP switch (2 module with indicator) with suitable metallic /PVC box for the local control of the air conditioners.	7.00	nos	
3	UPS, RAW POWER & TEL WIRING:			
	Supply and wiring with 3runs of 2.5 sq.mm 1100 V grade PVC insulated multi strand copper conductor wires FRLS conforming to IS 694 (with latest amendments) in suitable size PVC CONDUIT of 2mm thick concealed in the above ducts in the floor and supply of all fixing materials and accessories, interconnections complete as required for the UPS power sockets in the single window counters and officer tables. (UPS ,Raw power points over counter,16A plug points, cash officer, signage boards)	1200.00	mtr	
b	Wiring for the wall mounting fans from the nearest switch board with 1.5sqmm 650V grade multistranded PVC insulated copper wire FRLS in MS/PVC PIPE and all interconnections as required i.	300.00	mtr	
С	Cutting the floor to the required depth 2" and width 6" for burying the conduits for the UPS/raw power socket wiring and plastering the floor surface.	100.00	mtr	
	Supplying and laying 2 pair telphone wire 0.50Sqmm in Modi make PVC /casing capping / pipe of 20/25 mm dia for the telephone points as per the layout.	400.00	mtr	
е	Supply and laying of 20/25mm ISI marked PVC conduit with one run of 16 SWG GI wire from the location of hub to computer nodes and as may be required for PA systems	100.00	mtr	
	Chipping the wall for laying the PVC pipes ,re plastering and bringing back it to original finish for concealing the existing vertical drops/switch boards	50.00	mtr	
4	DISTRIBUTION POARRO			
4	DISTRIBUTION BOARDS		<u> </u>	
	Supply and installation of following size MCB distribution boards with following combination of MCBs as required
