

2021

Our origins trace back to the establishment of the Bank of Calcutta in 1806. In our long and rich history, we have inherited an impressive heritage of historical properties. This wealth of heritage holds a special place in the hearts of the SBI family and our customers who are proud to be associated with us.

We welcome you to take a walk down the memory lane as you move through 2021. From a century old savings account passbook to century-old doors to a salary register from 1927 preserved in a glass box, these relics hold value that's more than just transactional.

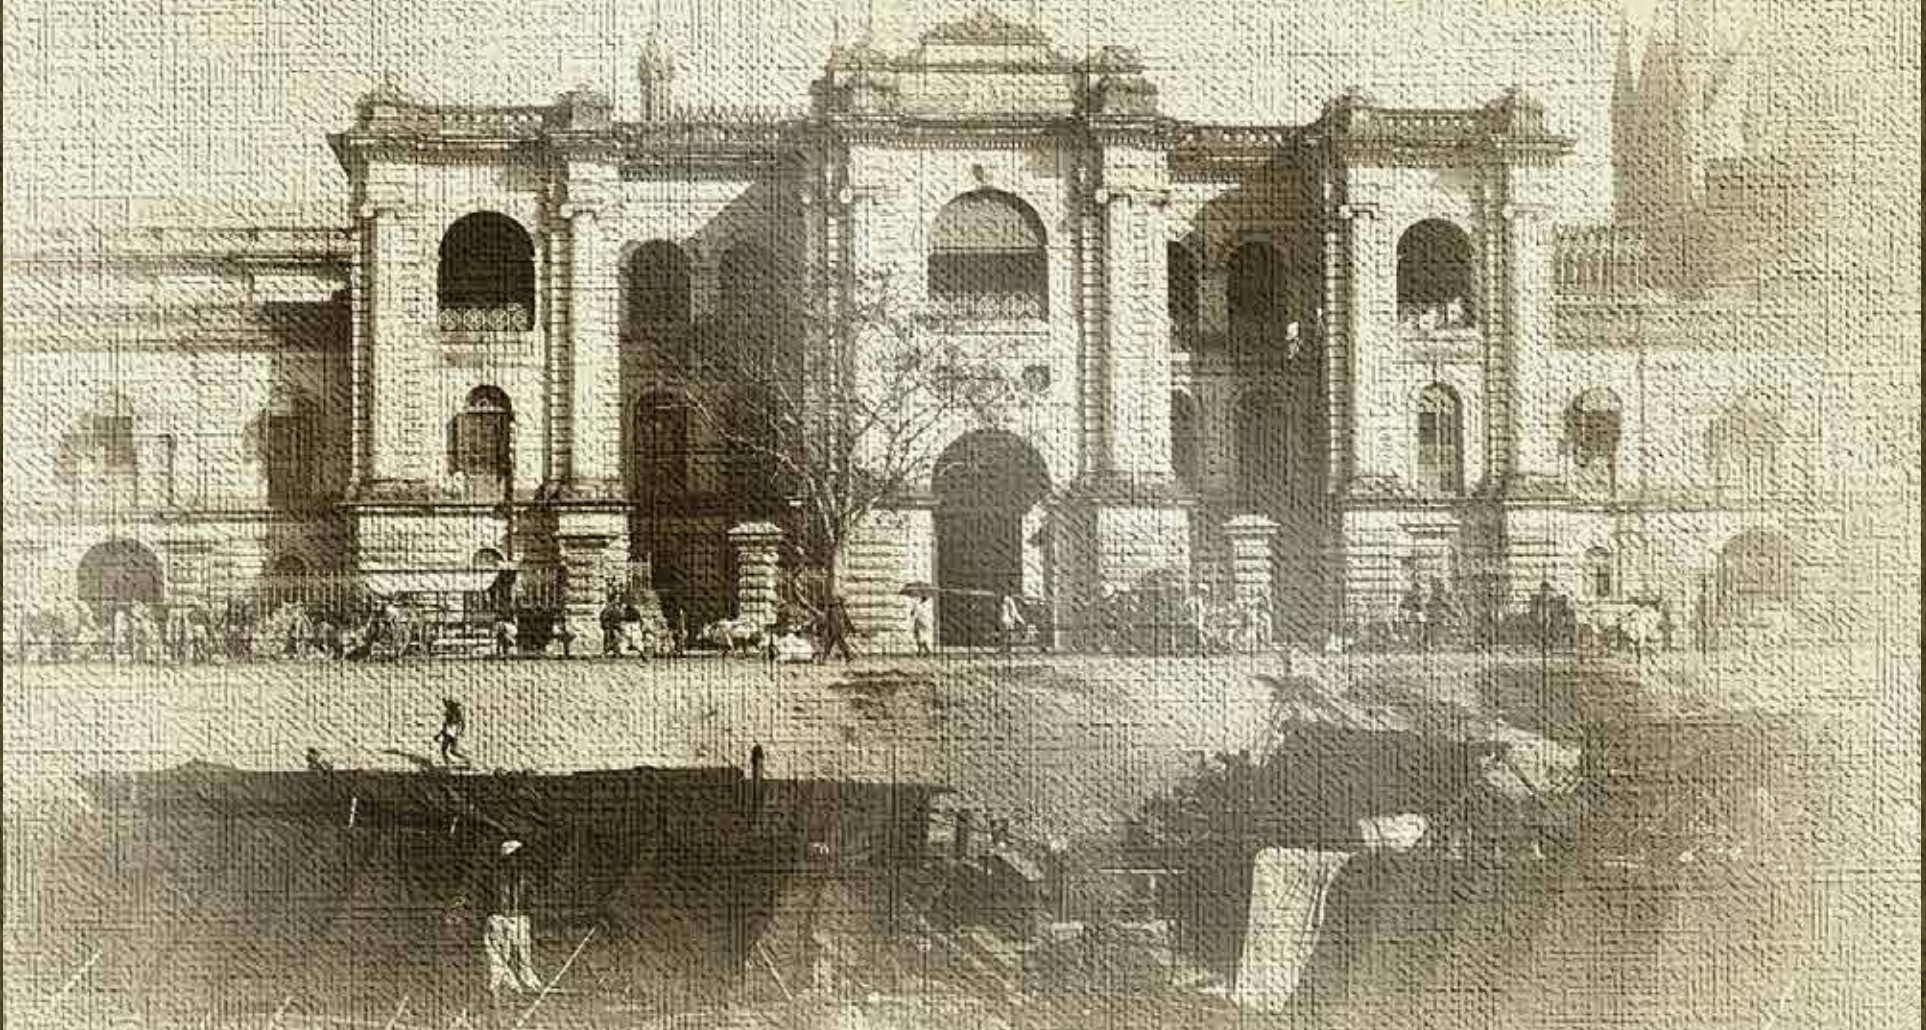

Among other things, these branches can give a walkthrough on how modern banking has evolved in India. As we enter the new year, we look back at the era of ledger books written with reed pens while doing digital transactions in a jiffy and recognize how our great bank has shaped the past and present of banking in India.

As we chart our journey into the future, we're sure to create more landmarks. Not just heritage buildings but also key landmarks, in building the Nation.
