	CER'S TABLE- Size 1500mm x 750mm x 750mm				
Table necess of th shall I Table lamin Draw made thick the in chanr front Comp be pr mm t All ec veneo Archi	blying and installation of Table as per the following description and as designed by the Architect: a Top: Providing and fixing 19 mm thick IS 303 BWR grade plywood with 4mm thick Teak veneer with melamine finish with ssary intermediate support. Table top shall be supported by 18 mm thick BWR grade ply wood with plywood framing. The top he table shall be provided with equal sized 12mm thick toughened glass with polished edges. The top level of the glass be 750mm. Apron (Modesty Panel) made from 18mm thick BWR grade plywood finished with 1mm laminate. e sides, back & intermediate panels (at 500mm from each side) made from 18 mm thick MR ply wood finished with 1mm nate for exposed surfaces (4 faces) and 0.8 mm thick laminate for inner surfaces shall be provided as per drawing. wer / Storage cabinet: Box of 400 X 750 X 720 mm shall be provided using 18 mm thick BWR grade plywood. Each Drawer Fascia e out of 18 mm thick plywood and all sides of drawers be made of 12 mm thick plywood & bottom of drawers shall be of 8 mm BWR grade plywood. The drawer unit box and individual drawers to be fixed with 1mm laminate on all exposed sides and all nternal surfaces shall be finished with 0.80 mm thick balancing laminate. The drawers to be fitted with Telescopic sliding nel with SS Group locks of approved make and 100 mm long brush finish Stainless Steel handles C-type for each drawer. The t ply of the drawers to be overlapping the frame. puter Keyboard (550 x 375 mm) of metal / PVC of approved make shall be provided. Footrest of 38 x 76 MM T.W members shall rovided. All internal surface will have min. 0.80 mm thick balancing laminate. Table shall have stand of 18 mm ply finish with 1 thk. Laminate of size 400 x 375 mm for keeping CPU and PVC cable Manager shall be provided in the cutouts on the tabletop. dges to be provided & fixed with teak wood lipping patti finished with melamine polish. All the surface without teak ter / laminate / balancing laminate shall be lacquered polished of approved shade.As per dr	2	no.		
2 CLERI	ICAL STAFF TABLE- Size 1200mm x 750mm x 750mm				
Suppi plywc 19 mi tough groov plywc (Rem Comp be pr mm t All ec instru	by and installation of Table as per the following description: Tabletop shall be made from 19 mm thick IS 303 BWR grade ood with 4mm thick Teak veneer with melamine polish with necessary intermediate support. Tabletop shall be supported by im thick BWR grade plywood with wooden framing. The top of the table shall be provided with equal sized 12mm thick hened glass fixed.Apron (Modesty Panel) made from 19 mm thick BWR grade plywood finished with 1mm laminate & ve pattern as per drawing. Table sides & intermediate panels (at 50cm from each side) made from 19 mm thick BWR grade ood finished with 1mm thick laminate for all surfaces shall be provided as per drawing. noved drawer cabinet in this version as there will be no space left for a person to sit) puter Keyboard (550 x 375 mm) of metal / PVC of approved make shall be provided. Footrest of 38 x 76 MM T.W members shall rovided. All internal surface will have min. 0.80 mm thick balancing laminate. Table shall have stand of 18 mm ply finish with 1 thk. Laminate of size 400 x 375 mm for keeping CPU and PVC cable Manager shall be provided in table top. deges to be provided & fixed with teak wood lipping patti finished with melamine polish.As per drawing and uction of Architect/Bank, work to be Completed. ood Make: Greenply, Century, Duro or equivalent approved by the Bank.	1	no.		
3 MEET	TING ROOM TABLE				
condi Provia cente with Iamin melar neces etc. c	iding and placing in position Meeting Room tables of approx. size 1200mm in diameter (size to be considered based on site litions). iding & Fixing Conference Table of shape as per design made from 50mm X 40mm T. W. Wood framework 450mm center to er both ways for tabletop covered with 12mm thick BWR ply for bottom, 19mm thick BWR ply for top, table stand and base necessary 50mm X 40mm vertical supports. All exposed surfaces shall be finish with approved color 1 mm thk. nate. All internal surfaces to be finished with 0.8mm thick laminate. All edges to be provide with TW lipping patti finished with mine polish. Rate shall be inclusive of Brush Finish Stainless Steel Tray with POP UP Flap for electrical switches including ssary openings for wire manager, mikes carting away unserviceable materials out of the compound, cleaning the site complete as per the detail drawing and instruction of Engineer. ood Make: Greenply, Century, Duro or equivalent approved by the Bank.	2	no.		

a	Low Height Cupboard with Laminate Finish: Providing & fixing Low Height Storage Cupboard of 750 height and 450mm deep. Outer exposed structure with to be made with 19mm BWR ply as per IS 303 and back side using 8mm BWR grade ply. All shutters to be made from 25 mm thk BWR Ply and shelves to be made with 19 mm thk.BWR ply.The top potion of the side and rear credenza to be finished with approved veneer and finished with melamine polish. All the other internal and external surfaces to be finished with 1mm laminate of approved shade and All edges to be provide with TW lipping patti finished with melamine polish. Shutters will have concealed handle with wooden groove finished with approved shade of melamine polish as per drawing, magnetic catchers, self-closing SS hinges, locks (Godrej/ Hettich/Haffele), SS towerbolts etc. All shutters to be made overlapping the frame Only front elevation will be considered for area calculation. As per drawing and instruction of	0	no.	
	Architect/Bank, work to be Completed Plywood Make: Greenply, Century, Duro or equivalent approved by the Bank.			
b	Same as above- but finished externally with approved quality veneer with melamine polish complete instead of 1mm laminate to match with design of tables.	3	no.	
5	STORAGE CUPBOARDS			
A	Providing and placing in position storage cupboard of 450 mm depth, made out of 18 mm thick BWR grade ply. Full Height Cupboard with Laminate Finish: Providing & fixing full Height Storage Cupboard of 2100mm height and 450mm deep. Outer exposed structure with to be made with 19mm BWR ply as per 1S 303 and back side using 8mm BWR grade ply.All shutters and shelves to be made with 19 mm thk. BWR plywood. All internal and external surfaces to be finished with 1mm laminate of approved shade and make.All edges of the cupboard should be edge banded using PVC edge banding tape of approved shade.Shutters to be provided with S.S. 200mm handles, magnetic catchers, self-closing SS hinges, locks (Godrej/ Hettich/Haffele), SS tower bolts etc. All shutters to to be made overlapping the frame. Only front elevation will be considered for area calculation. Plywood Make: Greenply, Century, Duro or equivalent approved by the Bank.	0	no.	
в	Same as above- but finished externally with approved quality veneer and PU coating finish over melamine polish complete instead	0	SQ.M	
с	of 1mm laminate.			
<u> </u>	LOW HEIGHT STORAGE CABINETS/BACK STORAGE: (0.90 HIGH) (a) Providing and fixing storage cabinets of size 2'6" (High) x 16" (Deep) along the walls/partitions, as per interior drawings, using 19mm board for carcase, shutters, vertical and horizontal partitions, 6mm ply for the back and 1mm laminate of approved shade on vertical and horizontal visible surfaces. The shutters shall be overlapped on the carcase and shall be provided with Hettich /Godrej/Ozonehinges. The width of the shutter shall be between 12" to 15" as per the site conditions. All the exposed edges of the board shall be provided with wooden lipping 19mm x 3mm, duly PU polished/deco painted in desired shade. The inner surface shall be provided with 0.8mm thick laminate of desired shade and design. The cabinet shall be complete with handles, knobs, locks and magnet catchers etc. to the satisfaction of the Architect/Engineer.	5.51	SQ.M	

WAL/ COLUMN PANELING WITH LAMINATE FINISH. 58.45 SQ.M Wall paneling made from 25: 25: 25: 100 mm tick holiow aluminum sections, over which BWR grade ply of 10 mm shall be fixed and additional 6-8mm ply in layers to create grookes as per the design in the drawing or as directed by Architect, with decorative moling path on the edges. SQ.M I/Framework: Made out of 50 mm x25 mm x1.2mm tick extruded Aluminium holiow sections, placed not exceeding 600 mm terms entre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columns in perfect line, level and plumb. If a section of the section of 50 mm phy in layers to create grookes as per the design to Aluminum framework finished with 100 mm thick approved quality and shade laminate, using approved apletties in, happroved frames the section of necessary hardware, making cutous J / opening for electrical conducts / cables, switch baseds, AC ducts etc., including providing grookes, decorative molding etc. as per Architectural (tri)? To create should include cost of measure and autors / cables, switch hoards, AC ducts etc., including providing mecssary outors / specing for electrical conducts / cables, switch hoards, AC ducts etc., including moride by the Engineer-in-charge at site. If with a section was addited on equivalent approved by the Bank. (i) Approved make: (i) Withinum exturded sections: Jinda, Hindalco or equivalent approved by the Bank. If withinum exturded sections: Jinda, Hindalco or equivalent approved by the Bank. If withinum exture desctions: Jinda, Hindalco or equivalent approved by the Bank. If withinum extureds s		58.45	SQ.M	
inditional - Smm ply in layers to create grooves as per the design in the drawing or as directed by Architect, with decorative molding path on the edges. Providing and fixing in position wooden paneling to column / walls finished with laminate comprising as under: (I) Framework: Made out of 50 mm z5 mm x1.2mm thick estruded Aluminum hollow sections, placed not exceeding 600 mm gentre to centre, bothways (horizontal and vertical), fixed rigidy on wall / columns in perfect line, level and plumb. (II) Pranel Pinshing: Providing & fixing 9 mm thick approved make 8VM Plywood and additional 6 8mm ply in layers to create grooves as per the design to Aluminum finalwew thrange. (III) Providing approved adhteske, in approved pattern & design, including provoking grooves, decorative molling, etc. as per Architectural drawings and as directed at site by the Engineer-in-charge at site. (IV) Providing approved quality, assocned, full length, Teak Wood molding 15 mm thick with adequate width as required at site, to all openings, coutost et duly poinding, coused edges of paneling, moulded beadings etc. including providing necessary hardware, making cutouts / colues, doors/windows openings etc. complete including wastage of material, if any, scaffolding for execution of work at all heights and locations etc. complete. (I) Aluminum extruded sections: Jindal, Hindalco or equivalent approved by the Bank. (I) Admesive: Fourd S A dirag Century, Duro or equivalent approved by the Bank. (I) Admesive: Fourd S A dirag Century, Archid / Aerolam or equivalent approved by the Bank. (I) Adminum extruded sections 12 mm fully glazed toughened glass door, single/ double shutter, of approx. size 900/1500 x 7.81 SQ.M Full				
molting party on the edges. Providing and fixing in position wooden paneling to column / walls finished with laminate comprising as under:-				
Providing and fixing in position vacaden paneling to column, valis finished with laminate comprising as under:- Mode out 50 mm x 25 mm x 1.2mm thick struded Adminitum holines vescions, placed not exceeding 500 mm rentre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnos in perfect line, level and plumb. Mode in the structure of the design to Adminitum finamework finished with 100 mm thick approved quality and shade laminate, using approved gatem & design, including providing grooves, decrative molding etc. as per Advinctural drawings and a directed at site by the fingineer-in-charge at site. Mode in the final period platem & design, including providing grooves, decrative molding etc. as per Advintextural drawings and a selected at site by the fingineer-in-charge at site. Mode of Mode in the final centre, wooden/advinum section members support at cutouts, doors/windows openings etc. complete advings and as directed by the fingineer-in-charge at site. Mode of Mode in the final centre, wooden/advinum section members support at cutouts, doors/windows openings etc. complete advinge and as directed by the fingineer-in-charge at site. Mode of measure adving proved make sector adving and a directed by the fingineer-in-charge at site. (iv) Applying 2 more coast of melamine polish to compared exposed deged beadings etc. including proved make: Mode of measure advings and a directed by the fingineer-in-charge at site. Mode of measure adving the complete advingt and shade laminate. Mode of measure advings and since advingt a				
I(I) Framework:- Made out of 50 mm x.5 mm xi. Zmm thick extruded Aluminum hollow sections, placed not exceeding 600 mm (entre to, bothways (hurinoznial and vertical), Ned rigidly on wall / columnis in perfect line, level and plumb. (II) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood and additional 6.8mm ply in layers to create grooxes as per the design to Aluminum framework finished with 1.00 mm thick approved quality and shade beliminate, using approved adjust-seasoned, full lengineer-in-charge. (III) Providing approved quality, seasoned, full lengineer-in-charge adjusted to site by the Engineer-in-charge adjusted to site by the Engineer-in-charge at site. (V) The rate should include cost of necessary hardware, making cutous / openings for electrical conduits / cables, Switch boards, AC ducts etc., including providing moves at site. (V) Applying 2 or more coats of melamine polish to exposed deges of paneling, moulded beadings etc. including proparation of surface, complete as per drawings and a directed by the Engineer-in-charge at site. (V) Applying 2 or more coats of melamic polish to exposed deges of paneling, moulded beadings etc. including proparation of surface, raster exclude sections: Jindal, Hindalco or equivalent approved by the Bank. (P) Pywood- Greenpi, Century, Duro or equivalent approved by the Bank. (P) Alphaeixe: Fevicio SHV/Amiciol or equivalent approved by the Bank. (P) Alphaeixe: Fevicio SHV/Amiciol and regulated togenomy equivalent approved by the Bank. (P) Adminum the adminum thare may extend above false celling level, clear paneling area available below false celling shall only be measured after deduction for all openings above 0.50 Sqm. Futur Guzze Dooe Providing and fixin				
centre to centre, bottways (horizontal and vertical). Itsed rigidly on wall / columns in perfect line, level and pumb. (ii) Panel Finishing: Providing & fixing 9 nm thick approved made BWR phywood and additional 6-shoring pumb. (iii) Providing approved pattern & design, including providing grooves, decorative moldings etc. as per Architectural drawings and a directed as the by the Engineer-in-charge. (iii) Providing approved quality, seasoned, full length, Teak Wood molding 15 nm thick with adequate width as regurded at site, to all openings, cutouts et duly polished with meanine polish complete as directed by the Engineer-in-charge at site. (iv) The rate should include cost of necessary wooden/alumium section members support at cutouts, doors/windows openings etc. complete as directed by the Engineer-in-charge at site. (v) Applying 2 or more costs of melanine polish courses wooden/alumium section members support at cutouts, doors/windows openings etc. complete. Approved make: (a) Auminum extruded sections: Jindal, Hindalco or equivalent approved by the Bank. (b) Phywood: Creenply, Century, Our or equivalent approved by the Bank. (c) Antimize: Dorby Mica, Greenlam/Century/Archid / Aerolam or equivalent approved by the Bank. (d) Administer sericol SHV/ancio or equivalent approved by the Bank. (d) Administer sericol SHV/ancio or equivalent approved by the Bank. (e) Administer sericol SHV/ancio or equivalent approved by the Bank. (d) Administer sericol SHV/ancio or equivalent approved by the Bank. Mode of measurement: Though, the aluminium frame may sectend above false ceiling level, clear paneling area available below false ceiling shall only be measured after deduction for all openings above 0.50 Sqm. FULY GLAZED DOON Providing and fixing position 12 mm fully glazed toughened glass door, single/ double shutter, of approve. Size 900/ 1500 x Tolog Ago mm Providing and fixing in position framele				
(ii) Panel Finishing:- Providing & fining & mm thick approved make BWR plywood and additional 6-8mm ply in layers to create growses as per the design to Aubminum framework finished with 1.00 mm thick approved quility and shade laminate, using approved adhesive, in approved pattern & design, including providing grooves, decorative moldings etc. as per Architectural drawings and a directed at site by the Engineer-in-charge at site, to all openings, cutouts etc duly polished with melamine polish complete as directed by the Engineer-in-charge at site. Image: Support				
proved adhesive, in approved pattern & design, including providing grooves, decorative molding set. as per Architectural drawings and as directed at site by the Engineer-in-charge. (iii) Providing approved quality, seasoned, full length, Teak Wood molding 15 mm thick approved quality and state set. (iii) Providing approved quality, seasoned, full length, Teak Wood molding 15 mm thick with adequate width as required at site, to all openings, cutouts et duity polished with melamine polish complete as directed by the Engineer-in-charge at site. (iv) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / cables, Switch boards, AC ducts etc., including providing necessary wooden/ables of paneling moulded beadings etc. Including preparation of surface, sealer coats etc. complete including wastage of material, if any, scaffolding for execution of work at all heights and locations etc. complete. Approved make: (a) Aluminum extruded sections: Jindal, Hindaico or equivalent approved by the Bank. (b) Phywood: Greenply, Century, Duro or equivalent approved by the Bank. (c) Laminate:- Dorby Mica, Greenlany, Century, Atenio / Areolam or equivalent approved by the Bank. (d) Adhesive: Feviol SHV/annicol or equivalent approved by the Bank. Indived with hominato on both sides comprising a under: (i) Praming. Made out of 50mm x 50mm, 12 mm thick hollow aluminum sections not exceeding 600 mm of both within a member may vary to the moments possible extent as provide condition. 0 \$2.4 (ii) Wyood Sub-motion (2m to the hollow aluminum sections not be disk of the finamework: (iii) Wyood Sub-motion (2m to the hollow aluminum sections not be disk of the finamework: (iii) Wyood Sub-motion (2m to the hollow aluminum sections not be disk of partitions in approved design 8 generative complex. (iv) Providing and fining throme thick approved make 1200 mm high toghtened Glass panels in the middle panels of partitions using (iv) Providing and fining throme thick approved make 1200 mm high toghtened Glass panels in the middle panels of partitions using (iv) Providing and fining usable door frame with relate for door shutters using approved qualky second of using of middle actional ator 25mms, wooden usports wherever required and directed at tate. (iv) Providing and making usable door frame with relate for door shutters using approved qualky second of using and as generative data tate. (iv) Providing and making usable door frame with relate for door shutters using approved qualky second of using and as fining through automation of the door bases. (iv) Approved make: (iv) Providing and making usable door frame with relate for door shutters using approved qualky second of qualky second of using and as (iv) Approved make: (iv) Providing and making usable door frame with relate for door shutters using approved qualky second of qualky second at the composition and work at all heights and locations inviding and make second incomposition for Doors and openings above 0.50 Spm. and extres chail include coat classing papersed by the Bank. (ii) Ad	 glass middle panels finished with laminate on both sides comprising as under:- (I) Framing: Made out of 50mm x 50mm, 1.2 mm thick hollow aluminium sections not exceeding 600 mm c/c bothways (horizontal and vertical) exception of partition, fixed rigidly on floor, wall / column & ceiling. Spacing of frame members may vary to the nearest possible extent as per site conditions. (II) Plywood skin:- Providing & fixing 12mm thick MDF boards on both sides of the framework. (III) Finshing:- Providing 1.00 mm thick, approved quality and shade laminate, on both sides of partitions in approved design & pattern including making grooves as per Architectural drawing or as directed by the Engineer-in-charge using approve qualityadhesive complete. (IV) Providing 1.00 mm thick, approved make 1200 mm high toughened Glass panels in the middle panels of partitions using second class seasoned teak wood moulding of finished sectional size 75mmx12/15 mm all-round, complete as per drawing and as directed at site. (IV) Providing and making suitable door frame with rebate for door shutters using approved quality assoned full-length Teak Wood having finished sectional size 75mm x12/15 mm all-round, complete as per drawing and as directed at site. (V) Providing and making suitable door frame with rebate for door shutters using approved quality seasoned full-length Teak Wood having finished sectional size 75mm x12/ns to all exposed edges of partitions including those in door openings, cutouts etc. complete. (VI) Applying 2 or more coats of approved matching shade and finish, melamine polish to all exposed edges of partitions including those in door openings. cutous tect. complete. (VII) The rate shall include cost of required hardware, necessary transportation, execution of work at all heights and locations including all lead, lift, wastage, statutory liabilities etc. complete. (A) Aluminum extruded sections: Jindal, Hindalco or equivalent approved by
 a) Providing and fixing false ceiling with cove at all height including providing and fixing of frame work made galvanized M.S. sections as per IS : 277 and consisting of angle cleats of size 25 mm wide x 1.6 mm thick with flanges of 27 mm and 37mm, at 1200 mm centre to centre, one flange fixed to the ceiling with dash fastener 12.5 mm dia x 50mm long with 6mm dia bolts, other flange of cleat fixed to the angle hangers of 25x10x0.50 mm of required length with nuts & bolts of required size and other end of angle hanger fixed with intermediate G.I. channels 45x15x0.9 mm running at the spacing of 1200 mm centre to centre, to which the ceiling section 0.5 mm thick bottom wedge of 80 mm with tapered flanges of 26 mm each having lips of 10.5 mm, at 450 mm centre to centre, shall be fixed in a direction perpendicular to G.I. intermediate channel with concerting clips made out of 2.64 mm dia x 230 mm long. the perimeter of ceiling fixing perimeter channels 0.5 mm thick 27 mm high having flanges of 20 mm and 30 mm long, the perimeter of ceiling fixed to wall/partition with the help of raw plugs at 450 mm centre, with 25mm long dry wall screws @ 230 mm interval. Fixing of gypsum board to ceiling section and perimeter channel with the help of flaw plugs at 50 mm dows of primer suitable for board, all as per manufacturer's specification and also including the cost of making openings for light fittings, grills, diffusers, cutouts made with frame of perimeter channels suitably fixed, all complete as per drawings, specification and direction of Engineer in charge including cost of painting the false ceiling with two coats of arrylic emulsion paint over a cost of putty 12.5 mm thick tapered edge gypsum plain board conforming to IS: 2095- (Part I) :2011 (Board with BIS certification marks) to be used. 	partition area below false ceiling
 a) Providing and fixing false ceiling with cove at all height including providing and fixing of frame work made galvanized M.S. sections as per IS: 277 and consisting of angle cleats of size 25 mm wide x 1.6 mm thick with flanges of 27 mm and 37mm, at 1200 mm entre to centre, one flange fixed to the ceiling with dash fastener 12.5 mm dia x 50mm long with 6mm dia bolts, other flange of cleat fixed to the angle hangers of 25x10x0.50 mm of required length with nuts & bolts of required size and other end of angle hanger fixed with intermediate G.I. channels 45x15x0.9 mm running at the spacing of 1200 mm centre to centre, to which the ceiling section 0.5 mm thick bottom wedge of 80 mm with tapered flanges of 26 mm each having lips of 10.5 mm, at 450 mm centre to centre, shall be fixed in a direction perpendicular to G.I. intermediate channel with concerting clips made out of 2.64 mm dia x 230 mm long. the perimeter of ceiling fixing perimeter channels 0.5 mm thick 27 mm high having flanges of 20 mm and 30 mm long, the perimeter of ceiling fixed to wall/partition with the help of raw plugs at 450 mm centre, with 25mm long dry wall screws @ 230 mm interval. Fixing of gypsum board to ceiling section and perimeter channel with the help of flaw plugs at 50 mm dots of primer suitable for board, all as per manufacturer's specification and also including the cost of making openings for light fittings, grills, diffusers, cutouts made with frame of perimeter channels suitably fixed, all complete as per drawings, specification and direction of Engineer in charge including cost of painting the false ceiling with two coats of arrylic emulsion paint over a cost of putty 12.5 mm thick tapered edge gypsum plain board conforming to IS: 2095- (Part I) :2011 (Board with BIS certification marks) to be used. 	
 a) Providing and fixing false ceiling with cove at all height including providing and fixing of frame work made galvanized M.S. sections as per IS: 277 and consisting of angle cleats of size 25 mm wide x 1.6 mm thick with flanges of 27 mm and 37mm, at 1200 mm centre to centre, one flange fixed to the ceiling with dash fastener 12.5 mm dia x 50mm long with 6mm dia bolts, other flange of cleat fixed to the angle hangers of 25x10x0.50 mm of required length with nuts & bolts of required size and other end of angle hanger fixed with intermediate G.I. channels 45x15x0.9 mm running at the spacing of 1200 mm centre to centre, to which the ceiling section 0.5 mm thick bottom wedge of 80 mm with tapered flanges of 26 mm each having lips of 10.5 mm, at 450 mm centre to centre, shall be fixed in a direction perpendicular to G.I. intermediate channel with connecting clips made out of 2.64 mm dia x 230 mm long. It he perimeter of ceiling fixed to wall/partition with the help of raw plugs at 450 mm centre, with 25mm long dry wall screws @ 230 mm interval. Fixing of gypsum board to ceiling section and perimeter channel with help of farw plugs at 450 mm centre, with 25mm long dry wall screws @ 230 mm interval. Fixing of gypsum board to ceiling section and square edges of the board with recommended jointing compound , jointing tapes, finishing with finish of tapered and square edges of the board with recommended jointing tow coats of primer suitable for board, all as per manufacturer's specification and also including the cost of making openings for light fittings, grills, diffusers, cutouts made with frame of perimeter channels suitably fixed, all complete as per drawings, specification and direction of Engineer in charge including cost of painting to E3: 2095- (Part I) :2011 (Board with BIS certification marks) to be used. Same as Gypsum false ceiling but providing, making, and fixing Gypsum cove (inside height 150 - 200 mm and border 75 mm) to hide 	
	 a) Providing and fixing false ceiling with cove at all height including providing and fixing of frame work made galvanized M.S. sections as per IS : 277 and consisting of angle cleats of size 25 mm wide x 1.6 mm thick with flanges of 27 mm and 37mm, at 1200 mm centre to centre, one flange fixed to the ceiling with dash fastener 12.5 mm dia x 50mm long with 6mm dia bolts, other flange of cleat fixed to the angle hangers of 25x10x0.50 mm of required length with nuts & bolts of required size and other end of angle hanger fixed with intermediate G.I. channels 45x15x0.9 mm running at the spacing of 1200 mm centre to centre, to which the ceiling section 0.5 mm thick bottom wedge of 80 mm with tapered flanges of 26 mm each having lips of 10.5 mm, at 450 mm centre to centre, shall be fixed in a direction perpendicular to G.I. intermediate channel with connecting clips made out of 2.64 mm dia x 230 mm long, the perimeter of ceiling fixed to wall/partition with the help of rawl plugs at 450 mm centre, with 25mm long dry wall screws @ 230 mm interval. Fixing of gypsum board to ceiling section and perimeter channel with the help of dry wall screws of size 3.5 x 25mm at 230 mm c/c, including jointing and finishing to a flush finish of tapered and square edges of the board with recommended jointing compound , jointing tapes , finishing with jointing compound in 3 layers covering upto 150 mm on both sides of joint and two coats of primer suitable for board, all as per manufacturer's specification and also including the cost of making openings for light fittings, grills, diffusers, cutouts made with frame of perimeter channels suitably fixed, all complete as per drawings, specification and direction of

b)	FALSE CEILING FINISHED WITH LAMINATE			
	Same as Gypsum false ceiling but instead gypsum boards providing, making, and fixing 12 mm thick. BWR Grade ply, and	5.58	SQ.M	
	additional 6-8mm ply in layers with molding of approved design shall be fixed as per drawing or as directed by Architect,			
	with decorative molding patty.			
	The plywood should be finished with 1 mm thick. Laminate of approved colour(wooden finish) and quality.			
13	MINERAL FIBRE GRID TILE CEILING:	20.02	60.14	
	Providing and fixing tiled false ceiling of specified materials of size 595x595 mm in true horizontal level, suspended on inter locking metal grid of hot dipped galvanized steel sections (galvanized @ 120 grams/ sqm, both side inclusive) consisting of main "T" runner with suitably spaced joints to get required length and of size 24x38 mm made from 0.30 mm thick (minimum) sheet, spaced at 1200 mm center to center and cross "T" of size 24x25 mm made of 0.30 mm thick (minimum) sheet, 1200 mm long spaced between main "T" at 600 mm center to center to form a grid of 1200x600 mm and secondary cross "T" of length 600 mm and size 24x25 mm made of the 1200x600 mm panel to form grids of 600x600 mm and wall angle of size 24x24x0.3 mm and laying false ceiling tiles of approved texture in the grid including, required cutting/making, opening for services like diffusers, grills, light fittings, fixtures, smoke detectors etc.	20.82	SQ.M	
	Main "T" runners to be suspended from ceiling using GI slotted cleats of size 27 x 37 x 25 x1.6 mm fixed to ceiling with 12.5 mm dia and 50 mm long dash fasteners, 4 mm GI adjustable rods with galvanised butterfly level clips of size 85 x 30 x 0.8 mm spaced at 1200 mm center to center along main T, bottom exposed width of 24 mm of all T-sections shall be pre-painted with polyester paint, all complete for all heights as per specifications, drawings and as directed by Engineer-in-charge. GI Metal Ceiling Lay in perforated Tegular edge global white colour tiles of size 595x595 mm and 0.5 mm thick with 8 mm drop; made of GI sheet having galvanizing of 100 gms/sqm (both sides inclusive) and 20% perforation area with 1.8 mm dia holes and having NRC (Noise Reduction Coefficient) of 0.5, electro statically polyester powder coated of thickness 60 microns (minimum), including factory painted after bending and perforation, and backed with a black Glass fibre acoustical fleece.			
14	Center Table (3'-0" X 2'-0" Oval / Rectangular)			
	Providing and supplying in position oval or rectangular centre table to be made out of 2" X 2" teakwood frame including 12mm thk	1	NOS	
	clear glass top with bevelled edges including bottom glass shelf with etching etc complete. The rate shall also include SS lining			
	design to the teakwood frames including all the necessary hardware, fittings, fixtures as per manufactursrs specifications			
	complete.			
15	BACK PAINTED GLASS + LOGO			
	Back painted glass (Lacquer Glass) paneling:	10.04	SQM	
a.	Providing and fixing in position wooden paneling to column / walls finished with Back painted (Lacquer Glass) comprising as under:- (i) Framework:- Made out of 50 mm x 25 mm x 1.2mm thick extruded Aluminium hollow sections, placed upto 600 mm centre to centre, bothways (horizontal and vertical), fixed rigidly on wall / columnns in perfect line, level and plumb. (ii) Panel Finishing:- Providing & fixing 9 mm thick approved make BWR plywood to Aluminum framework finished with 8 mm thick approved quality and make back painted Lacquer Glass panels of required size, rigidly fixed using 3M adhesive / double side self- adhesive tape complete as directed by the Engineer-in-charge. (iii) The rate should include cost of necessary hardware, making cutouts / openings for electrical conduits / cables, Switch boards etc., including providing necessary wooden/aluminum section members support at cutouts, providing scaffolding for execution of work at all heights, complete as per drawings and as directed by the Engineer-in-charge at site.			
b.	Logo:- Providing and fixing in position with SS studs or as directed laser cut Logo as per design made from 18 mm MDF board (exterior grade) and and 10 inch -12 inch high and finished with PU metallic paint as directed complete.	1	NOS	

	Providing & laying in-position Vitrified tiles in floor and skirting of approved make and colour uniformly in line, level and in approved design, including laying avg. 20 to 25 mm thick bed of CM 1:6 (1 cement : 6 coarse sand) and filling the joints with epoxy based joint filling compound of matching shade, curing the joints etc complete. Rates to include providing & fixing 100 mm high skirting as per drawing flushed with finished surface of wall in line and level and 6 mm wide groove to be made in wall at the junction of skirting and finished surface of wall etc. complete matching to flooring as per drawing flushed surface of wall etc.	0	SQM	
	direction of Engineer In-Charge. Make: Kajaria, Somany, Simpholo, Johnson, RAK, Nitco Size of Tile 800 x 800 mm			
7	WOODEN FLOORING + SKIRTING			
	Providing and placing in position wooden laminate flooring with planks of size not less than 1200 mm X 190 mm (with unlink panels / tongue-groove locking arrangement) having a 0.2 mm thick top abrasive layer followed by decorative layer upon HDF (high density fiberboard) substrate core over raisin saturated backing layer installed using tongue-groove system over 2 mm thick underlayer of polyurethane foam on 250-micron polythene sheet over a smooth, flat, hard and free from moisture floor surface complete in all respect with required accessories like end profile, transition profile, reducer 'T' profile etc. and preparation of base including all other incidental works as per direction & satisfaction of Architect in charge. Cost of Laminate Floor Accessories, Skirting, End edge, T- molding, Reducer shall have to be added in the cost, wherever required. Grade :-AC4	53.67	SQ.M	
8	Low Height wooden Partitions (LHP) with laminate finish			
	 Providing & fixing in position 70 mm +/- 2mm thick Low height wooden partitions with 450mm high glass panel finished with laminate on both sides comprising as under:- (i) Total Height of the partitions shall be from 1200 mm to be 1350 mm including 300 to 450 mm high 12 mm clear glass panel as per approved drawing. (ii) Framing : Made out of 50mm x 50mm, 1.2 mm thick hollow aluminium sections placed bothways (horizontal and vertical) not exceeding 450 mm c/c rigidly fixed to floor, wall / columns etc including extending end/intermediate vertical members not exceeding 1500 mm c/c for total finished height of LHP. (iii) Skin : Providing & fixing 12 mm thick MDF plywood on both sides of the framework and all-round vertical posts extending up to total height of LHP. (iii) Finishing : - Providing and fixing 1.00mm thick approved quality and shade laminates using approve quality adhesive, over ply as per approved design & pattern including providing grooves as per Architectural drawing and as directed by the Engineer-incharge. (iv) Glazing :- Providing and fixing 12mm thick approved make clear float glass panels (not exceeding 1.50 m in length) with polished edges on all sides, fixed using suitable CP Brass /SS 'D' brackets placed not exceeding 450mm c/c on horizontal surface of partition and at both ends on vertical posts to rigidly hold the glass panels. (v) Providing finished section size 70/75 x 8mm thick seasoned second class Teak wood moulding to all exposed edges of partition including applying 2 or onre coats of melamine polish / Lauce paint including necessary preparatory work for surface preparation with putty, priming coat, sealer coat etc. complete as per sample approved by the Bank. (vi) Making necessary cutoust for electrical conduits / cables & switchboard etc., including providing additional supports wherever required complete as per drawings and as directed by Engineer. (vii) Making necessary cutousts for electrical condu	6.9	SQM	
1	Acrylic Emulsion Paint on new surface Providing and applying 2 or more coats of approved Acrylic Emulsion paint with roller finish over a coat of primer on internal walls including necessary scaffolding etc. complete as per manufacturers' specifications. Make:- Asian / Nerolac / Berger / Dulex	5	SQM	

22	Acrylic Emulsion Paint on old surface Preparing earlier treated surface by scraping, rubbing with sand paper, applying two coats of Birla white putty wherever required, to level the surface, and its rubbing with sand paper, to ensure smooth surface, suitable to receive paint and then applying 2 or more coats of approved colour and shade of Acrylic Emulsion Paint with low VOC content over a coat of approved primer complete as per manufacturers' specifications to internal walls/ceiling including necessary scaffolding etc. complete. Make:- Asian / Berger/ICI or approved equivalent make.	5	SQM	
23	Polyester Film over glazed partitions: Providing and fixing in position high impact resistant Polyester Films of approved design & pattern, which once installed on glass, give additional strength to glass, reduce glare & prevent glass from splintering on impact. thickness not less than 4 Mil (100 mic.) or 7 Mil (175 mic.)	26.2	SQ.M	
24	Roller Blinds			
	Providing, fabricating and fixing vertical roller blinds of approved make preferably of "Vista Levelor" with a woven made acrylic coated fabric of 100% polyester of thickness 0.50 – 0.60 mm (+/- 5% tolerance) with the main properties like resistance to Cracking & Fraying, dust repellence, UV proof and virtually maintenance free along with the Vista accessories of like Head rail, Roller tube Idler, Bottom rail, chain, matching colour installation brackets etc. including all fixtures and fittings of Vista like Rainbow curtain rods with electric resistance welded MS pipe having a corrugated virgin PVC extrusions reinforced to minimize friction, finials and along with standard anchoring arrangements etc. all complete done in workmanlike manner as per the approved design, colour and including necessary scaffolding as directed.	3.9	SQ.M	
25	BUY BACK :- (All the old grid/false ceiling, Alumunium partition, wooden partition, tables and low height/full height storage are to be included in Buy back except for the material in good condition and that can be reused. Also , if the existing material in good condition is to be included in buy back , prior approval from Branch Manage is recommended.	1	NOS
